NEWS

New partnership will promote equity and anti-racism

Last week, FCM announced a new partnership with the Canadian Race Relations Foundation to advance anti-racism, equity and inclusion in municipalities across Canada. This partnership will create opportunities for municipalities to share best practices, highlight successes and discuss how to overcome barriers to progress on anti-racism and equity across Canada. We will also work to support concrete actions on the part of local governments.

[» MORE INFORMATION](#)

[Housing Accelerator Fund has been announced](#)

Last week, Daniel Rubinstein, FCM's Senior Director of Policy and Government Relations, presented to the Standing Committee on Human Resources, Skills and Social Development and the Status of Persons with Disabilities with FCM's recommendations for the new Housing Accelerator Fund. Local governments are excited about the potential of the fund to empower municipalities to both deploy new strategies and scale up existing programs to expand Canada's housing supply. FCM recommends that at least 50% of the Housing Accelerator Fund should be delivered through upfront allocations to major cities (as with the Rapid Housing Initiative), to empower municipalities to take transformative action.

Zibi District Energy – A GMF success story

FCM's \$23-million investment to Hydro Ottawa through FCM's Green Municipal Fund (GMF) to create a district energy (DE) system for Ottawa–Gatineau's carbon-neutral Zibi waterfront development is in the news again. The innovative DE system will help transform 34 acres of brownfield lands between Ottawa and Gatineau's urban core into the National Capital Region's first net-zero community. This project shows how GMF continues to build on its 20-year record of supporting transformative environmental initiatives at the municipal level. The Ottawa Citizen talks about the potential of the project and GES reductions.

NEWS

[FCM presents to the House of Commons Standing Committee on Finance](#)

Daniel Rubenstein, FCM's Senior Director of Policy and Government Relations, presented to the House of Commons Standing Committee on Finance last week. His message? That the most recent federal budget equips local leaders with tools to deliver concrete results in our communities. In particular, he expressed enthusiasm on behalf of municipalities about the new Housing Accelerator Fund and the scale-up of the Rapid Housing Initiative and the Reaching Home program to tackle chronic homelessness.

Rubenstein emphasized that there is a clear opportunity to do more through the Disaster Mitigation and Adaptation Fund to help rural communities. The need for this support is urgent, as we saw last year in BC and Atlantic Canada, and as we're seeing right now with the flooding in Manitoba and NWT.

FCM

June 2, 2022

Presenting our second issue of FCM Momentum!

This time, we want to introduce you to some of the dedicated FCM members who contribute to our gender equality and social inclusion programs in Canada and abroad. Their leadership and collaborative spirit help us to reach more women, design more responsive projects and create more welcoming and supportive municipal environments for women and people from marginalized groups. We hope their enriching experiences and hopes for women leaders will inspire you to get involved in your community.

See our summer to-do list to find out what priorities and activities will keep our gender equality and social inclusion programs busy in the coming months.

Did you know: In mid-May, our project in Jordan inaugurated a multi-function public space where women and children can now safely gather and play. Make sure to read about this transformation of a landfill site into a welcoming park.

On a less celebratory note, this issue is coming out as the invasion of Ukraine continues to devastate the country and tear apart families and communities. While men remain to fight, millions of women are fleeing the violence with their children, becoming internally displaced persons or refugees in neighbouring countries. As they manage the fallout of this gruesome crisis and deploy heroic efforts to retain a sense of community, Ukrainian women have become symbols of strength, resilience and leadership.

After nearly a decade of inclusive programming in Ukraine, FCM is deeply saddened by the ongoing situation that is destroying infrastructure and interrupting essential services in so many municipalities. This gives us all reason to pause as we mark FCM's 35 years of international development.

In closing, we have some hopeful news for vulnerable women in Peru – and another example of how FCM members are staying connected with their counterparts well after a project has ended.

Please enjoy this summer issue!

In their own words: Why FCM members get involved in our inclusion programs

Marie-Noëlle Lanthier

*Councillor, Municipalité de La Nation, ON
Eastern Representative, Association Française des Municipalités de l'Ontario
President, Leadership féminin Prescott-Russell
Recipient of Toward Parity grant
(FCM Projects: CanWILL, Toward Parity)*

Our project 'In 2022, let's aim for parity, diversity and inclusion' as part of FCM's Initiatives for Inclusive Communities, encourages Franco-Ontarian women to get ahead in politics by offering them a series of three information sessions and a guide for candidates in three modules designed for them in their own language. These virtual sessions are opportunities to meet elected officials and women who work within the municipal administration so they can ask questions about the expectations for elected officials, and learn more about how municipal administration works. In addition, an awareness campaign highlighting the importance of parity, diversity and inclusion will be launched via video clips broadcast on social media across Ontario. We hope that all these efforts will lead to an increase in the number of candidates for our municipal election this fall and, ultimately, to more women getting elected.

Linda Glenday

*CAO, District of Squamish, BC
(FCM Project: JMSP)*

As a result of my involvement with the project in Jordan, my approach shifted considerably regarding gender equity. I am more deliberate in my leadership to ensure that equity and inclusion of women is considered not only with our staffing, but also in how we approach our operations, working groups, committees, projects and particularly community engagement. A more balanced representation of all genders in municipal leadership at the staff and elected official level would lead to more fulsome engagement with the whole community, resulting in a well-managed government and cohesive community.

Isabelle Miron

*Councillor, Ville de Gatineau, QC
(FCM Project: IMLP)*

The exchanges I had with elected officials as part of the project in Tunisia really helped me to put things into perspective in my life as a municipal councillor. Many of the challenges we face as elected women are the same, despite the distance. I hope that Tunisian elected officials will have support networks, places of exchange, because we are stronger when we are united!

Joan Westland Eby

*Former mayor, Bolton-Est, QC
(FCM Projects: PMI-WILL, IMLP, CISAL)*

I have been involved in many FCM international projects, and one thing that stood with me always in all the exchanges I had with women is how strong, resilient, and perseverant they are. Even in post-war contexts, they stand up for reconciliation and they contribute to a fair and equitable society.

I would like to see a sustainable infrastructure in place in Benin that will support the women's movement in that country over the long term. Concrete examples of this would be technical support and computers, as well as a long-term financial strategy.

Our summer plans

Canadian Women in Local Leadership (CanWILL)

- Developing resources and learning opportunities to help municipalities implement gender responsive policies and inclusive measures.
- Revamping our Towards Parity Knowledge Hub into a dynamic Resource Library with new functionalities and a wider scope.

Jordan Municipal Support Project (JMSP)

- Advancing the formal establishment of a sustainable and innovative training institute for local government elected officials and staff.
- Completing work on the creation of gender inclusive community green spaces and household composting facilities.

Inclusive Municipal Leadership Program (IMLP)

- Finalizing the Tunisian Charter for the Right to the City
- Supporting women leaders as they implement their local initiatives to usher in greater gender equality.

Partnerships for Municipal Innovation – Women in Local Leadership (PMI-WILL)

- Engaging Canadian municipal partners with networks of women elected officials in our five countries of implementation to develop capacity building action plans.
- Finalizing a study of best practices from Canadian municipalities delivering gender-responsive and inclusive services, including the development of two case studies.

Jordan project promotes play, safety and creativity

Talal municipality in Jordan officially opened their community green space to coincide with the visit of FCM Senior Director of Capacity and Sector Development Sara Lyons on May 18. With the help of JMSP, the municipality and the community transformed the former landfill into an open green space and park. Community volunteers made benches, tables, and flowerpots from upcycled waste; youth designed wall art and JMSP provided funds to purchase playground equipment. The popular park and only green space in the municipality has become a model of good practices in reclaiming public spaces and waste reuse for the community as well as neighbouring municipalities.

Shapes of a shelter

Our Sustainable and Inclusive Communities program in Latin America (CISAL) was implemented in Colombia and Peru from 2014 to 2019. It reinforced the role of municipalities in inclusive local economic development and supported women's associations.

In the peruvian province of Chumbivilcas, the creation of a shelter for women experiencing domestic violence was considered a high priority, and the initiative was supported by CISAL. A

piece of land was donated by the municipality of Santo Tomas for the construction, but there were delays, and the shelter had not been built when CISAL ended.

The municipality of Fort St-John, in British Columbia, was actively involved in this region of Peru and its representatives visited several times. Even though the project has closed, the relationship between the two communities remains strong. Last month, Fort St-John was delighted to hear that the construction of the shelter had officially started. This is a tribute to the engagement of Peruvian women and their allies, who persevered to ensure that vulnerable women receive the promised services.

FCM VOICE
Canada's voice of local government

Together for Recovery: FCM's Annual Conference and Trade Show was a success.

Last weekend, 1,200 municipal leaders from coast to coast came together in Regina, SK, and virtually from their communities, for the 2022 Federation of Canadian Municipalities Annual Conference and Trade Show. They attended workshops, listened to panel discussions, visited the trade show, and connected with colleagues and friends. It was the largest gathering of the municipal family in two years and all who attended shared a common goal: to shape Canada's recovery, together.

Throughout the four-day event, delegates also heard from national party leaders - including Prime Minister Justin Trudeau, Minister of Intergovernmental Affairs, Infrastructure and Communities Dominic LeBlanc, Conservative Shadow Minister for Infrastructure and Communities, Andrew Scheer, and NDP Leader Jagmeet Singh.

The FCM Annual General Meeting was held on Sunday and was a rousing success. Members passed resolutions calling for national action on four issues: addressing period poverty in Canada; implementing the calls to action from the Truth and Reconciliation Committee relating to missing children and unmarked graves; renewing and modernizing the Canada Community-Building Fund; and streamlining support for those fleeing the conflict in Ukraine.

Members also elected their 2022-23 FCM Board of Directors and Table Officers - acclaiming Vegreville, AB Councillor Taneen Rudyk as FCM's next President. Congratulations President Rudyk!

EVENTS

FCM's Sustainable Communities Conference (SCC) is coming back!

Canada's leading sustainability conference for municipalities is back in February 2023! FCM's Sustainable Communities Conference (SCC) is a hybrid event that will offer delegates three days of inspiring speakers, workshops and training sessions, and valuable networking opportunities. We can't wait to come together again next year. Stay tuned as we announce registration dates and new information about the event.

FCM welcomes new GHG Offset Credit System

Last week, FCM CEO Carole Saab participated in the federal government announcement of a new Federal Greenhouse Gas Offset System, which will help municipalities to fight climate change and build more sustainable infrastructure. The landfill gas protocol announced as part of this initiative will enable municipalities to sell carbon credits. And this revenue will help to cover some of the cost of investing in technology to capture and use landfill gas.

FCM IN THE NEWS

FCM's Annual Conference making headlines

Municipal leaders gathered for FCM's 2022 Annual Conference and Trade Show in Regina, Saskatchewan. Mayors, councillors, and representatives from all corners of the country engaged with national party leaders, heard from noteworthy keynote speakers, and discussed policy priorities that will help local governments drive the strong and inclusive recovery Canadians deserve. CBC and many other media outlets were at the conference to cover the event.

Subject: For Your Use - Small Scale Producer Website

TO: Municipal Chief Administrative Officers

When Grant and I had an opportunity to meet with you, we discussed the need to reach out to small scale pig producers in your municipality.

The Prairie Swine Centre, based at the University of Saskatchewan, has been working on this issue. The Centre has produced an independent information hub for verified, factual information on biosecurity, animal health and other production practices relevant to small scale and outdoor swine producers. <http://smallscalepigfarming.com>. New communications materials (factsheets, how-to videos, handbooks) will be added on an ongoing basis.

This site, and the information in it, may be useful to you in the event that you have contact with small scale producers in your area. Please feel free to share with anyone who may be interested.

As an aside, I have included Mark Fynn on this note. Mark is Manager, Quality Assurance and Animal Care at MPC and is in a position to answer questions you or rate payers may have.

I, and all of Manitoba Pork, appreciate ongoing collaboration between us.

Subject: Night Hunting - Press Release
Attachments: For Immediate Release - Manitoba Wildlife Federation.pdf

Good afternoon,

On behalf of the Manitoba Wildlife Federation (MWF), please see the attached press release regarding the MWF's application to the Manitoba Court of Queen's Bench seeking leave to intervene in the Peguis First Nation v. The Government of Manitoba court proceedings (Queen Bench File C122-01-34450).

Thank you,
Carly Deacon

Managing Director
4-999 King Edward St.
Winnipeg, MB R3H 0R1
E: cdeacon@mwf.mb.ca
P: 204-633-5967

For Immediate Release

June 13, 2022

The Manitoba Wildlife Federation (MWF) is announcing today that on behalf of its 15,000 members, to protect the lives and property of all Manitobans and to ensure the sustainability of our big game populations, we have applied to the Manitoba Court of Queen's Bench seeking leave to intervene in the Peguis First Nation v. The Government of Manitoba court proceedings (Queen's Bench file number C122-01-34450).

The Peguis First Nation is challenging the province's authority under *The Wildlife Act* to limit and regulate the extremely dangerous practice of spotlighting on both Crown and private lands. MWF believes it is imperative that we support and defend these prohibitions.

In 2016, the MWF took the lead in calling for an outright ban on spotlighting in the populated portions of Manitoba to protect people, pets, farm animals and private property. The MWF at a 2016 press conference used a dramatic re-enactment to illustrate the dangers of spotlighting by demonstrating how hunters are unable to see what's beyond their target – or exactly what their target really is. Along with the deaths of Manitobans, numerous livestock have been killed or maimed by hunters using spotlights at night. The MWF, the Association of Manitoba of Municipalities, the Manitoba Beef Producers and thousands of rural residents asked the province to remedy this dangerous situation. In 2018 following extensive consultations and debate in the Legislature, the Government of Manitoba responded by enacting amendments to *The Wildlife Act*.

The MWF is dedicated to the sustainable and safe use of our fish and wildlife resources, and as such supported the introduction and passage of the provisions now being challenged by the Peguis First Nation. The Provincial amendments addressed an intolerable situation. In fact, shortly before the amendments, night hunting contributed to the death of an indigenous person and the near death of others, including an elderly couple while they slept in their rural home.

MWF President, Brian Brownlie, says following safe practices and training is the key to safe hunting. "One of the fundamental principles of safe hunting is knowing your target and what's beyond. This very simple safety fact is recognized worldwide through the International Hunter Education Association (IHEA), of which the MWF is an integral partner. The MWF, as the Hunter Education provider in the province, is adamant that unregulated hunting at night goes against all universally accepted safe hunting practices and would put the lives and property of all

MANITOBA WILDLIFE FEDERATION

Manitobans at risk. As the representative of licensed hunters, the MWF has a useful and important contribution and perspective to bring to these court proceedings.”

Your Partnership in the Squeal on Pigs Campaign

Dear Mr. Kreklewich,

Manitoba Pork Council appreciates the time that you have taken to meet with us to discuss opportunities arising from investment in Manitoba's pork sector. We welcome an ongoing dialogue and are more than open to any questions or comments you may have.

Invasive swine represents a challenge for rural Manitoba, and one on which I hope we can work together. Manitoba still has an opportunity to eliminate this threat, but given their rate of reproduction, the window for full eradication is rapidly closing.

Manitoba Pork has recently engaged with the Government of Canada and Province of Manitoba in the Invasive Swine Eradication Project. Key parts of this project include increasing public awareness of the threat posed by invasive swine and to make it easier for the public to report signs and sightings of wild pigs. To this end, we have recently launched the Squeal on Pigs campaign. The campaign includes awareness materials, a toll-free number to report sightings (1-833-SPOT-PIG), and a website that provides background information and an easy-to-use reporting page (<https://squealonpigsmb.org/>).

I have attached for your information a copy of the news release that accompanied the official launch of the campaign. You will note the participation of multiple Manitoba commodity organizations. This highlights the fact that the ecological and financial damage caused by invasive swine cuts across all of Manitoba's agriculture community. The Winnipeg Free Press also published an opinion editorial on this issue, which is included in this package for your use and information.

Manitoba Pork requests your partnership in the Squeal on Pigs campaign. Samples of additional material, designed to help promote the effort, are included in this package. It would be helpful if you would circulate this information to the ratepayers in the municipality. We would be more than happy to ship you as many of these items as you would find useful. We would also ask that you help promote the toll-free number and the Squeal on Pigs website on

Working together to tackle threat of wild pigs

By, Dr. Wayne Lees, Coordinator, Manitoba Invasive Swine Eradication Project

Our province is at an ecological and environmental crossroads when it comes to dealing with a serious threat, wild pigs. Wild pigs wreak havoc and pose great risk to ecosystems, wildlife, crops, the domestic pig population, and occasionally, to public safety.

Wild pigs were first introduced across western Canada during the late 1980s and early 1990s. Farms were in the midst of a significant income crisis and sought to diversify their operations to produce new lines of revenue. European wild boar was one such diversification opportunity, given the belief that these pigs would be confined by modern fencing and would not survive the harsh prairie winter should they escape. That was quickly proven to be wrong.

Today, wild pigs continue to thrive on the landscape, and are spreading to new areas. They reproduce at an alarming and exponential rate, with breeding occurring year-round. The average female pig sexually matures at 1 year of age and can produce two litters of 5-6 pigs per year. The other contributing factor is that wild pigs have no natural predators. Congregating in groups called “sounders”, females aggressively defend their young with large tusks that inflict severe wounds.

Another significant issue is the fact that wild pigs are vectors for dozens of diseases. Public health concerns like leptospirosis, spread through contaminated soil and water, tuberculosis, and trichinellosis can all be spread by wild pigs. Animal health concerns like African Swine Fever and Foot and Mouth Disease spread by wild pigs would have a devastating impact on domestic pigs and the provincial hog sector. These diseases can be passed because wild pigs will eat anything almost anywhere, destroying crops, pastures, green spaces, and sully waterways.

Wild pigs are an issue for the entire agriculture sector in Manitoba, which is a key contributor to the provincial economy. Wild pigs on the landscape destroy crops like wheat, canola, and pulses, demolish potato crops, and damage pastureland. The increased prevalence of wild pigs across Manitoba poses a significant threat to the bottom lines of farmers and to the food they grow and produce, particularly as farmers deal with consistent and unyielding economic challenges that are shrinking profit margins.

The Manitoba Invasive Swine Eradication Project was announced in January 2022 as a partnership between the Government of Canada, the Province of Manitoba, and Manitoba Pork, through funding from the Canadian Agricultural Partnership. The goal of this project is to identify where wild pigs are in Manitoba, to control their spread, and to remove as many pigs as possible from the landscape. Manitoba Pork is working collaboratively with Manitoba Agriculture and Manitoba Natural Resources, as well as with other local and national organizations who have a stake in this issue.

Part of this initiative is to launch SquealOnPigsMB.org and our hotline, 1-833-SPOT-PIG. We are asking Manitobans to report evidence of wild pig sightings or any signs of activity so we can better track movements and work to further eradication efforts. As camping and hiking season ramps up, we are asking Manitobans to know the signs of wild pig movements and to be prepared to report what you see and where you see it.

Media Release

May 9, 2022

Squeal on Pigs campaign launched

Manitoba Pork, in partnership with the Government of Canada and the Province of Manitoba, and in collaboration with Manitoba's agricultural sector, is launching the Squeal on Pigs campaign. Squeal on Pigs is designed to help spread awareness of the significant issue of invasive wild pigs on our landscape, and to empower Manitobans with the ability to spot wild pigs on the landscape and report their movement. Movements can now be reported via squealonthepigsmb.org or toll-free at 1-833-SPOT-PIG (1-833-776-8744).

"Manitoba Pork's Squeal on Pigs awareness campaign is an excellent example of a proactive measure the sector is taking to reduce the risk of disease transmission and protect the health and well-being of animals in the province," said the Honourable Marie-Claude Bibeau, federal Minister of Agriculture and Agri-Food. "Working collaboratively with Manitobans on this awareness initiative will help make the sector more resilient and sustainable for the future."

"It is critical that proactive measures be taken to protect the health of animals in our province's pork industry, and this is why our government is pleased to have joined other supporters to invest in the Manitoba Invasive Swine Eradication Project", said Manitoba Agriculture Minister Derek Johnson. "Manitoba Pork's new communications and awareness initiative is another tool to help bring rapid disease detection that leads to an effective response and ensures the continued welfare of the sector."

"Our province is at an ecological and environmental crossroads when it comes to dealing with the threat of wild pigs," said Dr. Wayne Lees, project coordinator, Manitoba Invasive Swine Eradication Project. "Together with our partners in both the provincial and federal governments, as well as Manitoba's agricultural sector, we are committed to tracking, surveillance, and eradication efforts that will effectively address the concerning growth of the wild pig population in our province."

The goal of Squeal on Pigs campaign is to identify where wild pigs are in Manitoba, control their spread, and remove as many pigs as possible from the landscape. Manitoba Pork is working collaboratively with Manitoba Agriculture and Manitoba Natural Resources and Northern Development, as well as with other local and national organizations who have a stake in this issue. Over the coming weeks, advertising and other materials will be made public, encouraging Manitobans to report sightings using the hotline and website.

Manitobans are asked to report evidence of wild pig sightings or any signs of activity so that movements can be better tracked, and eradication efforts can be furthered. Manitobans are also being asked not to hunt wild pigs on their own, as hunting disperses wild pig populations over wider areas, changing movement patterns and harming trapping efforts.

The Manitoba Invasive Swine Eradication Project was announced in January 2022 as a partnership between the Government of Canada, the Province of Manitoba, and Manitoba Pork, through funding from the Canadian Agricultural Partnership.

The Partnership is a five-year, \$3-billion commitment by Canada's federal, provincial and territorial governments that supports Canada's agri-food and agri-products sectors. This includes a \$2-billion commitment that is cost-shared 60 per cent federally and 40 per cent provincially/territorially for programs that are designed and delivered by provinces and territories.

Supportive Quotes

May 9, 2022

"Wild pigs are vectors for dozens of diseases, including those that would have a devastating impact on domestic pigs. We cannot allow wild pigs to gain a further foothold in our province and put not only our provincial hog sector at risk, but our provincial economy at risk as well." – **Rick Préjet, chair, Manitoba Pork Council**

"Invasive swine create problems for all of agriculture, from livestock through grains. Invasive swine have significant negative ecological impact. This project is an example of agriculture and government collaborating to reach a solution." – **Bill Campbell, president, Keystone Agricultural Producers**

"In addition to the significant damages wild pigs can cause to pastures, forages, crops, and wildlife habitat, they have been known to chase livestock such as cattle, posing a threat to animal health and safety. It is important there is an effective strategy to address the considerable challenges wild pigs pose to Manitoba's agriculture sector and we support this important initiative." – **Tyler Fulton, president, Manitoba Beef Producers**

"Potato producers across our province are seeing the damage that wild pigs can cause to potato fields, and we want to see their population controlled so that damage to potato crops does not get worse, and so that more acres aren't affected. We fully support this initiative, realizing the risk that wild pigs impose, particularly to our counterparts in the hog sector." – **Dan Sawatzky, general manager, Keystone Potato Producers Association**

→ The Honourable Audrey Gordon
Minister of Health

Audrey Gordon

Dear Madam Minister,

The Council of the Municipality of Oakland-Wawanesa met on Tuesday, May 17, 2022. Included on the agenda for the meeting was a letter from the Wawanesa Medical Clinic with respect to concerns regarding lab availability in this community.

During the discussion on this matter, Council agreed that when our medical professionals are concerned with service, or in this case, lack of service, members of Council and citizens should also be concerned. As a result, Council adopted the following motion:

“BE IT RESOLVED that a letter on behalf of Council be sent to the Minister of Health Audrey Gordon, MLA Cliff Cullen, Primary Care Prairie Mountain Health and Diagnostic Services Shared Health supporting correspondence from the Wawanesa Medical Clinic dated April 25, 2022 and outlining Municipal concerns on the matter.”

We trust you will agree that this is a serious matter that requires your urgent attention.

Sincerely,

Dave Kreklewich
Head of Council

c.c. Cliff Cullen, MLA Sprucewoods, *Cliff Cullen*
Michelle McKay, Director, Primary Care PMH
Diagnostic Services Shared Health

MINISTER
OF MUNICIPAL RELATIONS

Room 317 Legislative Building
Winnipeg, Manitoba CANADA R3C 0V8

June 1, 2022

To All Mayors and Reeves:

The past two months have been a challenging time for Manitoba's municipalities. Record spring snowfalls, followed by several large spring rainstorms, created ideal conditions for severe flooding in many parts of the province. Please know that the Government of Manitoba is here to help you and your communities during this difficult time. Please also know that we have a number of programs that will be of assistance as the waters recede and your communities and their residents begin to rebuild.

Manitoba has announced a Disaster Financial Assistance (DFA) program for municipalities experiencing damages to infrastructure due to spring flooding. DFA programs support the restoration of eligible infrastructure to a functional state. Municipalities should carefully document instances where infrastructure is damaged due to spring flooding for inclusion in a DFA claim. Further information on DFA is available at www.manitoba.ca/emo/dfa or by contacting dfa@gov.mb.ca.

In order to assist municipalities to mitigate against future disasters the Province of Manitoba has also developed the Mitigation and Preparedness Program (MPP). When Manitoba establishes a DFA program that is eligible for cost-sharing with Canada under the Disaster Financial Assistance Arrangements, municipalities can either pay the Provincial/Municipal DFA deductible, or opt in to the MPP that allows them to rebuild to a more resilient end state. Under the MPP, municipalities will receive 100% of eligible DFA costs back from Manitoba and are required to invest the sum that would have been their cost-sharing amount into an approved disaster mitigation and preparedness project. More information on the Mitigation and Preparedness Program can be found at <https://www.gov.mb.ca/mr/mfas/mpp.html> or by contacting mpp@gov.mb.ca.

As always, my department is here to help your communities as required. We will do all that we can do to provide supports and resources to assist Manitoba's municipalities in their flood recovery efforts.

A special thanks goes out to the leadership teams in flood affected communities. Your local expertise and on the ground presence provides your communities with the strength and direction they need to navigate this challenging and rapidly evolving situation.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Eileen Clarke'.

Honourable Eileen Clarke
Minister

Bulletin #2022-15

MUNICIPAL RELATIONS

Important Notice to All Elected Officials and Chief Administrative Officers

Mitigation and Preparedness Program

The Mitigation and Preparedness Program (MPP) is an optional program to assist municipalities to mitigate against future disasters by building local resiliency against extreme weather events and investing in disaster mitigation and preparedness.

Under this program, once Manitoba establishes a Disaster Financial Assistance (DFA) program that is eligible for cost-sharing with Canada, municipalities can opt-in to receive 100% of eligible DFA costs back from Manitoba in exchange for investing an amount equivalent to the municipal cost-share amount into an approved disaster mitigation and preparedness project.

Change in Program Administration

Current administration of the program is lead by the Department of Municipal Relations with technical input from other departments during the review of applications.

Effective immediately, Municipal Relations will be transitioning this program, in its entirety, to the Department of Transportation and Infrastructure (MTI), Emergency Measures Organization (EMO). This includes the management of Contribution Agreements with approved municipalities, and future communications. The move supports program alignment with the EMO Mitigation Branch. EMO will continue to engage Municipal Relations on the program as needed.

In the meantime, if you have additional questions about the program, please contact the Mitigation and Preparedness Program staff at mpp@gov.mb.ca.

For more information, please visit the Mitigation and Preparedness Program website at: <https://www.gov.mb.ca/mr/mfas/mpp.html>

Bulletin #2022-16

MUNICIPAL RELATIONS

Important Notice to all Chief Administrative Officers And Elected Officials

Municipal Operating Grant Reporting – Available on Manitoba Municipalities Online

As announced in the 2022 Budget Day letter, dated April 12th, municipalities are being asked to report on the allocation of the unconditional Municipal Operating grant towards core municipal services and programs, and to identify high-level outcomes achieved, beginning with funding received in 2021. Reporting will allow the department establish a baseline of information to more clearly understand how this funding is being applied locally and monitor trends over time, while ensuring that it continues to meet municipal needs.

Reporting Template and Submission Deadline

Please complete the attached Municipal Operating Grant Reporting template. Once completed, submit your report to the department through [Manitoba Municipalities Online](#) by June 15, 2022.

Reporting Guidelines

Municipalities are encouraged to accurately report on the actual use of the operating funding by following the guidelines below. Some considerations include:

1. If your municipality is using the operating grant as part of your municipality's overall revenue base to support all core services/programs (except utilities), you may pro-rate the total amount of your grant accordingly under all applicable subcategories, and provide additional information under outcomes (if appropriate).
2. If your municipality is using the operating grant to support select priorities or specific core services and programs to achieve certain outcomes, please report on the notional allocations or estimated amounts where applicable.
3. Please ensure that your municipality also completes the open-ended questions on municipal financial pressures.

If you have any additional questions about reporting requirements, please submit your inquiry to mfpp@gov.mb.ca, and department staff will be in contact with your municipality.

**MUNICIPAL SERVICES OFFICER
SHELLEY JENSEN**

We are pleased to announce the recent hiring of Shelley Jensen as a Municipal Services Officer (MSO) with Municipal Governance and Advisory Services.

Shelley is joining Delores Macksymchuk, Ann Ransom and Randi Salamanowicz as part of the MSO team as they continue provide advisory and consultative services on all matters of local government governance, administration and operations, including financial matters.

Shelley has most recently been working as the Secretary to the Municipal Board, Land Value Appraisal Commission and Disaster Assistance Appeal Board, and prior to that has over 12 years of experience in the municipal field, including seven years as a Chief Administrative Officer. Shelley has extensive experience working with municipal councils, administrators and the public.

Shelley is based out of Winnipeg (800 Portage Avenue), and can be contacted by phone at 204-914-2535 or by email at Shelley.Jensen@gov.mb.ca.

For general inquiries, please call 204-945-2572 or email mrmaas@gov.mb.ca.

*Department of Municipal Relations
508 – 800 Portage Avenue, Winnipeg MB R3G 0N4*

MAYOR DAVID KREKLEWICH
PO BOX 28 54 MAIN ST.
NESBITT MB R0K 1P0

Ottawa, June 2022

Dear MAYOR DAVID KREKLEWICH and Council,

The economic contributions from rural communities are integral to Canada's success. Rural areas are home to many key industries such as manufacturing, forestry, agriculture, and energy.

Yet, municipalities under 20,000 residents receive less support from the federal government in comparison to their much larger counterparts. Red tape duplications and certain application requirements disproportionately burden small rural communities with very few staff.

This is unfair, unjust, and needs to be addressed urgently. As such, Conservative Shadow Minister for Rural Economic Development and Rural Broadband Strategy, M.P. Shannon Stubbs, Deputy Shadow Ministers M.P. Damien Kurek and M.P. Jacques Gourde, are seeking to convene a townhall with you to address federal funding for rural communities.

Rural Canadians must band together for fairer and more robust funding for communities all over rural Canada.

It is integral to our economy that the federal government works for everyone no matter where they live. The voices of rural Canadians need to be heard. We kindly ask you to express the three most important issues impacting your economic development as a rural community. We will use this feedback to ensure our work for rural Canada is as productive as possible and will determine the agenda for our proposed townhall. This is an opportunity to network, share your priorities, and solutions to the challenges we face.

We value hearing from you and should you wish to attend our forum, please email M.P. Stubbs at shannon.stubbs@parl.gc.ca, M.P. Kurek at damien.kurek@parl.gc.ca, or M.P. Gourde at jacques.gourde@parl.gc.ca.

Thank you for your time.

LGBTQ2 projects fund: Call for Proposals

Women and Gender Equality Canada is inviting:

Legally constituted not-for-profit Canadian organizations that work primarily or entirely with LGBTQ2 communities to submit proposals for projects.

The objective of this call for proposals is to support community-informed projects that will address key issues facing LGBTQ2 communities. Funded projects will aim to advance equality for LGBTQ2 people.

The Department will give priority to projects which:

- address barriers to equality for underrepresented LGBTQ2 people. This includes LGBTQ2 people who are Indigenous, Black and racialized, seniors, youth, low income, live with a disability, or are members of an official language minority community. It also includes those who live in a rural, remote and/or northern community.
- address any other gap, such as geography, as deemed by the Department

Eligible organizations must submit their application for funding in this call for proposals by **June 30, 2022**.

Please reach out – WAGE is here to help:

Get all the details you need to get started on [WAGE's website](#) including tips about the type of things to include when completing the application questions.

You can also connect with us:

- ❖ **Virtually:** WAGE staff will deliver [information sessions](#) to answer your questions and present the application form and online system.
- ❖ **By email:** Send us an email and we will respond within two business days to provide you assistance with:
 - Information on the [call for proposals](#)
 - [Technical support](#)
- ❖ **By phone:** Give us a [call](#) to obtain clarification on the call for proposals and the application form. We will return your call within two business days.

Online: Check out our [guide](#) on how to use the online application and intake system.

Sincerely / Cordialement,

COMMITTEE REPORT FOR Ward 3 (name of committee)

COUNCIL MEETING DATE June 21, 2022

SUBMITTED BY Councillor Shaun Cory

I would like to report the following:

Received communication from residents on issues on a gravel road and a dirt road and passed them on to Public Works.

Did some research and made some contacts regarding Ukrainian refugees on behalf of interested residents.

Emailed rural councillors and Public Works regarding some intersections being narrow for large farm equipment to get turned safely.

Councillor Cory – Ward 3

COMMITTEE REPORT FOR WARD 3

COUNCIL MEETING DATE Tuesday June 21, 2022

SUBMITTED BY Councillor Sowiak

I would like to report the following:

Reviewed various financial reports, budget documents, statements, bank recs, emails from FCM and Public Works reports.

Corresponded via email/text with CAO, Councillors and Public Works.

May 25 – Attended HandiTransit meeting – rescheduled, not enough for a quorum.

June 6 - Attended Sipiweske Museum spring cleanup and meeting to follow. Getting organized for Burger Days – First Burger Day on Friday July 1st.

June 7 – Attended HandiTransit meeting.

Time spent reviewing monthly meeting minutes for the previous and current month.

COMMITTEE REPORT FOR Ward 2

COUNCIL MEETING DATE June 21, 2022

SUBMITTED BY Councillor Hargreaves

I would like to report the following:

Attended the May council meeting

Received calls from rate payers about road conditions and railway crossing

In contact with Public works Manager with the concerns over roads

Rate payer contacted me with on going concern over drainage and what council can do about cleaning downstream land owners runways that have over grown and silted in over the years.

Councillor Brett Hargreaves

COMMITTEE REPORT FOR Ward 2 (name of committee)

COUNCIL MEETING DATE June 21, 2022

SUBMITTED BY Councillor Hatch

I would like to report as follows:

Attended the may council meeting

Reviewed rm email

Conferred with PW on roads

Had no calls from any ratepayers

Conferred with Darcy on loader forks

Councillor Craig Hatch

COMMITTEE REPORT FOR Ward 1 (name of committee)

COUNCIL MEETING DATE June 21, 2022

SUBMITTED BY Councillor McDonald

I would like to report as follows:

- I reviewed emails from Staff/CAO/Head of Council/Councillor's
- I attended May Council Meeting
- I reviewed Public Works Updates
- I reviewed Bank Reconciliation's
- I reviewed updated Revenue and Expenditure Documents
- I attended Glenboro Municipal Office to sign papers and cheque's regarding the Handi Van
- I attended Valley Lodge throughout the month and met with residents/cleaners/Secretary Treasurer
- I attended a a Handi Van Board Meeting

I will be absent for the June 21 meeting.

Councillor Bob McDonald

COMMITTEE REPORT FOR: WARD 1

COUNCIL MEETING DATE: June 21, 2022

SUBMITTED BY: BRETT MCGREGOR

I would like to report the following:

- **Responded to emails and text messages and phone calls from ratepayers on municipal questions.**
- **Reviewed material for regular council meeting and attended meeting.**
- **Reviewed Rec Commission meeting material and attended meetings.**
- **Reviewed bank reconciliations.**
- **Reviewed Public Works update emails.**
- **Worked on grant applications and fundraising for ice plant installation.**
- **Corresponded with our engineers on ice plant project.**

COMMITTEE REPORT FOR HEAD OF COUNCIL

COUNCIL MEETING DATE June 21, 2022

SUBMITTED BY Dave Kreklewich

I would like to report the following:

- **Attended the Municipal office on various occasions to review matters with the CAO as well as reviewing invoices and signing cheques.**
- **Received and reviewed emails from ratepayers and Councillors.**

CHIEF ADMINISTRATIVE OFFICER'S REPORT – April, 2022

Covid-19 Provincial Calls

The bi-weekly calls continue and provide updates on Covid-19 related material as well as updates from other provincial departments.

Property Matters

There is a development plan amendment currently underway as well as a subdivision file.

Budget

Prepared the presentation for the Financial Plan Public Hearing held April 7, 2022.

Meetings with Members of Council

Discussions continue with members of Council either in person, over the phone, or by email.

Building Committee

I am still working with subtrades on the completion of the inside of the Wawanesa Office and trying to get timelines for outside work.

Disaster Financial Assistance

I have been working with Public Works and the Province to determine needs for application for DFA funding.

Election Information

Participated in the first training session offered by Municipal Relations, two more will follow.
Prepared newspaper ad for candidate registration for April 23 paper.
Began work on citizen and candidate information flyer to be distributed in May.

J. Swidnicki
Chief Administrative Officer

FINANCE OFFICER'S REPORT – June 2022

- I have been continuing to work with Sensus auditors on follow-up questions onsite for both the Municipal and the Souris River Rec year-end audits.
- The first payment of the Municipal Operating Grant was received from the Province in the amount of \$106,720.47. This represents 75% of the total 2022 grant. New this year is a reporting requirement on the allocation of the grant towards core municipal services and programs, and the identification of high-level outcomes achieved, beginning with funding received in 2021. The report was completed and submitted by the due date of June 15, 2022. The balance of the grant will be received in September.
- The first quarter Multi Material Stewardship Manitoba (MMSM) recycling rebate in the amount of \$6,062.10 was received (2021 \$5,015.66).
- The Workers Compensation Board of Manitoba (WCB) has a reserve fund that is currently higher than the target set in their funding policy. They distributed surplus funds to employers who fulfilled their payment reporting responsibilities for 2021 and who paid a WCB premium in 2021. The surplus was distributed in the form of a credit towards future installments of the 2022 premium. Our credit was for \$2,512.58 (2021 it was \$1,794.86).
- The Tax Sale process continues for the three rural properties. TAXervice is proceeding with service of First Notice. They will require an order for substitutional service from Land Titles to effect service on two of the properties.
- I updated our Tax Program so that it is now up-to-date as of the end of May 2022 with LTO/Transfer of Land information from the MMO site.
- After the end of May's interest was calculated, the outstanding unpaid taxes from previous years totalled \$82,739.29. This is for 77 properties. This amount is recorded as a receivable; it was included in revenue in the year it was levied.
- We received the annual AMM Trading Company Ltd Insurance Billing for the Western Financial municipal policy. The Gross Premium and Fees were \$62,393.18 (last year \$59,013.13). We received a return of premiums in the amount of \$7,274.02 (last year \$8,613.59). There will be some adjustments to these numbers because of equipment changes and renovations to the office building.
- The 2022 Financial Plan and the 2022 Tax Levy By-Law were uploaded to the MMO site by their respective due dates of May 13, 2022, and Jun 17, 2022.

Subject: garbage container

Importance: High

Hi
One of my new neighbours has a garbage container business. I would love to be able to dispose of my garbage closer than having to go to the Oakland dump. Is there a possibility that there could be one placed on our end of the municipality? I had a chat with him a week or two ago, and he tells me that it would be \$100.00 per month to have one available.
Thanks
Darlynn

Subject: Treesbank Colony irrigation project - road crossing requirements
Attachments: DAP_Treesbank Colony Farms Ltd_20220207.pdf; map_p2_project_planning_2022_season_20220603.pdf; map_p1_project_planning_whole_project_20220603.pdf

Hello Joni,

Thanks again for your time on the phone to discuss the proposed Treesbank Colony Irrigation Project.

I am a consultant (AgriEarth Consulting) supporting Treesbank Colony (contact: Jacob Maendel) on permitting, approvals and licensing requirements for their proposed irrigation project. I have copied Jacob on this, as well as Bruce Shewfelt (PBS Water Engineering) who is providing support on the engineering aspects of the project. I am providing the information below to inform the RM of the Colony's plans to: 1) develop an irrigation project, commencing construction in Fall 2022 once all approvals, permits and licences are in place, and 2) to implement irrigation on two fields for the 2022 irrigation season.

Project Overview (for your information only at this time – we will be submitting updated project information in the future for RM permits & approvals)

The irrigation project will draw water from the Assiniboine River at SE-35-8-W1 and will deliver water through buried pipelines to up to 3,000 acres of land within, predominantly within the RM of Oakland-Wawanesa. We are in the initial planning stages of the project but have developed initial pipeline routes and potential fields for irrigation (see Map P1 attached). The Colony's plan is to commence construction of the project in Fall 2022, once all permits and licences are in place. The project will be built out in phases, with components indicated as "Phase I" in Map P1 to be built out likely over a few years. Prior to construction and operation, the project requires a provincial Environment Act License, provincial Water Use License, as well as other provincial and federal reviews and approvals (i.e., Heritage Resources, Department of Fisheries and Oceans, Navigable Waters, provincial road crossing, etc.). We have met with the environmental licensing (Bruce Webb) and water rights licensing (Tamara Butterfield) departments to initiate discussions on the project. We will keep you updated as we move through these processes and will seek your input as to any permit or approval requirements the RM may have.

The Colony has a Development Authorization Permit under the Water Rights Act to allow them to use water for irrigation. The DAP is for a maximum of 1029 acre-feet of annually (see attached).

Irrigation Plans for 2022 Season

For the 2022 season, the Colony is planning on running a temporary, aboveground pipeline (final routing to be confirmed by the Colony) from their pumping location at the Assiniboine River at SE-35-8-17W1 to two fields (SE-29-8-17W1 & NE-20-8-17). The Colony would like to install buried pipeline to the field pivots in these two fields (see green dashed line in Map P2 attached), with a connection to the aboveground pipeline. Water use for this season will be under 160 acre-feet, therefore this irrigation will not require an Environment Act Licence, and the Development Authorization Permit that has been issued to the Colony allows for this water withdrawal and usage. The buried pipeline between the two fields will require a municipal road crossing. The routing of the temporary, aboveground pipeline is subject to change and the Colony will advise on final routing. I understand the Colony would like to use existing culverts for road crossings for the temporary, aboveground pipeline, where/if possible.

- No concerns with initial plan
- Would like to review final pipeline (above ground) + crossings route

Are you able to advise on RM road crossing requirements for the permanent, buried pipeline and the temporary, aboveground pipeline? Are there any other requirements from the RM for the proposed 2022 irrigation activities?

We are happy to meet with the RM to discuss the 2022 irrigation plans and the larger project, if and when that is helpful to you.

Thanks,
David

Hello Bruce and Tamara,

I am just touching base with you two on the Treesbank Colony Irrigation Project. We have made some progress with the Colony in planning pivot locations, potential pipeline routes, etc (see Map 1 FYI). We will be moving ahead with addressing provincial (HRB, CDC) and federal (Navigable Waters, DFO) reviews shortly, and will be working towards an EAP submission this summer. I have also contacted MB Ag regarding provision of updated detail level soil resource information, which they have committed to providing in June.

Irrigation plans for 2022:

I have attached a project planning map for the 2022 irrigation season. The Colony plans to draw water from the Assiniboine River using a Riverscreen intake and will pump water through a temporary, surface pipeline to the edge of field where they will connect to a buried pipeline (to be installed this year) which will service two field pivots (SE-29-08-17W1 & NE-20-08-17W1). Irrigation will be on small grains (cereal and/or oilseed) with withdrawal <160 ac-ft. We are communicating with the RM of Oakland-Wawanesa regarding municipal requirements (road crossings, etc.).

Are there any additional provincial requirements for the Colony prior to carrying out the planned irrigation activities outlined above for 2022?

Thanks,
David

**DEVELOPMENT
AUTHORIZATION
PERMIT**

Issued in accordance with the provisions

The Water Rights Act and regulations made thereunder.

Subject to the terms and conditions contained in this Development Authorization Permit, the Minister charged with administration of the Water Rights Act authorizes:

Treesbank Colony Farms Ltd.

In the **Municipality of Oakland-Wawanesa**, in the province of Manitoba, to establish, operate and maintain an intake, pump(s) and transmittal pipeline(s) (the "WORKS") for **Irrigation** purposes on the following land:

SE 35-8-17 WPM

This Development Authorization Permit allows you to divert, store and use water for **Irrigation** purposes until the expiry date.

The WORKS shall be constructed and operated in accordance with the terms and conditions described as follows:

1. This Permit expires within twenty-four (24) months of the date of issuance. Failure to construct all of the necessary WORKS and use water for **Irrigation** purposes prior to the permit expiry date may result in cancellation of the application for a Water Rights Licence.
2. The maximum quantity of water available for your project from the **Assiniboine River** is **1269.26 cubic decametres (1029.00 acre feet)**. The maximum area of land to be irrigated in any one year shall not exceed **1100.00** acres, based on an application of 12 inches of water on 650 acres of corn and 7 inches of water on 650 acres of other crops under drought conditions.
3. This Permit is not transferable or assignable to any other party.
4. The Permittee must have legal access to all lands occupied by the project.
5. The Permittee must hold and maintain all regulatory approvals and requirements for the construction, operation or maintenance of the WORKS or to divert or use water as provided by this Permit.
6. The Permittee shall assume any liability that may result from the construction of the WORKS.
7. The Province of Manitoba shall hereby be released from any liability or claims for damages whatsoever that may result from the construction of the WORKS.
8. In the event that the rights of others are infringed upon and/or damage to the property of others is sustained as a result of the operation or maintenance of the WORKS and the rights herein granted, the Permittee shall be solely responsible and shall save harmless and fully indemnify Her Majesty the Queen in Right of the Province of Manitoba, from and against any liability to which Her Majesty may become liable by virtue of the issue of this Licence and anything done pursuant hereto.
9. The Minister or Minister's agents have the right of unrestricted access for the purpose of inspection of any WORKS constructed under this Permit.
10. The Minister or Minister's agents, under certain conditions, may instruct the Permittee to reduce or terminate withdrawal of water from the **Assiniboine River** to accommodate existing senior licenced water users, domestic users and environmental needs.
11. The Permittee shall install and maintain, on the water diversion WORKS, a water measuring device acceptable to this Section that will accurately measure the instantaneous water flow and the accumulated volume of water diverted.
12. The Permittee must keep daily and annual water use records to be submitted to the Water Use Licensing Section prior to February 1st of the following year.
13. The issuance of this Permit does not imply that the Department will extend or renew the Permit in subsequent years.

FOR OFFICE USE ONLY

Issued at the City of Winnipeg, in the Province of Manitoba, this _____ day of _____, A.D. 20_____.

Dear Head of Council and Councillors;

RE: Five Mile Creek flooding

Five Mile Creek is a natural drainage waterway for spring runoff and excessive rainfalls. Five Mile Creek is fed by two run offs, one from the northwest area and the other from the southwest area of PR 453 and Rd 100w. Over the years the natural waterway has filled with vegetation including willows, cattails, trees etc. which has impeded the water to drain effectively to the Assiniboine River.

The OW Municipality cleaned out the area around the bridge on Rd 98W in 2020. The area was overgrown with cattails, after being mowed it was burnt and worked down. The plan was to seed the area to a wetland grass mixture. Due to the drought in 2021, seeding was delayed to 2022. Now due to the flooding it remains unseeded and approximately 25 acres of oats seeded this spring is now underwater.

On Section SW23-08-17 a major portion of the waterway is overgrown with cattails and willow trees on Adriansson's land. This overgrowth extends to the MB Hwys area along PR453 and behind Bill Desmarais's yard. This overgrowth in the areas, appears to have caused the water to back up onto E1/2 22-08-17. The flow of water through the culverts on PR340 is noticeably less than one would expect given the amount of water flowing through the bridge on R98W and backed up on SE22-08-17.

Carl has spoken with Paul Adriansson in regards to the water backup, he has agreed to take a look at it, however has not made a commitment to remove the vegetation at this time. Bill Desmarais does not have the equipment to clean the overgrowth behind his yard, failing to clean this area as well may lead to flooding of his house yard.

This back up of water has unfortunately become the norm rendering a significant number of acres on our farm to be non-productive. The water services board are unable to help in the removal of vegetation, however would be able to work with the municipality and/or the Assiniboine Conservation District to resolve the drainage issue.

I request assistance from the OW municipality to resolve the vegetation overgrowth on SW23-08-17 so that the water can flow without impediments to the Assiniboine River.

Attached is a map and photos for reference. The photos are marked from 1-10 and plotted on the map.

Sincerely,

Luanne Gibb
