Greetings:

The Manitoba government has proclaimed June 14<sup>th</sup> to 20<sup>th</sup> Manitoba Access Awareness Week (MAAW). [Proclamation](#)

This year's focus is accessible employment and customer service during COVID-19. You are invited to attend a [free webinar](#) on June 18<sup>th</sup> from 2:00 to 3:00 pm. This online training event will feature the launch of a new made-in-Manitoba video about accessibility in the workplace.

The Province has developed a social media kit to raise awareness about MAAW and accessibility issues affecting individuals, community organizations and businesses. To download these resources, visit the Disabilities Issues Office website at [AccessibilityMB](#).

### **Reminder and new free resources**

The Accessibility Standard for Employment requires accessibility at all stages of employment. The [requirements affecting an emergency](#) are in effect and provide guidance during COVID-19.

The deadline for public sector organizations to meet the remaining requirements is May 1, 2021. Businesses and non-profits with at least one employee have until May 1, 2022.

The Manitoba government continues to build its toolbox of free resources to support compliance with accessibility standards:

- [Accessibility Standard for Employment, Employers' Handbook \(PDF\)](#) explains how to meet the requirements the Accessibility Standard for Employment.
- [Sample Accessible Employment Policy \(PDF\)](#) assists in documenting policies.
- [Guide to Create an Individualized Accommodation Plan Process and Policy \(Word\)](#) helps respond to employee requests for a workplace accommodation.

Learn more about MAAW in the June edition of [Accessibility News](#). [Subscribe here](#) to keep up to date with new accessibility standards and free tools and training to support them.

Please join us in advancing accessibility and inclusion in Manitoba!

## COVID-19: Advocacy progress continues

As local leaders continue working flat out to carry our communities through this pandemic, FCM continues to press your priorities in Ottawa—and we're making progress.

### Emergency operating funding

Three weeks ago, FCM raised a red flag over the financial crisis that's developing in our municipalities. We made it clear: our members need emergency funding now to continue keeping people safe—and to be ready to lead Canada's economic recovery.

On Wednesday, Ontario publicly committed to join in a solution—if the federal government comes to the table. This is an encouraging sign, and we hope more provinces follow suit. Solving this crisis will require both federal leadership and significant provincial collaboration, and we are determined to see this crisis tackled nationwide.

**Bringing rural voices to Ottawa**

With unreliable broadband Internet, fewer health resources and hard-hit economies, rural communities face unique challenges that make tackling this pandemic even harder.

We're bringing these rural realities straight to key federal decision-makers. They've responded by expanding support for rural frontline workers, investing in key sectors like agriculture and energy, and more. Most recently, the federal government signaled they're ready to speed up plans to bring reliable broadband to rural communities—a key FCM ask.

### Expand or upgrade your affordable housing stock with new funding from GMF

Last week we announced a new \$300 million initiative to support local affordable housing providers to retrofit existing affordable housing, or build new, energy efficient units that emit lower GHG emissions.

The **Sustainable Affordable Housing (SAH)** initiative assists municipal providers, not-for-profit organizations, or housing co-ops with grants, loans and capacity-building opportunities. Whether you're just getting started or already have a project in the works, this funding will help your community reduce energy and GHG intensity, increase energy and housing affordability, improve building quality, while also increasing comfort, health and quality of life for residents.

*FCM's Sustainable Affordable Housing initiative is delivered through our Green Municipal Fund and funded by the Government of Canada.*

### Available now: Asset management grants for municipalities

The call for applications is now open for our asset management grants for municipalities. Apply for a grant of up to \$50,000 for an initiative that will help your community make informed decisions about operating, maintaining and replacing its infrastructure such as roads, buildings, water supply and sanitation systems.

Canada's voice of local government

## FCM's next CEO: Carole Saab

On Thursday, we announced that Carole Saab has been selected as FCM's next Chief Executive Officer, taking the reins as Brock Carlton retires.

Most of you know Carole as Executive Director of FCM's Policy and Public Affairs department. She is a tireless champion for the local order of government, with a 10-year record of success at FCM as an advocate, strategist and leader.

Carole's selection follows a six-month nationwide search. With help from an international recruiting firm, FCM's internal committee sought input from every corner of our membership—including table officers, FCM's Rural Forum and our Big City Mayors' Caucus.

Carole's work has already helped position FCM for national success. She has earned the respect of federal decision makers and FCM's diverse membership. And as CEO, her leadership will guide FCM and municipalities to new heights in the years to come.

## Federal help for municipalities: a modest first step

The Prime Minister's announcement today that he will accelerate 2020-2021 Gas Tax Fund transfers to municipalities recognizes that our municipal financial crisis is a national crisis—one that requires urgent national leadership, with meaningful provincial collaboration.

While this modest, preliminary measure may help some municipalities, it is not new money. This money has already been accounted for in municipal budgets. It does not directly address our financial crisis—or the stark choices municipal leaders now face in this pandemic.

The Prime Minister did confirm his readiness to engage with municipalities on solutions, and we're encouraged by that. FCM will continue working directly with the federal government—and with our members and partners across the country—to secure emergency funding for municipalities.

## COVID-19: Emergency funding appeal gains more support

Last week alone, more than a dozen major news articles across the country highlighted FCM's urgent appeal for emergency funding for municipalities. And increasingly, key stakeholders are speaking out directly on our behalf. Like Mark Hancock, National President of the Canadian Union of Public Employees (CUPE)—which represents more than 150,000 municipal workers:

*"From water and waste services, to transportation and traffic, to emergency responders, municipal services must continue. To draw back these services would multiply the negative impacts of the public health crisis and surely cost lives ... Municipal governments need the federal government to step up and provide support."*

FCM will continue ramping up the pressure for emergency funding—so we can keep frontlines services going strong and be ready to drive Canada's recovery.

### PM announces funding for “safe re-start”

On Friday the Prime Minister announced \$14 billion in federal funding to support a safe economic “re-start” across Canada. Funding will be provided to provinces and territories—some of which will go to supporting local governments and the frontlines services we provide.

**This is the federal government’s clearest commitment yet to work with the provinces and territories to solve our municipal financial crisis.** We’ve made it clear that Canadians need all governments to be working together now—with urgency, and without jurisdictional wrangling.

Fast, direct, sufficient and nationwide: that’s the measure of success for any plan to get municipalities through this crisis. This will take national leadership and provincial/territorial collaboration. And we’ll keep working to ensure communities of all sizes get the urgent support they need.

## COVID-19 – the local government responsee

Across the world, local governments are responding to COVID-19. As municipal leaders support their communities through this pandemic, FCM is working alongside them, providing technical assistance, and sharing knowledge and resources, both in Canada and overseas. Over the past two months, our international programs have adapted how they support program partners, as they continue to help municipal leaders around the globe to protect their residents, support businesses and keep essential services running strong.

In this issue, you will learn how FCM is working across sectors and borders to support local and regional governments. Our work engaging international networks has been critical over the past two months, as local governments share resources to help one another respond to the crisis.

 [DISCOVER HOW WE ARE HELPING LOCAL GOVERNMENTS RESPOND TO COVID-19](#)

### How Canadian municipalities are supporting the global response to COVID-19

Like governments and organizations across the world, FCM's international projects are facing an unprecedented challenge in responding to the COVID-19 crisis. Virtually overnight, all technical assistance missions were postponed or cancelled, field staff were instructed to work-from-home, and all project delivery needed to switch to a remote/digital environment.

In the months following the outbreak, our international projects have launched rapid response campaigns to adapt, maintain and innovate in this unprecedented context. From the procurement of personal safety equipment to supporting municipalities' crisis management and public awareness campaigns to ensuring business continuity and local economic development opportunities, local governments are on the front lines of this pandemic.

### LEARN: Networks, knowledge & crisis response

During times of crisis, knowledge is crucial. As local and regional governments respond to COVID-19 around the world, it is vital they work together and share about what's happening in their communities. In response to the pandemic, UCLG, Metropolis and UN-Habitat launched a live learning experience with local and regional governments and other stakeholders, designed to create a virtual and living community, share online resources, and help guide the global response to the pandemic.

Many Canadian municipal leaders have participated in these sessions. Councillor Bev Esslinger spoke about [the financial impact](#) on the City of Edmonton and strategies for the coming months, while FCM First Vice-President and Prince George City Councillor Garth Frizzell participated in a panel [on local economic development](#). To The Council of The RM of Oakland-Wawanesa

We would like to inform you of the availability of the Former Canadian Pacific Railway Right of Way & Station Grounds in Nesbitt MB. There is just over 16 Ac in total available on NW 28-7-18W including a piece approx 200' X 600' available that extends east of Main Street to the Eastern limit of the 1/4 sec, and the remainder, lying west of Main Street, totals 300' in width and extends from Main Street all the way west to Road 106W. Parcels could of course be Subdivided into a size suitable to fit any specific proposed usage.

This property would certainly lend itself well to a Municipal equipment compound, shop, or any other storage or Office Building that may be needed. Of course it could be developed to suit many other uses as well.

We have completed a Phase I Environmental Site Assessment on this Property, done by Samson Engineering of Brandon. I will forward the complete ESA Report to you in a separate email. The scope of work required to complete a Phase II ESA would depend greatly on the proposed usage of the Property and has therefore not yet been done.

I want to thank the RM of Oakland-Wawanesa for their support in our purchasing the decommissioned CP Property. We are very open to any suggestions or proposals that you may have and look forward to working with you towards further developing this property for the greater benefit of the community.

### **Cancellation of 2020 MMAA Conference**

After much thought and discussion, it is with regret that the Manitoba Municipal Administrators' Association announces its cancellation of the 2020 MMAA Conference and AGM scheduled for September 1 - 4, 2020. Due to restrictions and concerns relating to COVID 19, we feel that it was best to remain proactive and make the decision to support the current Public Health recommendations.

The next MMAA Conference is scheduled to be held April 25-28, 2021 in Brandon, MB at the Victoria Inn. In the meantime, as announced earlier, we will be holding a meeting of the membership on May 29, 2020 via Zoom for the election of the President and Vice President positions. Invitations will be sent out shortly.

We plan to hold a more comprehensive AGM in September 2020 with the date and time TBA.

District Meetings will also be virtual. We are putting a plan in place with date and time TBA.

Any awards/presentations that were to take place at the 2020 Conference will be carried forward to 2021 Conference, this includes our Graduation ceremony. 2020 Grads please contact the MMAA office at 204-255-4883 or via email at [mmaa@mts.net](mailto:mmaa@mts.net).

Conference registrations and fees paid can be held over for the 2021 Conference. If there is an increase in Conference registration fees, those of you that have already paid will not be subject to the increase. If you would like a full refund, please contact the office at [mmaa@mts.net](mailto:mmaa@mts.net).

I would like to thank the Conference Committee for all their hard work and dedication to the MMAA and its members. We appreciate your understanding of this difficult decision, but as always, our members health and safety are paramount.

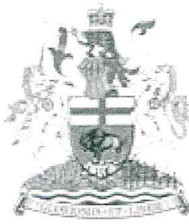

We look forward to seeing everyone in 2021! Keep safe and stay healthy everyone!

MINISTER  
OF MUNICIPAL RELATIONS

Room 317 Legislative Building  
Winnipeg, Manitoba CANADA R3C 0V8

June 01, 2020

Thank you for participating in the information webinar session hosted by Manitoba Municipal Relations on Bill 48 – *The Planning Amendment and The City of Winnipeg Charter Amendment Act* and Bill 49 - *The Building and Electrical Permitting Improvement Act*. The sessions have been productive and I was pleased to see a high level of engagement from municipalities and planning districts across the province.

I committed to following up with written responses to the questions raised at the session. Information on the bills, along with the Fact Sheets and FAQs, will be posted on the Department's website and will be updated as new questions come our attention. You can access this through our **Quick Links** section at <https://www.gov.mb.ca/mr/index.html>

You are also encouraged to send your comments to the Manitoba Public Regulatory Consultation Portal at <https://reg.gov.mb.ca/home>.

Warmest regards,

*A MESSAGE FROM*  
**Colin Ferguson**  
President & CEO, Travel Manitoba

Dear Industry Partners,

As many of you will have seen, last week Destination Canada - the country's national tourism marketing organization - announced a new partnership with the provinces and territories to deliver locally led marketing programs encouraging Canadians to discover their own back yard.

Over the next 18 months, Destination Canada will invest \$30 million with provincial and territorial marketing organizations to support the recovery of communities, recognizing that tourism is not only a source of pride for communities across the country, but also a significant economic driver and a source of local jobs.

Travel Manitoba is extremely pleased and proud to be the first province to sign an agreement with Destination Canada to participate in the program. The additional funding will allow Travel Manitoba to augment its in-province “Home is Where the Heart Is” campaign over the summer months. Content created during the campaign will also be amplified by Destination Canada on its channels as part of the program. Our campaign theme strongly aligns with Destination Canada’s national brand: *Canada. For Glowing Hearts*. Visit our new campaign website hub to view our campaign launch video.

In addition, some of the funding will help Tourism Winnipeg bolster its campaign to encourage visitors to safely experience Winnipeg attractions. As more and more tourism operators open for business, but current travel restrictions remain in place, it is more important than ever to encourage Manitobans to discover the unique experiences here at home.

The funding partnership with Destination Canada will not only allow Travel Manitoba to expand the reach of the in-province recovery campaign, but it will also allow us to direct other resources to drive visitation to rural areas through Manitoba, particularly those destinations that are part of our Place Branding program. Emerging, demand-generating locations and experiences throughout the province can attract additional visitation with a compelling place brand and a strong supporting marketing program. Tourism businesses in these rural destinations need the support of strong place brand initiatives that will drive Manitobans, particularly Winnipeggers, to their locations.

With this program, Destination Canada has recognized the need to support local tourism in time for summer when most businesses make the largest portion of their annual revenue. With their help, we have the added strength to begin our recovery, as we encourage all residents to “show Manitoba some love” this summer.

Stay well, stay safe.

#### **This years Policing Priorities 2020-2021**

Hello All.

Hopefully all is well with you in this world of Covid 19. We have had a couple of scares here in the office, but all negative, thank goodness.

It's that time of year again, the annual policing priorities have been set by Division HQ. This year is very much the same as last year as far as priorities. We have traffic, crime reduction and communication. We were fairly successful last year with these priorities.

Traffic we looked for impaired driver and stop sign violations. We ended up with 27 impaired drivers charged over the year our goal was 35. Stop sign violations had a goal of 42, we had 41.

We took a three step plan in our crime reduction strategy, using Community Mobilization referrals, restorative justice referrals and criminal condition compliance checks. We wanted 25 Community Mobilization referrals and had 35. We wanted 25 compliance checks and got 32. Restorative justice referrals we had 2 and we wanted 10. These referrals are now coming out of the Crowns office with the new pre-charge system. We only track the ones we did before sending cases with recommended charges to the Crowns office. So there is many more.

Communication strategy has both internal and external components. Internally we wanted 4 Area meetings. We managed 2. We missed one due to scheduling issues and one due to Covid. Externally we wanted to reach out to you all 50 times, we got 61. We beat our goal here but the traditional overall value is in the hundreds.

I have attached last year's overall stat report for your review.

I have also attached a letter that, I'm hopeful you will sign. Basically it just says what we are looking at for the upcoming year. I have addressed them to Council, so that anyone can sign. Please return the letter by mail or e-mail, whichever is easier for you.

Currently, our human resource situation has us with 2 Constables off on Paternity leave and one Corporal on Maternity leave. All are due back before the end of summer. I have one Cpl on long term sick leave and another that has been temporarily seconded to Nunavut. The secondment is back by the end of May.

I have 4 Constables slated for transfer. One from Carberry is gone by months end. Another, also from Carberry is gone by the end of summer. Two members from Souris are gone anytime after they sell their respective houses. One of those members will be joining the new Crime Reduction Team and will be based out of Brandon for the time being. He will continue to help us out at the Detachment level on an as needed basis. I have two members transferring in, but they are also trying to sell houses. A third decided to quit and join Brandon Police Service before he arrived here. The search is on for additional members. The struggle is real with keeping boots on the ground here. We are managing. Ideally, we'll see our incoming before our outgoing are on the road.

That's the news from here for now.

As always, give us a call or drop an e-mail and we'll help you out wherever we can.

Take care,

Clint

Municipality of Oakland - Wawanesa

This email is in regards to Steve Bartel.

Please find enclosed the Manitoba Hydro preliminary construction drawings for the Steve Bartel job showing our proposed installation of Power Poles along Rd.38N.

If you are in agreement with our plans, please sign the enclosed drawings and return to Manitoba Hydro for our records.

We are planning on going out here to do this work this summer, so if this can be looked at before then would be appreciated.

For any further information, please contact Brent Sobry, (727-9336), or my cell @ 573-3399.

## The Emergency Community Support Fund (ECSF) is a \$350 million emergency funding program from the Government of Canada.

In collaboration with the Canadian Red Cross and United Way Centraide Canada, CFC is proud to be involved in the allocation of funding. The fund is designed to help Canada's most vulnerable populations during the COVID-19 crisis. The global pandemic has left no community untouched, and it is having a disproportionate impact on vulnerable Canadians who are less equipped to deal with its health, social and economic impacts.

ECSF will provide a much-needed boost to organizations on the frontlines, while we also continue our efforts to secure the funding and support required for the stabilization and recovery phases ahead.

**Starting on May 19, CFC and participating community foundations are inviting qualified donees to apply for funding.**
