Jaime Kelloway – 111 Seventh Street, Water Usage Compensation

233-19 McGregor-Hatch
Whereas Notice of Motion was given at the last regular meeting of council by Councillor McGregor that he intended to request a reconsideration of a previous motion with respect to the above:

THEREFORE BE IT RESOLVED that Motion No. 156-19 be reconsidered.
CARRIED.

ORIGINAL MOTION

McGregor-McDonald

156-19 WHEREAS there were issues with the sewer line at 111 Seventh Street;

AND WHEREAS in consultation with the Municipal contractor and a private contractor, a camera was inserted in the line to determine the issues;

AND WHEREAS it appears that a “sewer snake” from a previous contractor broke off in the line on the private property and was left there, and has now lodged at the intersection of the private and public sewer lines, thus causing the ongoing issues;

AND WHEREAS while the Municipal Contractor in Wawanesa suggested the homeowners dump large volumes of water at a time to assist in cleaning the system (i.e. dump water from tub, shower, sink or washing machine), no instruction was given to continually flush the sewer line;

THEREFORE BE IT RESOLVED that the request for compensation for water usage be denied. DEFEATED.

McGregor-Sowiak

234-19 WHEREAS as a result of a sewer blockage, a large degree of system flushing was required at 111 Seventh Street in Wawanesa;

AND WHEREAS the water bill for the account at 111 Seventh Street went from \$150.00 to \$347.64 without any other indoor water leakages;

NOW THEREFORE BE IT RESOLVED that an amount of \$197.64 be credited to the utility account for 111 Seventh Street. CARRIED.

Manitoba Sustainable Development re Well #4 – Groundwater Under the Direct Influence of Surface Water

McGregor-Sowiak

235-19 BE IT RESOLVED that the presentation by the Office of Drinking Water, Manitoba Sustainable Development be received and costs for operational changes, including separate well testing, possible dual chlorine dosing and purchase and installation of ultra-violet equipment be investigated and considered in conjunction with the 2020 utility budget. LEADING PRACTICES IN MUNICIPAL GOVERNMENT

Workshop facilitated by: [KPMG Canada](#)

Governing bodies in the public sector are being asked more and more to account for both their conduct and the outcomes being achieved. Good governance is the foundation which allows public bodies to meet this expectation. Based on our research and experience working with municipal governments, good governance for local government means: Doing the right thing...in the right way...for the right people...in a timely, open, honest and accountable manner.

This session will guide elected officials through:

- Creating and implementing a vision for your municipality or region.
- Council and administration working together to achieve a common purpose with clearly defined roles and responsibilities.
- Promoting and demonstrating the municipality's values.
- Making informed and transparent decisions which are subject to effective scrutiny and managing risk.
- Engaging with the community and other stakeholders to ensure robust local public accountability.
- Defining and delivering quality service for the community.

Gearing up for the big year ahead

This month FCM members converged on Quebec City for a truly historic gathering of local governments. With 2,100 mayors, councillors and municipal officials from every province and territory, our [2019 Annual Conference and Trade Show](#) shattered attendance records.

Together we showcased how local leaders are building better lives for Canadians—and how, with the right tools, we can achieve even more. And with all four federal leaders present, we launched our biggest-ever campaign to put Canadians' local priorities front-and-centre in the upcoming federal election.

This year's conference also marked the beginning of my term as FCM President. I want to thank you all for your trust. Along with my fellow table officers and our board of directors, I pledge to be your voice. To Past President Vicki-May Hamm, thank you for your hard work and dedication.

There were so many takeaways from this amazing conference. For me, it was standing on stage and feeling the collective strength of our members. It's inspiring. We may come

from different communities—different sizes, different regions and different realities—but together, there's nothing we can't accomplish.

Election 2019: all hands on deck

Together we've made crucial progress for communities of all sizes. Just look at **Budget 2019**. By growing this year's Gas Tax Fund, by boosting FCM's Green Municipal Fund, and by following our advice on investing in rural broadband, the budget takes important steps toward empowering municipal leaders.

That sets an important standard for the federal election this fall—one we need to build on. This election is our opportunity to modernize how governments work together to serve Canadians. That means securing new fiscal tools that enable local leaders to do more, faster. And it means building a modern partnership that brings municipalities to the table, where we belong.

So let's get out there and deliver a strong and united message to every federal party: "if you're serious about building better lives, you need to empower local governments to do more for Canadians."

In the coming weeks, we'll provide you with the tools you need to spread our election message—with your local candidates, and in your local media. I urge you to use them. Our members are our greatest strength and our success depends on all of us being active and engaged. Especially now.

This is a critical moment for us. I know you've heard us say that before. And it's always true. Time and again, we've taken local priorities to unprecedented new heights. And every time, we do it the same way: by identifying opportunities, by mobilizing, and by delivering. As municipal leaders, that's what we do.

Our influence is surging like never before—as an organization, and as an order of government. But our success is a journey, not a destination. So join me in this journey. And let's make this year our best yet.

Bill Karsten is a councillor for the Halifax Regional Municipality, NS. He was elected FCM President in June, 2019.

End of Parliament kicks off election season

Canada's Parliament adjourned for the summer on Thursday, wrapping up another session of huge progress for municipalities—and kicking-off the long race to this fall's federal election.

The highlight of this session was a **federal budget** that doubled down on working directly with municipalities to build better lives for Canadians. With the budget now officially adopted by Parliament, the gains FCM helped secure can make their way to communities of all sizes.

As MPs return home and begin campaigning, we're focused on building on those gains. We're looking to every federal party for a modern partnership that brings local leaders to the table—with modern fiscal tools that empower municipalities to build better lives. Stay tuned for ways you can get involved.

New federal strategies respond to FCM's rural recommendations

Late last month, the federal government released its rural economic development strategy—along with its national broadband strategy. Together, these releases are a meaningful response to **FCM's recommendations** to champion rural communities as drivers of national progress.

Rural communities help fuel Canada's economy and quality of life, so we're encouraged by federal commitments to adapt policies and programs to meet the diverse challenges faced by rural communities. We will continue to advocate for building a "rural lens" into the heart of federal government—one that empowers rural leaders to build better lives.

Ramping up our pre-election push

October's federal election can deliver major progress for communities of all sizes. We've been engaging with national parties as they build their platforms. And when their campaigns go into overdrive this fall, we'll be there with our biggest-ever push. But we have a big story to tell Canadians—and this week, we start to ramp it up.

It's not just a story about better roads, transit, broadband and housing. It's a story about you: the local leaders closest to people's daily lives. You're building better lives, and with modernized tools—and a seat at the table—you'll be ready to do so much more. Follow FCM on Twitter, and watch your email for ways to get involved.

Election 2019: It's go time

For months, we've been saying that Federal Election 2019 is a pivotal opportunity to modernize how governments work together to achieve more for Canadians. We've said that getting there will require FCM's biggest-ever pre-election push. And this week, we begin ramping things up in exciting new ways.

We have an essential story to tell Canadians. It's about better roads, transit, housing and so much more. **But above all, this is a story about you: the local leaders closest to people's daily lives.** You're building better lives, and with modernized tools—and a seat at the table—you'll be ready to do so much more.

FCM has been taking that story to the federal parties—to their leaders, key decision-makers, and election platform architects. Our advocacy has already helped drive the huge gains we saw in Budget 2019. Now we need to set the tone for October's election.

Previewing election planks

Throughout the summer, one by one, we'll preview FCM election planks that matter to you—on the Gas Tax Fund, rural communities, public transit, housing affordability and disaster mitigation. We'll show the federal parties exactly how they can partner with municipal leaders to build better lives.

And when the federal parties take their campaigns into overdrive this fall, FCM will be there, front-and-centre. That means a full FCM platform release, tracking federal party commitments, and major public profile for your priorities.

We can see where this election is headed. The parties are all talking about improving people's everyday quality of life. And so every step of the way, we'll remain focused on

that story we need to tell: *if you're serious about building better lives for Canadians, you'll need to empower their local leaders.*

How you can get involved

To punch through the noise and make an impact, **we'll need all hands on deck**. Our members are our strength. So throughout the summer, we'll provide you with helpful tools to help tell our story—to your local candidates, to your local media, and on social media. I encourage you to use them.

Please watch your email inbox. And [follow FCM on Twitter](#) for the latest news.

This election is our moment to take our historic progress to new heights. We need to seize it. Together, we can showcase how empowering local leaders builds better lives. And together, we can build the country Canadians deserve. Let's do this.

Dear CAO

Fire Underwriters Survey (FUS) and the Canadian Association of Fire Chiefs (CAFC) are proud to sponsor the 2019 National Fire Chief of the Year Awards event. Each year two fire chiefs are selected (one for Volunteer Fire Departments and one for Career Fire Departments) based on their outstanding contribution to their community.

If you feel your Fire Chief deserves the prestigious "Canadian Fire Chief of the Year" award and fulfills the criteria identified in the nomination form, please take a moment to complete the online [nomination form](#) and submit it before the deadline of **August 12, 2019**.

This is an opportunity to recognize excellence both for your fire chief, but also for your own region's commitment to safety and its community. In preparing a submission, we encourage you to enlist the assistance of some of the fire department's officers.

Finally, if you have any questions about the nomination process please contact the CAFC at info@cafc.ca or by phone to 613-695-8462.

SUBMISSION DEADLINE: August 12, 2019

National Fire Chief of the Year Awards

SPONSORED BY:

FIRE UNDERWRITERS SURVEY AND

THE CANADIAN ASSOCIATION OF FIRE CHIEFS (CAFC)

Awards of Excellence

Each year, the Canadian Association of Fire Chiefs (CAFC) recognizes men and women who promote the fire services in Canada. During CAFC's annual conference, Fire-Rescue Canada, a select number of Fire Chiefs representing the fire services industry will be recognized by CAFC and Fire Underwriter Survey for their outstanding contribution.

Eligibility

Individuals who are eligible for nomination and selection for the National Fire Chief of the Year Awards must be active chiefs in full time career or volunteer positions with the fire services in Canada. Those individuals who have recently retired will also be considered. One person from each category will be chosen.

Fire Underwriters Survey is the sponsor of these prestigious national awards and the following information describes the procedure to nominate candidates.

The nomination form can be completed online at:

<https://cafc.site-ym.com/page/cityadminspage>

SUBMISSION DEADLINE: August 12, 2019

Please be as succinct as possible when filling out the online form. Once the form is submitted, acknowledgment of receipt will be sent via email.

An independent panel of judges, drawn from the Canadian Association of Fire Chiefs, will adjudicate the submissions. Fire Underwriters Survey will be represented on this panel and will be asked to adjudicate the final short list of selections for the awards. Each year, awards are announced immediately prior to and presented at Fire-Rescue Canada.

Award Criteria

Two awards will be presented each year to one volunteer fire chief and one full time career fire chief.

- Candidates must have made outstanding contributions to the betterment of their community and of the fire services industry in areas such as leadership, training, incident command effectiveness, safety, communication and community involvement; **OR**
- Candidates must have achieved, through their innovation and initiative on a particular project or program, positive and measurable improvement of significant and enduring benefit to the fire services industry and their community.

Awards

The candidates chosen for the National Fire Chiefs of the Year Awards will be awarded with an appropriate plaque of recognition designed and presented by Fire Underwriters Survey at CAFC's annual conference, Fire-Rescue Canada. A monetary award will be contributed in the names of the candidates to promote programs in their individual communities. The winning candidate will be asked to choose the program that he/she would like to support.

Attachments: OBOG Invite Elected Officials & Staff.pdf

Dear Elected Officials and staff,

Please accept this letter of request to attend the One Basin, One Governance conference to be held in Winnipeg on September 16 to the 18th, 2019 .

The history of One Basin One Governance comes from a historic event held in January 2018, where the Southern Chiefs Organization and the Red River Basin Commission worked together to host the Spirit of Water summit. Indigenous Leaders throughout the Red River Basin and surrounding areas came together to create a dialog on reconciliation and the Indigenous Rights to Water and its management. Those who attended this meeting called it a historic day, as it was the first time that First Nations and other Indigenous leaders along with Manitoba and United States Federal, Provincial, City, Municipal, and business leaders discussed the need for reconciliation and a water management strategy that includes everyone at the table.

From that event a Memorandum of Understanding was signed between Southern Chief's Organization and the Red River Basin Commission to establish a relationship to continue to work collaboratively to achieve common goals in the areas of water management, water protection, and water quality throughout the region.

Due to the overwhelming success, it was felt that we must include the governance of all people throughout the entire Lake Winnipeg Basin, not just that of the Red River Basin. One Basin, One Governance was formed in order to continue the dialog needed in order to protect our shared waters in our basin and beyond.

We ask that you join us, please confirm your seat at the table and allow for all voices to be heard as we begin to work towards an integrated water management plan for the Lake Winnipeg Basin.

Please find attached the official invitation to, One Basin, One Governance.

Please accept this attached invitation from Grand Chief Jerry Daniels of the Southern Chiefs Organization and the Red River Basin Commission.

Highest regards!

For further information and registration please go to www.onebasinonegovernance.ca

Please feel free to circulate this invitation to those who you feel would want to participate within the voice of One Basin One Governance.

Good Afternoon,

On behalf of Council for the Rural Municipality of Stuartburn:

Please find attached our letter and official council resolutions regarding the RM of Stuartburn's lobbying efforts in having the Canada's Species at Risk and the Manitoba Endangered Species Act amended to exclude private farmland.

We appreciate all the support we can get.

Note: please **do not 'Reply All'** as it clutters up peoples inboxes.

To our fellow Municipal leaders and CAOs,

Council for the Rural Municipality of Stuartburn is seeking your support to lobby the Federal and Provincial Government to making amendments to the Canada's Species at Risk Act and the Manitoba's Endangered Species Act to exclude farming activities on privately owned farmland.

Currently the way the acts read is that any property with an endangered species present cannot be disturbed thereby restricting a majority of our farmers from cutting hay, cultivating or developing their land on, or near the endangered species; failure to comply with the acts can result in fines in excess of \$50,000 to \$250,000 or imprisonment from 6 months to 5 years for an individual or non-profit organization; for a corporation the fines are much higher (\$250,000 to \$1,000,000).

Council for the Rural Municipality of Stuartburn feels that the act should not regulate on private farmland property as you can see in resolution #186-19 there are many other properties and public roads, ditches etc....where the species thrive and for which the act should protect.

Farmers are already following various agricultural regulations ie: manure spreading, premises id etc..., then factor in mother nature (flooding/drought), it's a wonder there are any farmers left at all with market prices fluctuating as drastically as they do.

Thanking you in advance for taking the time to consider our request and to stand behind Canadian Farmers.

Sincerely,

THE RM OF STUARTBURN

David Kiansky, Reeve

COPY OF RESOLUTION #186-19

MOVED BY COUNCILLOR: Ed Penner

SECONDED BY COUNCILLOR: Dan Bodz

WHEREAS The RM of Stuartburn is home to 23 rare plant species, 4 of which are listed as Endangered, Threatened or Special Concern under Canada's Species at Risk Act and 6 are listed under Manitoba's Endangered Species Act including the Western Prairie Fringed Orchid as per the Rare Plant Surveys & Stewardship document by the Manitoba Conservation Data Centre dated March 2004;

AND WHEREAS The RM of Stuartburn is also home to 2,200 hectares (5,436 acres) of Tall Grass Prairie Preserve, an endangered ecosystem, where over half (63%) of the Province's Western Prairie Fringe Orchids occur;

AND WHEREAS Nature Conservancy of Canada owns approximately 9585 hectares (23,685 acres), the Manitoba Naturalists Society approximately 358 hectares (885 acres) and Manitoba Habitat Heritage Corporation approximately 416 hectares (1036 acres) all of whom promote the protection of Endangered, Threatened or Special Concern Species;

AND WHEREAS the Acts provide legislation on privately owned lands with the presence of the orchid, thereby regulating the activities of farmers trying to provide a livelihood for their families by farming as much arable acreages as possible;

AND WHEREAS the Municipality does not have much arable acreages with 38% of the municipality covered in wooded treed areas, 34% is grasslands, wetlands is 16%, human built structures is 3% leaving 4% for annual crop land and 5 % for forage areas;

AND WHEREAS promotion of the natural areas of Tall Grass Prairie Preserve and all the endangered or threatened species provides seasonal tourism and economic benefit to the municipality, it however does not sustain the future growth and development of the municipality;

AND WHEREAS the council for the Municipality of Stuartburn recognizes the uniqueness of the endangered ecosystem, plants and animals within our municipality, however with the orchids thriving on many of our 1,162 km² of ditches, NCC lands, MNS lands and MHHC lands, council feels that the federal and provincial endangered species act should be amended to exclude privately owned farm lands;

THEREFORE BE IT RESOLVED THAT Council hereby sends a letter to The Minister of Agriculture, The Minister of Sustainable Development, MLA for La Verendrye, MP for Provencher and any other government body that council feels will be advantageous towards their lobbying efforts:

- To review the Endangered Species Act and the Species at Risk Act to make amendments so private landowners can make a living off of their land farming; and
- That this is affecting the progress and growth of this municipality, as well as others affected with Endangered Species.

Dear Joni & Elaine:

Re: Municipality of Oakland-Wawanesa
2019 Tax Arrears Recovery and Tax Sale – Designated Year of 2018

We are pleased to report as follows regarding the Municipality of Oakland-Wawanesa's 2019 tax arrears recovery and tax sale auction.

Initially we sent out pre-notice letters with respect to 1 roll number. We then registered the Notice of Tax Sale against same respecting the property situated in the Municipality of Oakland-Wawanesa. The property was redeemed and the public auction was cancelled.

We also attended to preparation of the required discharge of Tax Sale Notice regarding the property in the Municipality of Oakland-Wawanesa which was subject to this tax sale, but was redeemed. The discharge has been forwarded to Land Titles Office for registration.

We thank you for the opportunity to manage this year's tax arrears recovery and we look forward to the opportunity to do so again.

Yours truly,

COMMITTEE REPORT FOR Ward 3 (name of committee)

COUNCIL MEETING DATE July 16, 2019

SUBMITTED BY Councillor Shaun Cory

I would like to report the following:

June 26 received text from resident concerned that dirt road hadn't been graded yet north of section 14-7-18. Checked road and confirmed with PW that muddy conditions were hampering grading of the 2 miles of dirt road.

June 28. Attended Sipiweski Museum "burger days" and awarded volunteer award on behalf of Wawanesa Foundation.

July 3. Attended meeting with CAO and Councillor Hatch to get briefed on past budget issues and how the budgeting process works.

July 7. Received call from resident concerned about lack of dust control on Methven Road and condition of the road due to gravel truck traffic. Passed concerns on to PW and checked road.

July 10. Received call from resident regarding the Carroll road. Previous improvements to road had buried the culvert and resident wanted to be sure that it didn't get overlooked though made clear it wasn't time sensitive. I drove past the area in question to familiarize myself with the spot.

Councillor Cory – Ward 3

and Senior Election Official

FINANCE OFFICER'S REPORT – July 2019

- We had only one potential tax sale property this year. All other ratepayers that have prior year taxes owing have entered into a formal or informal agreement to pay their prior taxes. We have received payment in full for the 2017 tax arrears, penalty and tax sale costs and the property has been removed from the tax sale process; tax sale proceedings for this year have been concluded.
- The federal Gas Tax Annual Expenditure Report (AER) for 2018 has been completed and uploaded to the MMO site by the filing deadline of June 30, 2019.
- We received the information from the Province for the 2019 taxes. We needed to download the information into our MuniSoft tax program and post journal entries. This has been completed. 2019 Tax statements have been mailed out.
- I calculated and mailed out Tax Split information for several ratepayers.

DIVISION 6

MUNICIPAL ROADS

Definition of "municipal road"

285 In this Division, "**municipal road**" means land that

- (a) has been opened under section 289, or opened, dedicated or reserved under any other Act, as a road for public use; and
- (b) has not been closed under section 290 or any other Act;

and includes a road allowance, street, lane, thoroughfare, walkway, bridge and underpass, but does not include a departmental road as defined in *The Transportation Infrastructure Act*.

S.M. 2001, c. 30, s. 9; S.M. 2018, c. 10, Sch. A, s. 51.

Title to land

286(1) Despite this or any other Act or any title issued to a municipality, the title to land on which a municipal road is situated, or on which was situated a municipal road that has been closed under section 290, is vested in the Government of Manitoba.

Certain rights preserved

286(2) Subsection (1) does not affect the rights of

- (a) a person who conveys title to land to be used as a municipal road or part of a municipal road, but reserves the ownership of mines and minerals in the land or an easement or right in the nature of an easement;
- (b) The Manitoba-Hydro Electric Board or any other Crown agency under *The Manitoba Hydro Act* or any other Act; or
- (c) a person claiming under a person referred to in clause (a) or an agency referred to in clause (b).

S.M. 1998, c. 33, s. 21.

Control of municipal roads

287 Subject to this and any other Act, a municipality has the direction, control and management of municipal roads within its boundaries.

Powers respecting municipal roads

288 A municipality may

- (a) subject to section 289, open a municipal road;
- (b) subject to section 290, close a municipal road;
- (c) subject to section 291, lease land on which was located a municipal road that has been closed under section 290;
- (d) subject to subsection 291(3), authorize the sale of land on which was located a municipal road that has been closed under section 290;
- (e) subject to section 292, remove and sell sand and gravel found on or under a municipal road;
- (f) construct, improve, alter or divert a municipal road;

- (g) use private land as a temporary municipal road, subject to the payment of compensation for the use of the land and any damage caused by the use; and
- (h) subject to *The Water Rights Act*, acquire, enter upon or use land in or adjacent to the municipality for the purpose of providing drainage for a municipal road or an outlet for the drainage, subject to the payment of compensation for the use of the land and any damage caused by the use.

S.M. 2018, c. 29, s. 26.

Opening a municipal road

289 A municipality may open land for public use as a municipal road by

- (a) passing a by-law opening the road; and
- (b) registering the by-law and a plan at the appropriate land titles office.

S.M. 1998, c. 33, s. 22.

Closing a municipal road

290(1) Subject to subsection (2), a municipality may close a municipal road by

- (a) passing a by-law closing the road; and
- (b) [repealed] S.M. 2018, c. 29, s. 26;
- (c) registering the approved by-law and a plan at the appropriate land titles office.

Notice of proposed closing

290(2) A municipality proposing to close a municipal road must give public notice and hold a public hearing in respect of the proposed closure and must serve notice of the proposal and hearing on the minister.

July 5/2019

TO: The Mayor and Council of the R.M. of Oakland/Hammond

A proposal from Del + Terry Winters:
We would like the R.M. to consider allowing us to put up our 40'x60' storage building over top of the imaginary back lane that separates our lots 15, 16, 17 and lots 18, 19, 20

The Reason for this Request is so we can utilize the existing Septic Tank and Sewer hook-ups which are located on lot 17 & 16 next to the back lane in question.

We would ask if the R.M. would consider selling us this strip of land or grant an easement to build over the back lane as we have done a lot of clean up on this lane such as Stump Removal and Mowing over the last 5 years or so.

We would also like to hear your thoughts on us purchasing the imaginary continuation of 2nd Ave going west of Sixth Street which we have maintained and mowed & cleaned up over the past 28 years

We would encourage an on site inspection and discussion with Council so you can get a better picture on what we are proposing or Requesting. Thanks for your consideration and support.

Subject: Report on Sewer Line issue on 117 7th St.

Joni,

I investigated the concern noted in the letter from Melissa Buchanan in regards to a sewer line obstruction at 117 7th St. The homeowner is responsible for the sewer pipe from the residence to the sewer main. The distance from the sewer cleanout at this particular residence to the sewer main is 118ft. As noted from Unplug Sewer Service invoice attached to the letter the problem was located at 110ft. This places the issue within the portion of sewer pipe that the homeowner is responsible for.

To whom this may Concern,

In the Hours of 4:30pm On June 25, 2019, I recieved a phone call on my way home from work which i work in Brando. The call was from my daughter frantic b/c our basement was backing up. My Residence is wroughly 40 mins from Brando at 117 7th Street in the town of Wawanesa. When I accessed the back up upon arrival, I contacted my neighbor as my husband is away on military Course. He gave me 2 people to Contact. Ivan who is with Wawanesa plumbing who was here 2 yrs ago when my husband dealt with this issue. Ivan has notified me his roter is not long enough to reach the hook up to my Sewer line and I felt Confident that I'd need someone with a longer one. I then Called Tristan Bissan and He Came to access as well b/c it was now after hrs I had no info on where our line hook was located and where it ran out past. He Told me I'd have to Contact Unplug which deals with these situations, and also had mentioned that he has had issues in the town of other residents having an issue with how far the line is set up and being so far out that not alot of Companies Can do the job. I was informed through Tristan that b/c its over the limit of 100' feet or more that the municipality would have to help with the Cost.

I then called unplugged to have some come out they could not come out till June 26th in the am so I booked. I have had to take time off work for all of this issue in all 7 yrs we have lived here we have not had an issue like this. I then have now reached out to the town to contact who is have to speak with on info for the sewer line. The Person I was Told to Contact was In charge of waste + water. I then reached out to him explained the situation, he came to access as soon as he could. I was told along with the employee of unplugged who's name is Andrew, that he does not deal with issues of Bills and I'd have to sort it out with the town. He told me that after my hook up line, it run way past 120' feet! I Continued to call to the town back, she has told me it was Drew responsibility to help me sort out the process of what to do, but I seem to be getting them around. after the unplugged guys finish and 3 hrs later and problem of plug being out at 110' feet to unplugged. I am \$508.50 out which I have been told that it should be half for payout to unplugged, and I am seeking a refund of half the cost and troubles due to how bad the sewer line is set up.

I am providing Contact Info for fact on
this to clarify details.

Council,

Please find attached pictures of the items that I would recommend that we dispose of via a tendering process. All items depicted no longer are of use and have remained been sitting idle for some time. Below is a brief description of the items:

- Bandwagon sprayer has not been in used in at least 6 years ever since spraying has been contracted out.
- Spare tire/rim – no history nor would it fit anything we currently own
- Old culverts – large older style culverts that appear to have been salvaged from past projects or repairs. Various dimensions and widths.
- Old bridge timbers – Salvaged timbers from 3 bridges we replaced in the past 3 years.
- Older style fuel slip tank – no history
- Ford truck – This truck was pulled out of a bush 5-6 years ago and brought back to life as a spare truck. In need of repairs to the starter and transfer case but it does run.

Any questions, please feel free to ask.

Subject: Request for speed limit change - Municipality of Oakland-Wawanesa

Good afternoon,

This email is in response to information that was forwarded to our office from Sheila Elder, which included information from you with respect to a request for a speed reduction on PR 453 west of PR 340.

I am wondering if you have a sample resolution that I can present to Council for its meeting July 16 that would provide the Province with all the information it would require to undertake the necessary investigation. I am also wondering if you have any suggestions as to what might be considered a reasonable rate of speed given the information that provided to you.

Thank you for whatever assistance you can provide.

Mrs. and Mr. Elder,

This is in response to your recent email (below) to the Department regarding the speed limit on PR 453 west of PR 340.

Requests to change the speed limit on the Provincial highway systems needs to be submitted to the Department by the local Municipality. I would ask you to contact Council and request them to submit a supporting resolution from them to request a speed reduction on the portion of PR 453 that you have identified.

Once this request from Council has been received, we will undertake the necessary investigations and consultations. A report will be submitted that will make recommendations to any necessary changes to the speed limit along PR 453.

Thank you for bringing your concerns to our attention.

To whom it may concern:

We live on PR 453 - just 2 miles west of the junction of PR 340 & PR 453. We would very much appreciate strong consideration being given to change the speed limit along PR 453 for a distance of 3 miles from the junction previously mentioned. Reasons for this are:

1. There are 2 homes located very close to PR 453, and the dust created by numerous heavy truck traffic is a concern for health and safety.
2. Farmers (including us) are significantly affected economically. The considerable dust can impact the yield of crops, and the quality of the hay is also affected - and has resulted in lost sales since it can cause serious respiratory issues for animals and the dust or gravel particles can injure teeth of horses or cattle being fed it.
3. We have paid \$400 for dust control, and if the speed limit was decreased, we feel that it would help decrease the amount of dust and also help preserve or prolong the life of the dust control.
4. Safety of truck drivers and others. With dry weather and considerable dust - especially with constant trucks, the level of dust created results in significant visibility issues. The risk of truckers run into each other (head on or into the back of another) is much higher.
5. The considerable traffic over years, especially when highways are being repaired, has significantly increased on PR 453. The risk of damage to the 2 bridges to the west of us is a concern. If we lose access to those bridges due to that increased traffic, we are seriously impacted: ~60% of our crops become inaccessible and our costs are then much higher trying to find another access. Loss of income is quite likely as well.
6. Nine years ago we contacted Manitoba Infrastructure - specifically Al Moody who was in the Brandon office at that time. We also wrote to the local MLA at the time (Leanne Rowat) and she forwarded our concerns to the Minister - Steve Ashton. One of the understandings in the letter back then was that there was going to be speed limit signs posted. That has not occurred. Whitney Street is the acting manager in place of Al Moody now. He was contacted a couple of weeks ago by phone and then hand delivered copies of the letters from 9 years ago were provided.
7. In hopes of preserving a heavily used section of PR #453. If traffic were to slow down, hopefully the roads would require less constant maintenance.
8. Hopefully help lower the damage to windshields and windows- our many farm equipment vehicles and the many other vehicles on this road.

We respectfully request serious consideration be given to this speed limit change - it affects the health of many people and livestock; the profits of farmers; and the safety of many. We have recently learned (after many questions) - that there will be an increase of 160 gravel & asphalt trucks PER DAY past our place - and if the return traffic is considered, that means the potential of the ADDED traffic of 320 trucks by our home. This is apparently for one week, but then there is also a high likelihood of this continuing over many dates with other highway repairs. The 160 added trucks are for Cocoa Paving as they work on highway #2. There will also be construction being done on highway #18, and our understanding is that those trucks will also be passing by our home to access a nearby gravel pit.

We look forward to hearing from you soon.

Sincerely,

Sheila & Jeff Elder
