Subject: RE: Safety Concerns

Good afternoon Joni,

Thank you for addressing the community's concerns and advising us of the same.

I hope to be able to attend a Council meeting in the near future and look forward to receiving an invite.

In the meantime I am providing a brief summary in relation to PR 340. Since January 1st 2022, approximately 26 HTA tickets have been issued for speeding. This does not include official or verbal warnings or other traffic related offences. Another tool that is being regularly utilized by our officers is the Alcohol Screening Device which tests a drivers sobriety upon demand (this is now a mandatory test that a driver must provide to us when we demand it from them).

In 2021:

- Approx. 60 HTA charges
- 2 drivers charged for impaired operation, several investigated that were determined to be unfounded
- Numerous traffic complaint investigations

Once again, I look forward to meeting with you and Council

-Brian

Subject: Safety Concerns

Good Afternoon,

This is further to our conversation on Monday, at which time I advised that speed concerns had been expressed by a resident related to vehicles travelling on PR 340 in the vicinity of Government Road. During our conversation, you advised that residents can contact the RCMP directly when they have concerns rather than waiting for information to come through Council, however as this matter was already on the agenda for the May 17 Council meeting, the following resolution was adopted:

BE IT RESOLVED that the Administration be directed to contact the RCMP with respect to monitoring speed on PR 340 in the vicinity of Government Road.

By way of a copy of this email, the resident is also being informed of your comment that concerns can be sent directly to the RCMP and will be dealt with as quickly as possible.

In addition to the speed concern, the Office has also been made aware of issues of people using off road vehicles throughout the town and has observed similar issues with vehicles driven by residents residing at 112 Fourth Street.

If you have officers out in our direction, we sure would appreciate a review of the above noted concerns.

Thanks for your assistance.

To Member of Council,

With regard to the property known as 210 Commercial St. I am very concerned about drainage issues from water crossing commercial street from the Southern lots. When there is a rain event often the water will run across the street eroding the driveway and flooding the lot. On occasion of a heavy rain event it will push water onto the concrete floor of the shed. I have had to repair driveway damage a number of times at my own expense. Last year the town works department repaired the driveway damage with crushed asphalt. I have brought this issue to the attention of some council members and the works department two years ago and was told that the issue would be addressed. I was told that the matter had been discussed by council. Unfortunately to date nothing has taken place to remedy the problem. This spring water has crossed the street twice already and has caused pooling on the lot. I look forward to appearing at the next council meeting to better explain my situation, and hopefully a solution can be found.

Don Zachanowich

UNDER THE AUTHORITY OF THE PLANNING ACT

**MUNICIPALITY OF OAKLAND-WAWANESA
NOTICE OF PUBLIC HEARING**

On the date and at the time and location shown below, a **PUBLIC HEARING** will be held to receive representations from any persons who wish to make them in respect to the following matter.

**APPLICATION FOR A
VARIATION ORDER**
under the

Subject: Member Advisory - Disaster Financial Assistance Information

MEMBER ADVISORY

Disaster Financial Assistance Information

NOTE: This message is being sent on behalf of Manitoba Transportation and Infrastructure

May 13, 2022 - A Disaster Financial Assistance (DFA) program has been established for 2022 spring flooding. Municipalities that would like to be considered for assistance under the DFA program must:

- Submit a Council Resolution requesting DFA. The Council Resolution is the municipalities' application to the 2022 Spring Flood DFA program.
- If a municipality has not already submitted a **Community Impact Assessment (CIA)**, please submit one. The CIA can be an initial assessment and can be updated as more information related to impacts and costs are available. The CIA assists in evaluating the scale, scope and impacts of the event as it pertains to each municipality and is used to assist in the inspection process.

As Council Resolutions and CIAs are received (send to dfa@gov.mb.ca), Manitoba EMO's Supervisor of Recovery and Assessments, will reach out to municipalities to initiate the inspection of damaged municipal infrastructure.

If your community requires emergency repairs to damaged infrastructure, ensure that photographs are taken before, during and after repairs are made and document damages and costs.

- If you have priority sites that pose safety or access risks, please include this information in your CIA. Sites must be accessible to be inspected (i.e. they cannot be submerged in water).

There are a variety of Fact Sheets available on Manitoba EMO's website under DFA for Municipalities. Please review these **Fact Sheet and the website** as these resources will answer a number of DFA specific questions.

The Mitigation and Preparedness Program (MPP) will also be made available to municipalities with a DFA claim under the 2022 Spring Flood DFA program. Specific information about applying for the MPP will be shared with eligible municipalities.

Additionally in the coming weeks Manitoba EMO will be hosting DFA webinars for municipalities, as well as DFA webinars for homeowners, tenants, small businesses, farmers and NPOs to answer their questions related to DFA.

- Municipal DFA webinars will be held via zoom on the following dates:
 - May 25, 2022 at 10:00 AM
 - May 31, 2022 at 1:00 PM
 - June 9, 2022 at 10:00 AM
 - June 15, 2022 at 10:00 AM
 - More webinars may be scheduled, if needed. Email **dfa@gov.mb.ca** with the following:
- **Subject line: Municipal DFA webinar; your chosen date. You will receive a zoom link within one or two days time.**
- DFA webinars for homeowners, tenants, small businesses, farmers and NPOs will be held via zoom on the following dates:
 - May 19, 2022 at 7:00 PM
 - May 30, 2022 at 7:00 PM
 - June 8, 2022 at 7:00 PM
 - More webinars may be scheduled, if needed.

We would appreciate your help to communicate these dates to the affected public in your municipality. Ask residents to visit the website at **<https://Manitoba.ca/emo/dfa>** to determine whether they are eligible for DFA.

The public can also register for webinars by emailing dfa@gov.mb.ca. Subject line: Public DFA webinars. They will receive a zoom link within one or two days time.

Sincerely,

Denys Volkov
Executive Director

Subject: AMM Western Director's Update - May 2022

MAY 2022 - AMM WESTERN DIRECTOR'S UPDATE

AMM Western Director's Update

Mayor Stuart Olmstead
Councillor Rhonda Coupland

As your AMM Board Directors, we are pleased to provide an update on the issues we discussed at the last Board meeting that was held on **May 26, 2022**.

While the AMM Board maintains the policy of confidentiality regarding ongoing discussions with the provincial government and stakeholders, we are pleased to share some of the topics with you.

If you should have any questions about any of the following items, please contact Nick Krawetz, AMM Director of Policy and Communications.

Provincial Announcements

As part of Budget 2022: Recover Together, the Manitoba government is investing \$25 million in the Build Back Infrastructure & Communities (BBI&C) program to fund local projects

that will support economic growth and recovery throughout the province. The AMM commends the Province for doubling the Building Sustainable Communities program. During a time of economic uncertainty, this program is vital to help promote greater economic development and thriving local communities across Manitoba.

Moreover, the Minister of Municipal Relations announced that the Manitoba government is providing \$9 million for the Province's Drum Corps Program to employ young leaders aged 15 to 29 to help advance community development projects across Manitoba. The AMM commends the Province for increasing the Green Teams Program for a third year in a row. As we look to move past the pandemic, programs such as Green Teams are essential to continue building a stronger economy.

Disaster Mitigation and Assistance

As weather forecasting predicted multiple heavy rain events, the AMM proactively wrote to the provincial government calling for a DFA Program to be established for municipalities affected by spring storms and flooding. Therefore, we are pleased to see the Manitoba government quickly announced DFA program. The Mitigation and Preparedness Program (MPP) will also be made available to municipalities with a DFA claim under the 2022 Spring Flood DFA program.

Additionally, Manitoba EMO will be hosting DFA webinars for municipalities as well as homeowners, tenants, small businesses, farmers and NPOs to answer their questions related to DFA.

Municipal DFA webinars will be held via Zoom on the following dates (**Subject line: Municipal DFA webinar; your chosen date. You will receive a zoom link within one or two days time**):

- May 31, 2022 at 1:00 PM
- June 9, 2022 at 10:00 AM
- June 15, 2022 at 10:00 AM
- More webinars may be scheduled, if needed. Email dfa@gov.mb.ca with the subject line above.

Bill 60 and 61

On May 24, 2022, the AMM presented to the Local and Regional Development Standing Committee on Bill 60: The Municipal Assessment Amendment and Municipal Board Amendment Act. Since the introduction of this Bill, the AMM has encouraged the government to consider six specific changes.

To recap, we proposed that the system should:

1. Require anyone filing an appeal to state their reason for appealing in the filing;
2. Limit permissible grounds for appeal;
3. Limit appeals to those already engaged in the process;
4. Limit the scope of appeal decisions so they couldn't clash with municipal or provincial plans;
5. Further reduce appeals timelines to match other provincial standards;
6. Impose accountability measures on the Municipal Board.

While we appreciate the government's response and clear action that has been taken to address our concerns, we believe greater clarity can still be provided to all stakeholders, particularly as legislation is being opened up now and amendments are being proposed.

Additionally, the AMM presented a [written submission to the Committee on Bill 31: The City of Winnipeg Charter Amendment and Planning Amendment Act](#). The AMM supports the proposed amendments under Sections 42 and 47 that reduce the deadline to appeal from 30 to 14 days concerning subdivisions, aggregate quarries and largescale livestock operations.

[Bill 24 - Council's Board of Directors](#)

On March 14, 2022, the Honourable Jeff Wharton, Minister of Environment, Climate and Parks, introduced [Bill 24: City Environment Amendment Act](#). This proposed legislation seeks to allow Manitobans to use federally approved cosmetic pesticides. It also restricts the use of cosmetic pesticides in municipal playgrounds, picnic areas, and dog parks.

Earlier this month, the AMM sent out a Member Advisory on behalf of the Department of Environment, Climate and Parks requesting input on draft definitions related to sensitive areas (Municipal Playgrounds, Picnic Areas, Dog Parks). To ensure definitions are reflective of municipal concerns, please provide your comments on these definitions by **May 30, 2022**. For more information, please click [HERE](#).

[June District Meetings](#)

The 2022 June District meetings will take place on **June 9, 15-17, and 22-24**.

Please note that we will be returning to the original process and resolutions will be debated at the upcoming JDMs. The deadline to submit resolutions to the AMM office is **June 1, 2022**.

For more information, please visit [2022 June District Meetings Overview](#).

For more information regarding the resolutions process, please click [here](#)

Stay Connected

Subject: Member Advisory - Update to MPI Firefighting/Rescue Cost Form and Business Rules

MEMBER ADVISORY

Update to MPI Firefighting/Rescue Cost Form and Business Rules

NOTE: This message is being sent on behalf of Manitoba Public Insurance (MPI)

June 1, 2022 - Through collaborative discussion between the Office of the Fire Commission, members of the AMM (Association of Manitoba Municipalities), and MPI, we have acknowledged the coverage gap under the additional expense of Securing the Scene in some municipalities.

Effective June 1, 2022, MPI will increase the current rate for Securing the Scene of \$60 up to a maximum of one hour, to \$70 per hour to a maximum of three hours. The new rate for Securing the Scene will be in effect for incidents occurring on or after June 1, 2022. Any claims for Securing the Scene that occurred before June 1, 2022, will be billed at the original rate of \$60 up to a maximum of one hour.

To reflect these changes, the [Claims for Firefighting/Rescue Costs](#) form has been updated, and [Business Rules: Firefighting Billing for Motor Vehicle Accidents](#) are now available on the [Partners Light Vehicle Claims Administrative Forms page](#).

If you have any questions about this notice, please contact firefightinginvoices@mpi.mb.ca.

On behalf of the AMM, we wish to thank MPI for working collaboratively with our organization and working to address municipal concerns.

Sincerely,

Denys Volkov
Executive Director

NEWS RELEASE

AMM Offers Full Range of Resources to Support Upcoming Municipal Elections

June 1, 2022 - To assist registered and perspective candidates in the upcoming municipal elections, the Association of Manitoba Municipalities (AMM) has formally launched a new comprehensive **Municipal Elections Resource Hub** on the AMM website. The hub features several resources and informational materials relevant to candidates, election officials and municipal administrators.

In addition, the Resource Hub includes a series of **testimonial videos** from current and former elected municipal officials that highlight key considerations along with tips and advice for candidates. Individuals participating in the testimonial videos include:

- Honourable Eileen Clarke, Minister of Municipal Relations
- Mayor Brian Bowman, City of Winnipeg
- Mayor Rick Chrest, City of Brandon
- Mayor Al Friesen, Town of Altona

- Councillor Karen MacKinnon, City of Flin Flon
- Councillor Melanie Parent, RM of Piney
- Shirley Kalyniuk, Former AMM Vice-President and Mayor of Town of Rosburn
- Jeff McConnell, Former Mayor of Town of Virden
- Glen McKenize, Former Mayor of Town of Swan River
- Chris Goertzen, Former AMM President and Mayor of City of Steinbach
- Nettie Neudorf, Former MMA President and CAO of RM of Portage la Prairie
- Executive Director Denys Volkov, AMM

“We are hopeful that these newly created resources will help raise awareness of the roles and responsibilities of municipal governments and empower more Manitobans to run for municipal politics. As municipal leaders play a vital role in shaping community priorities, I encourage all candidates to refer to the AMM’s Municipal Elections Resource Hub to better understand the roles and responsibilities of local Council,” stated Kam Blight, AMM President.

To further support the elections and inform Manitobans, candidate information and voting results will be available on the AMM’s dedicated municipal elections website at www.MBvotes.ca. This interactive website will include several enhanced data reporting features while information will be bilingual, thanks to French translation provided by the Association of Manitoba Bilingual Municipalities (AMBM).

For elections held on October 26, 2022, candidate registration for Heads of Council officially opened on May 1, 2022, and registration for Councillors will commence on June 30, 2022. Three municipalities – Town of Winnipeg Beach, Village of Dunnottar, RM of Victoria Beach – will hold elections on July 22, 2022.

Additional Federal Grade Crossings Regulations Webinar Sessions

NOTE: This message is being sent on behalf of Transport Canada.

June 2, 2022 - Transport Canada (TC) will be providing additional information sessions in order to share information with road authorities, on some of the key points to consider when applying for funding under the Rail Safety Improvement Program (RSIP). While, the key focus of these sessions will be the RSIP, TC will also touch on points of interest on the requirements of the Rail Safety **Grade Crossings Regulations (GCR)** and the changes that were made in November 2021 to the GCR compliance deadline.

You are invited to attend the information sessions from Transport Canada on the RSIP and the GCR via MS TEAMS platform. Please express your interest in joining one of the sessions below by sending an email to **Amadomo.saye@tc.gc.ca**.

- English session on June 15 from 1:30 PM to 3:00 PM (EST)
- French session on June 16 from 10:30 AM to 12:00 PM (EST)

We look forward for your participation. In the meantime, if you have any questions on the Rail Safety Improvement Program, please e-mail us at tc.rsipitr-pasfitr.tc@tc.gc.ca.

Sincerely,

Denys Volkov
Executive Director

Manitoba Government Provides Additional \$3 Million Investment in Watershed Districts Program

"The Manitoba Government is increasing its investment by \$3 million in the important work of Manitoba's Watershed Districts Program" - Environment, Climate and Parks Minister Jeff Wharton.

The Watershed Districts Program is a voluntary partnership between Manitoba and municipal governments based on local, grassroots decision-making, the minister noted.

This year, the province will expand program support by \$570,000, for a total of \$6.443 million.

The Manitoba government is also establishing the Manitoba Watershed Districts Capacity Fund, administered in trust by The Winnipeg Foundation. Annual revenues from this new \$2.5 million fund will provide a stable source of funding to support technical work, operations, communications, governance and watershed planning efforts for districts and the Manitoba Association of Watersheds.

Manitoba Government Opens Second Intake for Military Memorial Conservation Grant

"The Manitoba government is opening a second intake for the Military Memorial Conservation Grant (MMCG) program to help fund additional projects that will conserve Manitoba's military memorials" - Sport, Culture and Heritage Minister Andrew Smith

Any individual, organization or business including local governments interested in preserving a military memorial may apply for funding, with the exception of the federal government or any provincial government or organization reporting directly to a federal or provincial government. A long-term commitment must be made to preserving the memorial. If the applicant is not the

memorial's owner, this commitment must be made and authorization to carry out the proposed work given by the owner or municipality as appropriate.

The application deadline for this intake is **July 11**.

Federal Government Zero Emissions Transit Fund (Transit and School buses)

Federal Government Zero Emissions Transit Fund (Transit and School buses)

The \$2.75 billion Zero Emission Transit Fund offers support to public transit and school bus operators across Canada who are electrifying their fleets, in coordination with the Canada Infrastructure Bank's commitment to invest \$1.5 billion in zero emission buses as part of its three-year Growth Plan.

There are two Zero Emission Transit Fund components under which projects are eligible for funding:

1. **Planning Projects:** Eligible projects include studies, modelling and feasibility analysis that will support the development of future larger scale capital projects.
2. **Capital Projects:** Eligible capital projects include buses, charging and refueling infrastructure, and other ancillary infrastructure needs.

Eligible recipients under the Zero Emission Transit Fund include:

- provinces and territories;
- municipal or regional governments;
- transit agencies;
- public bodies (e.g., school boards);
- private-sector school bus operators;
- and private accessible transit transportation providers (e.g., paratransit services).

AMM Trading Company / CANOE Procurement Group of Canada

Don't go up the Creek without your Canoe Paddle!

Canoe Check List – tips to save money using Canoe

- Always use supplier contact details noted on our website – local dealers and contacts may not know of our program, but the key contacts noted on our website will work with local dealers to ensure Canoe membership discounts are being applied.
- When speaking with supplier contacts, ask for **Sourcewell/Canoe** membership pricing
- Practice due diligence – check applicable contract discounts by referring to the contract awarded - go to <https://www.sourcewell-mn.gov/contract-search> and type in the name of the supplier, then click on 'pricing' to view percentage discounts members will receive. Review contract documents for evaluation criteria and awarding documentation.
- Ensure contract # (noted on website or within contract on above link) is noted as PO on your invoice
- Post Notice of Intent annually on Merx [notice of intent merx.pdf](#)
- Know your membership # - contact Ainsley for details
- Council has questions/concerns about our program? Set up a council meeting with Ainsley so she can provide overview/answer questions
- Questions about how to use program, rebates, discounts, new suppliers, contracts, products required? Contact Ainsley to set up a meeting and she will assist in all your procurement requirements.

Subject: Outstanding Provincial Responses to 2021 AMM Resolutions

Dear Municipal Officials,

Every year after the AMM Annual Convention, newly passed resolutions are sent to the appropriate government departments for their response. These responses help the AMM to set the direction for its lobbying strategies, although the AMM does not necessarily wait for a response to take action on these issues. We are happy to be able to demonstrate good progress already on some of the new resolutions put forward by our membership last year.

We are sending these responses in an electronic format, as we have in previous years. This will allow you to print off those responses that are of the greatest interest to you and have the other responses on hand for reference.

Please note that initial resolution responses are just the first step in the AMM advocacy process. The AMM follows up on all resolutions during meetings with senior government officials and Ministers. If you are interested in receiving a progress update on any particular resolution, please reach out to AMM staff.

These are remaining outstanding responses that we have received in addition to the responses previously sent;

Room 330
Legislative Building
Winnipeg, Manitoba R3C 0V8
CANADA

Denys Volkov
Executive Director
Association of Manitoba Municipalities
1910 Saskatchewan Avenue W
Portage la Prairie MB R1N 0P1

Dear Denys Volkov:

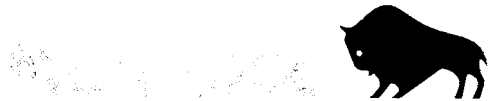

Thank you for your letter on March 28, 2022 regarding a resolution pertaining to the Environmental Reclamation Fee on aggregate production increasing to \$1.50/tonne produced.

The province has established a Quarry Rehabilitation Advisory Committee (QRAC) to consider changes to the quarry program, including but not limited to the issuance of quarry dispositions, fees, rehabilitation levy (Environmental Reclamation Fee) and rehabilitation works. As a member of QRAC, your continued participation in further discussions on this resolution and other related topics is encouraged. I expect a meeting will be called in the near future to restart these important discussions.

Sincerely,

Honourable Scott Fielding

Denys Volkov
Executive Director, Association of Manitoba Municipalities (AMM)
Email: c/o neserio@amm.mb.ca

Dear Denys Volkov:

I am writing on behalf of the Honourable Audrey Gordon, Minister of Health, in response to your correspondence regarding the AMMs recent resolutions. I apologize for the delay in responding.

EMS System

Prior to health system transformation, Manitoba's emergency medical services (EMS) system including regional operations, processes and standards of clinical practice varied widely across the province. These services are now consolidated under Shared Health to support a provincial model that works to ensure patients have access to consistent care, regardless of where they live.

Ambulance wait times have generally increased throughout the province during the pandemic due to a rise in patient volumes and ongoing staffing challenges related to both vacancies and increased sick-calls. Inter-facility and inter-regional transfers have also increased. Calls for ambulances are prioritized by acuity to ensure emergency calls are responded to as quickly as possible. Ambulances are strategically positioned to ensure coverage for response to communities while their "local" resource may be unavailable (either at an emergency call or completing an interfacility transfer).

Shared Health continues to study the use of dedicated stretcher services that can provide safe transport for stable, low-acuity patients that reduce the reliance on ambulances and allow paramedics to maintain coverage for higher-acuity calls. A stretcher service model is currently being piloted in Altona, with additional work underway to expand this pilot as part of our ongoing COVID-19 response and recovery in the Brandon area, combined with a dedicated aircraft for low acuity transfers to between communities that require more than two-hours travel by ground transfer resources. Additionally, Shared Health is addressing response time challenges with various recruitment initiatives, the strategic positioning of operational emergency response hubs throughout the province and ongoing partnerships with educational institutions to build the skills of staff while ensuring a more consistent and integrated approach to emergency care.

CPMB and Professional Liability Insurance

Paramedics are now a regulated health profession with an independent college. Questions related to the College of Paramedics of Manitoba and regulatory matters should be referred to them for response.

Rural Staffing and Medical Professionals

The recruitment and retention of physicians in rural areas is a priority for Manitoba Health. We recognize the need for more physicians to serve Manitobans living outside of Winnipeg in their home communities, and to that end we have implemented numerous policies and programs intended to promote rural practice. This includes the promotion of rural practice to medical students, residents and physicians at various stages in their careers. In addition, the Manitoba Health Care Providers Network operates various programs intended to expose medical students, residents and physicians to rural practice. We also provide funding for the payment of differential location-based tariffs to provide a significant financial incentive for rural and northern practice.

The department would be prepared to consider adopting other incentives geared at encouraging physicians. However, tax incentives are complicated by the fact that most physicians are not salaried employees, but rather provide service on a fee for service basis through medical corporations. They are therefore taxed differently than employees, and provincial taxes form only a portion of their overall tax burden.

It is possible for municipalities to provide their own incentives to encourage the relocation and retention of physicians in rural communities. We have observed the efforts of some Manitoba communities to provide various non-monetary supports to physicians including short-term housing, employment for spouses and connections with colleagues through group practice arrangements. Some towns have used these types of incentives to successfully recruit physicians, and they are examples of measures that rural communities can take independently.

We do note your general level of concern regarding the recruitment and retention of physicians to rural areas, and it is an issue that will be comprehensively addressed in the upcoming Health Human Resources Plan that Manitoba Health is currently developing.

Thank you once again for your letter and for sharing AMM's views on this matter. Manitoba Health appreciates your organization's efforts to improve access to health care throughout our province.

Sincerely,

A handwritten signature in dark ink, appearing to read 'B Wasilewski', written in a cursive style.

Barb Wasilewski

c Honourable Audrey Gordon

MINISTER
OF AGRICULTURE AND RESOURCE DEVELOPMENT

Room 165
Legislative Building
Winnipeg, Manitoba R3C 0V8
CANADA

February 11, 2022

Denys Volkov
Executive Director
Association of Manitoba Municipalities
1910 Saskatchewan Avenue West
Portage la Prairie, MB R1N 0P1

Dear Denys Volkov:

This letter is in response to your December 16, 2021, correspondence to Manitoba Agriculture and Resource Development, regarding your request for responses to the Association of Manitoba Municipalities November 2021 resolutions.

Following a review of the resolutions specific to Manitoba Agriculture, our responses are as follows:

Funding for Veterinary Clinics (AMM Resolution 14)

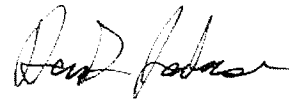

The department has a total annual budget of \$594,000 to support Veterinary Service Districts (VSD) and other rural clinics. Funding of \$479,000 is through a provincial grant system to 27 VSD Boards and associated animal hospitals.

The province matches 95 per cent of municipal deposits to VSD Boards, up to a maximum annual grant of \$19,000 for each Board. \$115,000 in funding is for grants to rural veterinary clinics to provide summer work terms to veterinary students under the Veterinary Student Temporary Employment Program.

In addition to the \$594,000 to support the VSDs and rural clinics, the Province provides \$6 million annually to support seats for 60 Manitoba students at the Western College of Veterinary Medicine. The Veterinary Services Commission is reviewing the Veterinary Services District program to determine optimum support within its current budget.

With regard to Resolution 9, Environmental Reclamation Fee, Resolution 11, Transportation of Aggregate, and Resolution 8 Provincial Water Strategy, we are referring these for response to the departments of Transportation and Infrastructure, Natural Resources and Northern Development and Environment, Climate and Parks, respectively.

Sincerely,

A handwritten signature in black ink, appearing to read 'Derek Johnson', written in a cursive style.

APR 12 2022

Denys Volkov
Executive Director
Association of Manitoba Municipalities
1910 Saskatchewan Avenue W.
Portage la Prairie MB R1N 0P1
dvolkov@ammm.mb.ca

Dear Denys Volkov:

Thank you for your letter of December 16, 2021, regarding three resolutions passed at your fall convention: resolution #08-2021 requests that Manitoba develop a program for planning, identifying and prioritizing regional water projects as part of its Manitoba Water Strategy; resolution #18-2021 requests that Manitoba seek input from all municipalities prior to listing the application on the public registry; and resolution #19-2021 requests funding from the province to assist municipalities to comply with permit requirements for waste disposal cells.

Resolution #08-2021 – Provincial Water Strategy

Environment, Climate and Parks is leading the development of a comprehensive provincial water management strategy to conserve wetlands, enhance resiliency, improve surface water quality, manage nutrients, protect biodiversity, and sustain economic development. The department will also consider how to apply natural infrastructure solutions in support of climate change adaptation, environmental sustainability, and agricultural productivity.

In summer 2021, the department engaged with Manitobans on the framework for the proposed provincial water management strategy. The Association of Manitoba Municipalities and other key stakeholders also had an opportunity to provide more input to the draft strategy through stakeholder engagement sessions that were organized by the Enterprise Machine Intelligence and Learning Initiative (EMILI) in January 2022.

The draft framework for the proposed provincial water management strategy includes components that align with the AMM resolution including:

- Support coordinated water management and governance across watersheds and basins.
- Enhance water supply for sustainable development.
- Address our water infrastructure challenges and opportunities.

For more information on the draft focus areas of the strategy visit:
https://gov.mb.ca/asset_library/engagemb/agriculture/waterstrategy/water-management.pdf

Resolution #18-2021 – Public Registry Advertising

The Manitoba Environment Act asks for comments from the public on proposals submitted such as developments for construction, industrial facilities and mining projects, agricultural manufacturing, etc. Environment, Climate and Parks is in agreement with including Manitoba municipalities in the review of draft development proposals pursuant to The Environment Act and The Dangerous Goods Handling and Transportation Act.

The department understands that developments may overlap and/or affect the environment and the overall well-being and health of residents of more than the originating municipality. The department is finalizing an information bulletin on how and when notices will be distributed to the Chief Administrative Officers of municipalities. The bulletin will be shared with you in the coming weeks.

Resolution #19-2021 – Operating permits for the Waste Disposal Grounds

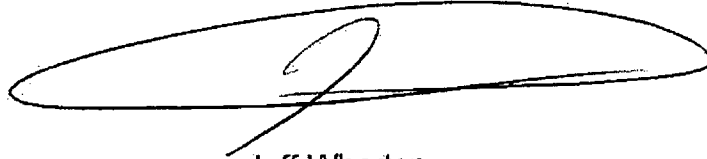

Landfills have the potential to create long-term negative impacts on the environment if not properly constructed. In accordance with the Waste Management Facilities Regulation, qualified professionals, who can identify potential factors that may harm the environment and provide options to mitigate those impacts, must oversee the design and construction of landfills.

If a municipality is no longer in compliance, they are encouraged to provide a compliance plan to the department regarding how they plan to meet the regulatory requirements. The department is committed to working with municipalities one-on-one to discuss options around approval requirements and recognizes that there can be several steps involved in coming into compliance. The department also continues to engage with Municipal Relations on options around this issue, including funding and future planning. I understand that the department has been meeting frequently with the Association of Manitoba Municipalities and municipalities to discuss this matter. I am pleased to see this ongoing communication and encourage municipalities to reach out to the department if they have questions about how to develop a compliance plan.

I also understand that the Winnipeg Metropolitan Region is exploring collaborative management options for waste diversion and waste management services amongst municipalities and communities. I appreciate and encourage such regional initiatives when it makes sense to do so.

Thank you again for sharing these resolutions. I continue to appreciate the excellent working relationship between the Association of Manitoba Municipalities and the Manitoba government on a wide range of issues.

Sincerely,

A handwritten signature in black ink, consisting of a large, sweeping oval shape with a smaller loop inside, followed by a horizontal line extending to the right.

APR 20 2022

Denys Volkov
1910 Saskatchewan Avenue W.
Portage la Prairie MB R1N 0P1
www.amm.mb.ca

Dear Denys Volkov:

Thank you for your letter outlining the 2021 Association of Manitoba Municipalities' resolutions pertaining to Manitoba Hydro. As the Minister responsible for Manitoba Hydro, I am pleased to respond.

With regard to Resolution #20 pertaining to "Hydro Fee Schedules", I can appreciate the impact COVID-19 has had on the provision of public services in municipalities and the overall impact on citizens of the province. The Manitoba government has recently made it clear, however, that it is the Public Utilities Board that considers Manitoba Hydro's rate applications and approves electricity rates.

Under The Manitoba Hydro Amendment and Public Utilities Board Amendment Act which I recently tabled in the Manitoba legislature, rules to approve and vary rates, including rates for different customers or classes of customers, as submitted by Manitoba Hydro may be varied by the PUB where it considers it just and reasonable. As you know, in 2021 Manitoba applied for a five per cent general rate increase and the PUB approved 3.6 per cent. Manitoba electricity rates remain the lowest in North America other than Quebec.

A basic premise of fairness for electricity rates is that a rate structure should not be preferential to any particular customer. Rate classes are developed to recoup costs and based on the level and type of service provided without regard to end use or geographic location. This ensures that remote locations are not disadvantaged with higher costs compared to more populated regions where service delivery costs are less.

Manitoba Hydro has assured me they can work with individual municipalities to discuss energy usage by specific facilities and make suggestions for efficiency improvements. In addition, Efficiency Manitoba offers specific programs for municipally owned buildings which can help municipalities reduce their energy usage and costs.

With regard to Resolution #21 pertaining to "Development Plans and Zoning By-Laws", I understand the importance of timely input from Manitoba Hydro into these important processes. Manitoba Hydro has indicated they will work with the Community Planning Branch and Regional Planning Offices in order to better provide effective input throughout the planning process, understanding the timelines and pressures that municipalities are facing.

I appreciate your efforts and those of the Association of Manitoba Municipalities in considering and bringing forward annual resolutions. The Manitoba government supports the mayors, reeves, and councillors who strive to achieve strong and effective municipal governments in order to provide the best services from both levels of government to our common citizenry.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Cameron Friesen', written in a cursive style.

January 11, 2022

Denys Volkov
Executive Director
Association of Manitoba Municipalities
dvolkov@amm.mb.ca

Dear Denys Volkov:

Thank you for your December 16, 2021 letter regarding the Association of Manitoba Municipalities' (AMM) 2021 resolutions related to Manitoba Infrastructure. I am pleased to provide a response to each of the resolutions as outlined below.

Resolution #11-2021 - Transportation of Aggregate

Resolution summary:

The AMM lobby the Province of Manitoba to 1) allow municipalities to charge and collect a Transportation of Aggregate Levy on Provincial Roads (PR) under municipal maintenance contracts; and 2) to further breakdown the method of classifying the type of road traffic on PR roads for ranking purposes such as: Heavy Haul, Commercial / Recreational, and Residential.

Manitoba Infrastructure response:

Re: Request 1

Rural Municipalities (RMs) can collect fees from aggregate producers and those hauling the materials under the Aggregate Mining and Transportation Fees Agreement Regulation, provided an appropriate bylaw is established.

Participation in Gravel Road Agreements (GRAs) with Manitoba Infrastructure is voluntary and at the discretion of the local Rural Municipalities. Under the GRAs,

local municipalities can identify and negotiate up to an additional 10 percent for the maintenance of provincial roads that are affected by the heavy loading traffic.

Re: Request 2

Since January 2021, Manitoba Infrastructure has been and will continue to meet regularly with the AMM representatives to further discuss this issue.

Resolution #12-2021 Provincial 5-year Capital Plan

Resolution summary:

The AMM lobby the Province of Manitoba to implement capital program best practices management, by introducing a Manitoba Infrastructure annual and five-year highways capital program to commence with budget year 2022-2023.

Manitoba Infrastructure response:

Information about 2022/2023 Manitoba Infrastructure's capital projects, upcoming tenders and contract opportunities are publically available once approved.

Manitoba Infrastructure's Interactive Project Map identifies approved capital projects and their status (e.g. design, construction, in service, seasonal shutdown, in service). The Interactive Project Map can be viewed at Manitoba Infrastructure's website at: <https://www.gov.mb.ca/mit/mipmap/map.html>.

Advertising schedules for Construction, Requests for Proposals (Service Providers), and Material Supply Tenders for upcoming work can be found at Manitoba Infrastructure's website at: <https://www.gov.mb.ca/mit/contracts/index.html>.

Resolution #13-2021 Manitoba Infrastructure - Highway Maintenance

Resolution summary:

The AMM lobby the Province of Manitoba to study and examine the highway infrastructure that leads to each provincial park throughout the province with the purpose of making those routes safer, easier to navigate, and more pleasurable to travel upon.

Manitoba Infrastructure response:

Manitoba Infrastructure recognizes the recreational value of provincial parks for the public and the economic benefits they provide to Manitoba and local communities. The department continually monitors and assesses the condition of all provincial roads to ensure they are in safe condition. Review of the capital plans occurs regularly to prioritize work based on the needs of the broader

transportation network. Manitoba Infrastructure staff meet regularly with Rural Municipalities to better understand local priorities.

The Manitoba 150 initiative rehabilitated a number of provincial park access roads, such as Falcon Lake, Adams Lake, and Big Whiteshell Lake.

Resolution #14-2021 Manitoba Infrastructure and Manitoba Justice – Road Weight Restrictions

Resolution summary:

The AMM lobby the Province of Manitoba to develop a process and criteria for funding to qualify for municipal road upgrades on these roads that are being used as alternate routes.

Manitoba Infrastructure response:

The Highway Traffic Act allows a local traffic authority to create a by-law to set road weight restrictions on roads under their authority. Although the act allows for enforcement by a municipal bylaw officer, these bylaw officers do not have the same authority as peace officers, such as the authority to direct vehicles to stop and request documentation, to speed on a highway, and to use emergency lighting, etc.

Manitoba Infrastructure is not responsible for capital improvements or maintenance for municipal infrastructure. The AMM is encouraged to continue to work with the Department of Municipal Relations to support capital investments in municipal road upgrades to accommodate heavy truck traffic during the spring thaw.

In addition, Manitoba Infrastructure, Manitoba Justice, and Municipal Relations have been exploring options to enable municipalities to enforce weight restrictions and to improve their infrastructure protection capacities.

Thank you to the AMM and your member municipalities for your consideration on these potential initiatives. We look forward to continuing to explore opportunities to build better and more efficient services for Manitoba.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Reg Helwer', written over a horizontal line.

Denys Volkov
Executive Director
Association of Manitoba Municipalities
1910 Saskatchewan Avenue W.
Portage la Prairie MB R1N 0P1

Dear Denys Volkov: *Denys,*

Thank you for your letter of December 16, 2021 regarding resolutions recently passed at the Association of Manitoba Municipalities (AMM) 2021 Annual Convention.

Our government was thankful to have had the opportunity to address this issue at the AMM annual convention and can assure you that we share AMM's concerns regarding the impact to municipalities resulting from the recent collective agreement negotiated between the National Police Federation and the Government of Canada for RCMP Regular Members and Reservists. Furthermore, I can assure you that we will continue to advocate on behalf of municipalities, specifically as it relates to the process surrounding the collective agreement, concerns regarding affordability and sustainability, unilateral decision-making, and the lack of consultation and communication with municipalities on the part of the federal government.

On September 1, 2021, the Minister of Municipal Relations and the Minister of Justice jointly wrote to The Honourable Bill Blair, Minister of Public Safety and Emergency Preparedness on this issue. This letter highlighted that the pay increases were unaffordable to most Manitoba municipalities and beyond what municipalities were prepared for based on their communication from the RCMP. The letter called for the Government of Canada to absorb the financial impact for Manitoba municipalities in order to minimize the financial hardship and adverse impacts of the pay increase and allow an opportunity for appropriate planning.

Thank you for taking the time to write to my office regarding AMM resolution #22-2021. I look forward to continued collaboration with AMM on this issue as more information is provided by Canada.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kelvin Goertzen', with a stylized flourish extending to the right.

Dear Mr. Volkov:

Please find attached the responses to the 2021 Association of Manitoba Municipalities (AMM) Resolutions that are relevant to Manitoba Municipal Relations.

I look forward to strengthening the important relationship that we have through various means, such as the AMM – Manitoba Working Group on Strategic Collaboration, and continuing to work together to bolster provincial-municipal growth and partnership opportunities.

We appreciate working together with you on the Manitoba government's commitment to providing municipalities with a fair say, especially as we navigate our new normal during these challenging times.

Sincerely,

Bruce Gray
Deputy Minister

Attachment

c. Honourable Derek Johnson, Minister of Municipal Relations

MUNICIPAL RELATIONS

RESPONSE TO 2021 AMM CONVENTION RESOLUTIONS

AMM Resolution #01-2021 - "...lobby the Province of Manitoba to review and revise the Mobility Disadvantaged Transportation Program to index funding to inflation, thereby ensuring the viability and sustainability of this transportation option for the elderly and mobility-challenged."

The Manitoba Government is committed to building a better Manitoba for all citizens, including seniors and other people with mobility issues in rural Manitoba. Our government recognizes the challenges facing citizens in communities with limited transportation resources and the importance that accessible transportation has on a positive quality of life and active participation in communities for seniors and the mobility disadvantaged.

The Mobility Disadvantaged Transportation Program (MDTP) supports locally-initiated transportation services for mobility disadvantaged persons, so that they may live more independently. Through the MDTP, funding is provided to municipalities that sponsor and operate handi-transit services in their communities. The MDTP base operating grant is provided to offset handi-transit operating expenses, with additional funding being available through a Regional Incentive Grant to help maintain and expand the regional delivery of handi-transit services.

In 2021, our government provided a MDTP one-time top up grant of \$10,000 to all sponsoring municipalities of handi-transit services, totaling \$680,000 in additional funding to facilitate the transportation of seniors and other people with mobility issues to and from COVID-19 vaccination sites. The top up grant also helped offset the costs incurred for personal protective equipment (PPE) acquisition and the sanitization of vehicles between trips.

Our government will continue to work in collaboration with stakeholders to ensure provincial funding is addressing the needs of our local priorities and Manitoba citizens.

MUNICIPAL RELATIONS

RESPONSE TO 2021 AMM CONVENTION RESOLUTIONS

AMM Resolution #02-2021 – “...lobby the Province of Manitoba to amend The Municipal Act to provide municipal governments throughout Manitoba the ability to grant loan guarantees for capital projects.”

While The Municipal Act does not explicitly provide authority to grant a loan guarantee, municipalities have the ability to grant loan guarantees. Loan guarantees are considered “borrowings” under s. 172 of the Act.

If a municipality issues a loan guarantee, it must have authorization in place to issue the debt if the other organization is unable to pay its obligation and creditors call the outstanding amount. Like other borrowings, this means that the municipality must pass a borrowing by-law and must seek the approval of the Municipal Board before the third reading of the by-law. A loan guarantee increases a municipality’s approved debt levels and reduces its borrowing capacity. As the other organization pays off the debt, a municipality may reduce the authorized limit on the loan guarantee borrowing, which would gradually increase its borrowing capacity. Department staff are available at any time to assist municipalities with understanding their obligations related to loan guarantees and borrowing by-laws.

MUNICIPAL RELATIONS

RESPONSE TO 2021 AMM CONVENTION RESOLUTIONS

AMM Resolution #05-2021 – “...lobby the Province of Manitoba to conduct a complete property tax reform study and take into consideration how these types of tax tools available in the majority of other provinces across our country can benefit Manitoba municipalities and allow for flexibility at the local level and put the policy decision of determining the distribution of the municipal tax burden among the property classes in the hands of municipalities.”

The province is committed to ensuring that municipalities have the tax tools available to distribute the municipal tax burden among ratepayers fairly and sustainably. Currently, The Municipal Act provides municipalities with various tax tools to ensure the cost of services and programs are fairly distributed. These tax tools include special service levies, local improvement levies, tax credits, Local Urban Districts, and user fees. Department officials are available at any time to assist municipalities in structuring these tax tools to achieve the municipality's desired taxation outcomes.

The province welcomes stakeholder feedback on these tools, and will continue to carefully consider suggested changes or additions to the available tax tools, such as examining best practices from other jurisdictions.

Manitoba recently provided municipalities with an extension to differential mill rate authority until December 31, 2024. While most municipalities have already completed the transition to a unified mill rate, a small number of municipalities in Manitoba continue to utilize differential mill rates. Once all municipalities have successfully transitioned away from differential mill rates all Manitoban municipalities will be operating under the same taxation framework. Achieving a consistent taxation framework across the province is critical prior to making any changes to Manitoba's property taxation framework. Any potential future comprehensive tax tools study would be conducted in close consultation with the AMM, the Manitoba Municipal Administrators Association, municipalities, and other stakeholder groups.

Subject: Cleanfarms 2021 Annual Report Shows Substantial Increases in Ag Material Recycling |
Le rapport annuel 2021 d'AgriRECUP montre une augmentation substantielle du recyclage des matériaux agricoles

Media Release

Communiqué

cleanfarms agrirécup

Cleanfarms 2021 Annual Report Shows Substantial Increases in Ag Material Recycling

Cleanfarms posted its 2021 annual report today, documenting the full results of its permanent programs and pilot projects designed and operated to help Canadian farmers manage agricultural plastic products and packaging.

Most important in the 2021 results is that Cleanfarms saw substantial growth in the collection numbers for the materials it collects for recycling and responsible disposal across the country suggesting that more farmers are using the services Cleanfarms offers and bringing back more materials. For example the numbers of small plastic pesticide and fertilizer jugs climbed by about 700,000 containers to 6.2 million containers collected for recycling, up a full 12.5% over the year before.

One of Cleanfarms' programs is to collect old, leftover pesticides and expired farm animal medications that farmers no longer want. The annual report describes the successful results achieved in 2021. In 2022, the program continues in the fall in British Columbia (Peace River region), Northern Alberta, Manitoba, Ontario and Newfoundland. – Cleanfarms photo

Often referred to as the “blue box” for farmers, Cleanfarms’ programs collect for recycling large and small plastic pesticide and fertilizer containers, used grain bags and baler twine. In some pilot projects, it is testing the collection of bale wrap and silage wrap which is used throughout Canada to wrap hay and to cover silage used as livestock feed. In addition, Cleanfarms operates programs that

collect unwanted pesticides and old, obsolete livestock/equine medications for proper disposal. In eastern Canada, it collects seed, pesticide and in Quebec, fertilizer bags for proper disposal, and it operates pilot programs for these materials on the Prairies.

In a report to Cleanfarms members, Board Chair Boyd Bergstrom and Cleanfarms Executive Director Barry Friesen said “without exception Canadian farmers responded to every program and pilot, returning more materials for recycling than ever before”.

“Our hats go off to the farmers who, in the midst of another challenging year still grappling with the pandemic, continued to demonstrate pride in their farms by finding ways to recycle ag plastics and ensure responsible management of unwanted pesticides, expired and obsolete farm animal medications and empty seed and pesticide bags.”

2021 saw the implementation of a series of pilot programs throughout Canada that are generating critical data that point the way to the most effective, cost-efficient means of collecting, transporting and recycling harder-to-manage ag plastics. The materials collected through the pilots are also being used to develop recycling methodology and recycled-content applications with the intention of developing new end-markets and uses for recycled materials from the agricultural sector.

Cleanfarms collects ag waste materials through more than 1,500 recycling collection sites across Canada. Its recycling programs keep valuable resource materials out of landfill and the environment, and reinvested in the circular economy.

Cleanfarms is an agricultural industry stewardship organization that contributes to a healthier environment and a sustainable future by recovering and recycling agricultural and related industry plastics, packaging and products. It is funded by its members in the crop protection, seed, fertilizer, animal health medication, ag plastics industries. It has staff located in Lethbridge, Alberta; Moose Jaw, Saskatchewan; Winnipeg, Manitoba; Etobicoke, Ontario; and St-Bruno, Quebec.

Subject: Manitoba Grain Bag & Baler Twine Recycling: Are you interested in becoming a collection site?

cleanfarms

Manitoba Grain Bag & Baler Twine Recycling – Are You Interested in Being a Collection Site?

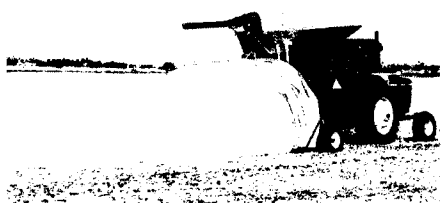

Please take a few minutes to complete a collection site checklist or forward to the person in your organization who will most want to do this!

Cleanfarms has been operating a province-wide pilot program to collect grain bags* and twine for recycling since 2013. In 2021, Manitoba Environment, Climate and Parks designated grain bags and twine under the Packaging and Printed Paper Stewardship Regulation.

This transitioned the pilots into a permanent Extended Producer Responsibility (EPR), industry-funded program for grain bags and twine.

**This includes bags commonly referred to as 'grain storage bags' and 'silage bags' that are used to store grain and cereals.*

For more information on the program, visit <https://www.cleanfarms.ca/manitoba> or call 1-800-561-2222. You can also contact your local Cleanfarms representative for more information. If you are interested in becoming a collection site, please contact your local Cleanfarms representative for more information.

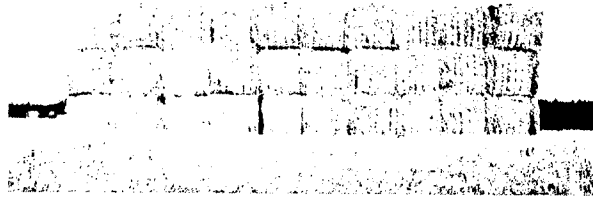

Expanding our collection site network!

Cleanfarms is looking to confirm our collection network for this program - including existing collection sites and new sites, that will enable Manitoba farmers to drop off their used grain bags and baler twine for recycling.

Collection site requirements

Typical site requirements include:

- Location: we're seeking sites located throughout all major regions of the province
- Accessibility for a 53-foot semi
- All-season suitability
- Vector control

Please see details in the "Requirements" document below.

Compensation

Cleanfarms will pay a \$55/tonne collection incentive for collected materials upon shipment to recycler, based on container loaded weight verified by scale tickets. Participation and compensation is based on the collection site's ability to meet the minimum requirements as described below.

For more information on the program, please visit the Cleanfarms website at www.cleanfarms.ca or call 1-800-387-2222. For more information on the program, please visit the Cleanfarms website at www.cleanfarms.ca or call 1-800-387-2222.

Filling out the checklist doesn't commit you to be a site under the program, nor does it guarantee your selection to be a collection site.

It *will* help you figure out if your location already meets the baseline site requirements or what you might need to add. It will also help Cleanfarms determine what resources are currently available in communities across the province.

Next steps & more information

Join us for a June 16 webinar

We're hosting a one hour webinar starting at 11 a.m. CDT (Winnipeg time) on June 16. Sign up below to join us - we'll fill you in on program details and answer all your questions then.

WEBINAR SIGN-UP: Collection Site Info for Manitoba Grain Bag & Baler Twine Recycling Program

Thank you for your interest in this program! Once you complete the checklist, we'll follow up with you about the next steps to take to confirm your participation and would be pleased to answer any questions you might have.

For more information

Please get in touch Serena Klippenstein who is our Manitoba Program Coordinator for more information: klippensteins@cleanfarms.ca.

About Cleanfarms

Cleanfarms is a not-for-profit industry stewardship organization that operates a number of industry-funded stewardship programs for items like pesticide & fertilizer containers, seed & pesticide bags, obsolete pesticides and obsolete animal health medications and grain bags in Manitoba.

COMMUNITY DRUG ALERT

WORKING TOGETHER WE CAN STOP DRUG ABUSE!

12904-54 Street Edmonton, AB T5A-0A4

Tel: (587)635-4633 Fax: (780)443-4467

info@communitydrugalert.ca

Thank you for your ongoing support in Community Drug Alert. We are pleased that you are considering advertising in our publication once again and concerned about the choices that face our youth.

Community Drug Alert is a magazine that focuses on problems associated with alcohol and drug abuse. We are constantly bombarded by newspaper accounts and television programs that relate to drug and alcohol abuse. It is a concern to most of us and a topic that gets a great deal of attention.

Community Drug Alert presents the facts on drug and alcohol abuse and reports on the developments in the fight against these problems. We also look at important related issues that include family violence, prostitution, teenage suicide and gangs.

From a business point of view, you want your advertising dollars spent where potential customers will see your message. This publication is one that people will want to retain for future reference.

Our advertising rates are very affordable and do get noticed. Our books are distributed free of charge to social agencies and groups that work with high risk youth, and to the public. The target for Community Drug Alert is the Junior High & High School aged group, however many parents, health professionals and educators will read this Digital Magazine as well.

Our next issue will be available in Fall 2022. If you do not have camera ready artwork available, we will be pleased to design an ad for you.

Again, we thank you for all your help and look forward to working with you on future publications. If you have any further questions or comments, please feel free to call or write us.

Subject: Entrepreneurs with Disabilities Program Additional Resources

FYI

Good afternoon,

We are currently receiving an increase in EDP referrals. Below are additional resources including grant information that may be helpful. I am here to assist you along the way to find resources and to troubleshoot. I can be reached by email and phone, and I am also available by Zoom.

Below are some resources provided by other organizations that may be helpful to the clients you are working with:

- 1) **EAPD** – This is provincial grant for up to \$2,000 for business supports and there is additional funding for training and disability related accommodations. This is a provincial program so there is quite a bit of paperwork to go through including documentation from a doctor. They currently do not have a wait list so this will speed up the process. To access this program, the entrepreneur needs to be in the start up stage (has not made significant profits in their business or less than 6 months old) and needs to be referred to a designated agency based on disability type to access these funds.
 - General information about the program and business plan requirements: <https://www.gov.mb.ca/wd/ites/vrmanual/155.2.html>
 - Designated agency by disability type: <https://www.gov.mb.ca/wd/ites/vrmanual/index.html> Manitoba Possible has regional offices: <https://www.manitobapossible.ca/contact-us?locale=en>

If you think the entrepreneur you are working with is a good fit for this program, please let me know and I will help with making the connection to the designated agency office.

- 2) **RISE** – This program is for entrepreneurs experiencing challenges with mental health or addictions. It has some small loans that are based on character lending. <https://risehelps.ca/small-business-lending/>

The Manitoba contact for this program is:

Judy Zubriski (she/her)
Manitoba Business Advisor
O: (204) 982-6126
jzubriski@RiseHelps.ca

930 Portage Ave., Winnipeg, MB, R3G 0P8
<https://risehelps.ca/>

- 3) The **Art AccessAbility Network** supports Manitoba artists with disabilities or health conditions:
<https://aanm.ca/>
- 4) Some entrepreneurs may currently be receiving **CPPD**. For more information about this program:
<https://www.canada.ca/en/employment-social-development/programs/pension-plan-disability-benefits/reports/toolkit.html> Section 5.0 provides information for Returning to Work which sets out the annual amount a person can earn before declaring their earnings by employment or self-employment.
- 5) If the Entrepreneur you are working with is currently receiving **EIA (Social Assistance)**, there are some specific programs that they may be eligible for so they can continue to receive benefits while they start their business. Please contact me for more information and for local contacts. The general information is: https://www.gov.mb.ca/fs/eia_manual/17.html

A reminder of some of the resources available on the CF Manitoba website:
<https://cfmanitoba.ca/about/resources/edp-business-tools>

Also the next CRA webinar on June 7, 2022 will include information on setting up a My CRA Business account.
To register: <https://www.eventbrite.ca/e/free-webinar-cra-s-how-to-avoid-scams-tickets-332003239627>

I am happy to answer any questions so please feel free to reach out.

Thanks,
Susan

Subject: Second Intake for the Military Memorial Conservation Grant

Good Morning,

The second intake for the Military Memorial Conservation Grant (MMCG) is now open. The program is to help fund additional projects that will conserve Manitoba's military memorials, Sports, Culture, and Heritage.

The application deadline for this intake is July 11.

Any individual, organization, or business including local governments interested in preserving a military memorial may apply for funding, with the exception of the federal government or any provincial government or organization reporting directly to a federal or provincial government. A long-term commitment must be made to preserving the memorial. If the applicant is not the memorial's owner, this commitment must be made and authorization to carry out the proposed work given by the owner or municipality as appropriate.

Provincial funding for conservation of a memorial (including inscription updates) or of original site infrastructure that is integral to the memorial, is available on a 1:1 matching basis (up to 50% of total project expenses, not exceeding total out-of-pocket costs for labor, material, and equipment).

Grants for new memorials or new infrastructure may be funded on a 1:2 matching basis (up to 33.3% of the total project expenses).

How do you apply for the grant?

- First begin by reading the [Program Guidelines](#) (PDF).
- Next, complete the [Military Memorial Description and Condition Assessment – Print Only](#) (PDF) version or [Fillable](#) (PDF) version. This will create an ongoing record of the province's military memorials and will help you identify what conservation issues your memorial may have as you develop a scope of work with your contractor/conservator. You will submit this as part of your application.
- Once you have determined what work needs to be done, and sought advice from professionals, complete the [Application Form - Fill-in](#) (this PDF form will allow you to enter information into the application and save it on your computer) or [Application Form - Print Only](#) (PDF), which you will fill in by hand and submit by mail with accompanying documentation.

To learn more about the Military Memorial Conservation Grant and to access the application form, visit https://www.gov.mb.ca/chc/grants/heritage_mmc.html
