BY-LAWS

None

UNFINISHED BUSINESS

None

GENERAL BUSINESS

Gravel Hauling Tender

BE IT RESOLVED that the bid of Fred Gilbert Trucking for gravel hauling for the years 2020 and 2021 in the amount of .333 yard/loaded mile hauling and .82 per yard for loading be accepted.

Gravel Crushing Tender

BE IT RESOLVED that the bid of Bluestar Construction for gravel crushing for the years 2020 and 2021 in the amount of \$4.10 per yard for an amount of approximately 12,000 yards annually be accepted.

Municipal Solid Waste and Recyclable Material Collection and Disposal

BE IT RESOLVED that the 3-year bid of Manitoba Waste Management for solid waste and recyclable material collection and disposal as outlined below for services A, B, C and D be accepted:

	Rent + Service	Approx. Tipping Fee	Approx. Total
2020	37,183.75	20,034.00	57,217.75 (9 months)
2021	48,981.00	26,712.00	75,693.00
2022	48,981.00	26,712.00	75,693.00

Dirt Roads

BE IT RESOLVED that Public Works be directed to focus on the following dirt roads for rehabilitation in 2020:

Road 377
 Road 378
 Road 474
 Road 1052
 Road 1112
 Road 1113
 Road 3810
 Road 3811
 Road 3812
 Road 10411

And further, that the remainder of the dirt roads be worked with a mulcher or disc.

Conservation Agreement – 30-8-18 WPM (Gorgerat/Greening)

BE IT RESOLVED that the correspondence from Manitoba Habitat Heritage Corporation dated March 3, 2020 with respect to a conservation agreement for property owned by Matthew Edward Gorgerat and Virginia Dawn Greening and located at 30-8-18 WPM be received and a copy placed on a corresponding property file.

Emergency Response Plan

WHEREAS the Village of Wawanesa and the Rural Municipality of Oakland had belonged to the Spruce Lakes Emergency Measures Board to ensure that their respective Emergency Response Plans were consistent with legislative requirements and followed a format consistent with surrounding municipalities;

AND WHEREAS the Province of Manitoba has since established a template that all municipalities are required to follow;

AND WHEREAS the Municipality of Oakland-Wawanesa has contracted the services of an Emergency Coordinator who also provides services to the Rural Municipality of Cornwallis;

NOW THEREFORE BE IT RESOLVED that the Municipality of Oakland-Wawanesa discontinue its involvement with the Spruce Lakes Emergency Measures Board and consider the benefits of membership in the Manitoba Association of Municipal Emergency Coordinators whereby membership fees would be expended from the Emergency Measures account.

February 11, 2020

Dear Joni,

We would like to take this opportunity to invite you and your staff to join us **April 30, 2020 for All-Net Tech Day!**

All-Net Tech Day is an excellent opportunity for users to meet with our experts and learn more about the products that they use. Throughout the day you can attend various user group meetings to learn about new program features, to hear tips and tricks, and to offer input on future product improvements. You can also take this opportunity to have one-on-one conversations with our training and support team to answer any questions you may have.

Not an All-Net user? Join us for All-Net Tech Day to discover municipal software products that can improve communication and efficiency within your municipality. Attend product demonstrations throughout the day for All-Net Meetings, Connect by All-Net, Service Tracker, and our Municipal Websites to see how you can benefit from these programs. You can also network with other municipal administrators to hear how they use our products.

All-Net Tech Day will be on **Thursday, April 20, 2020** at the **Victoria Inn Hotel & Convention Centre** (1808 Wellington Avenue, Winnipeg, Manitoba). Registration is \$50 per person and lunch is included. **Registration closes on March 13, 2020** so be sure to register before then.

Already in town for the 2020 MMAA Conference? Extend your stay at the Victoria Inn Hotel for an extra day using the MMAA block rate.

To register for All-Net Tech Day, visit our website event page.

Feel free to contact our office at (888) 403-4240 any time if you have any questions.

Take care,

Vern Sabeski
President

Experience, Learn, Network

All-Net Tech Day 2020

You are invited to attend All-Net Municipal Solutions Tech Day in Winnipeg. This event is for all administrators to learn more about our software, including new features and how it can improve efficiency within your municipality. Attendees will have an opportunity to share experiences and ideas for future product development.

All-Net Tech Day is a great forum for administrators to come together to see the latest in Municipal Technology. You can gain more insight on the products you use every day or discover new platforms to improve the services you provide to your residents..

At All-Net Tech Day you can...

- Attend various user group meetings and demos on All-Net Municipal Solutions products.
- Experience the latest in Municipal Technology.
- Learn about new features, enhancements, and the associated benefits.
- Opportunities to have one-on-one conversations with our training and support team.
- Network with like-minded individuals to propel your ideas forward.
- Discuss the direction of our products including future updates.
- Learn how to improve communication and efficiency within your municipality.

Dear Sir/Madam:

Re: Association of Manitoba Land Surveyor's Annual Register 2020

Enclosed for your information is a copy of the Association of Manitoba Land Surveyors' Annual Register for 2020.

This Annual Register of members of the Association of Manitoba Land Surveyors is published in accordance with the provisions of "The Land Surveyors Act", C.C.S.M. Cap. L60. It is distributed for the convenience of the citizens of Manitoba to ensure access to the profession when seeking advice or surveys with respect to land within this Province. Only those individuals listed as Practising Members are entitled to engage in the practise of land surveying within Manitoba.

Please post a copy of the register in your office(s).

Yours truly,

Lori Klos

Lori Klos
Executive Officer

February 2020 - AMM WESTERN DIRECTORS' UPDATE

AMM Western Directors' Update

Mayor Stuart Olmstead
Councillor Rhonda Coupland

As your AMM Board Directors, we are pleased to provide an update on the issues we discussed at the last Board meeting that was held on **February 20, 2020**.

While the AMM Board maintains the policy of confidentiality regarding ongoing discussions with the provincial government and stakeholders, we are pleased to share some of the topics with you.

If you should have any questions about any of the following items, please contact Nick Krawetz, AMM Director of Policy and Communications.

\$3M for Spring Flood Preparedness

On February 12, 2020, the Manitoba government formally invited all municipalities to submit proposals for one-time funding to support and enhance municipal capacity and

capability to prepare for a possible 2020 spring flood emergency, and to build resiliency for future floods.

Province of Manitoba Press Release
2020 Flood Preparedness Program

Under the program, municipalities can be reimbursed for up to **100 per cent** of approved flood preparedness or resiliency projects and equipment costs. The maximum funding available for each municipality will be based on the total value of all approved proposals, but up to \$150,000 may be available for each municipal proposal. Consideration will be given for funding of up to \$500,000 for the City of Winnipeg should flood risk warrant additional investment.

Please note that **proposals are due by February 28, 2020**, and must be submitted by email to mrmca@gov.mb.ca.

To better assist municipalities through this process, the Province has included the two attached documents for reference below:

- Flood Preparedness Program Guidelines
- Proposal Template for 2020 Spring Flood Preparedness Funding

Municipalities requiring assistance or additional program information are encouraged to contact a Municipal Services Officer at (204) 945-2572 or by email, mrmca@gov.mb.ca.

Closure of Dauphin Correctional Facility

The Board reviewed the provincial government press release announcing the closure of the correctional facility in the City of Dauphin.

When this news was announced, the AMM immediately reached out to the City of Dauphin and surrounding municipalities to offer assistance and help seek additional information from the Province of Manitoba to better understand this decision.

As the planned closure of this correctional facility will have ripple effects throughout the Parkland and across Manitoba, the AMM Executive requested and held a phone call with Minister Cullen to voice concerns, including the need to be transparent and proactively communicate any changes to correctional facilities in affected municipalities. The AMM Executive will also be raising this issue again during their upcoming annual meeting with the Minister.

The AMM has strongly urged the Province to increase investments in local communities by building new or upgrading/re-purposing existing buildings, communicate their overall plan for these types of facilities and how other facilities in other parts of

Manitoba may be affected, and leverage potential funding opportunities with the federal government to ensure impacts on local jobs and families are mitigated.

FCM Western Economic Solutions Taskforce (WEST)

On February 10, 2020, FCM's Western Economic Solutions Taskforce (WEST) gathered in Alberta for a full-day summit, bringing together key municipal and federal decision-makers to tackle the economic uncertainty facing western communities.

Taskforce members discussed solutions—short, medium, and long-term—to the challenges facing western communities. They also met directly with senior federal officials, including Deputy Prime Minister Chrystia Freeland, Transport Minister Marc Garneau, Economic Development Minister Mélanie Joly, and several opposition Members of Parliament.

In the coming months, WEST will continue to propose a full range of concrete recommendations for the federal government to adopt—and for municipalities across the country to share and build on.

2020 Mayors, Reeves and CAOs Meetings & Municipal Officials Seminar

We are less than two months away from the 2020 Mayors, Reeves, and CAOs Meetings and the Municipal Officials Seminar in Brandon!

MOS Registration:

- Early-bird registration \$150 plus GST available February 3 to end of day on March 9.
- Regular fee registration will commence March 10 to April 7.

Stay Connected

AMM and MMAA members are encouraged to contact AMM staff if they have questions or concerns regarding any municipal policy issue. Please contact Nick Krawetz, AMM Director of Policy and Communications, at 204-856-2371 or nkrawetz@amm.mb.ca.

Important information regarding Federal Grade Crossings Compliance and Safety

Under the federal Grade Crossings Regulation, municipalities share responsibility for managing the safety at federally-regulated grade crossings. Existing federally-regulated grade crossings must meet the requirements of the Regulations by November 28, 2021.

To better prepare for this compliance requirement, the AMM requested Transport Canada to provide helpful links and resources to better assist municipalities. In response, Transport Canada has provided the attached document, which is a summary of information from its website.

Grade Crossings Map: <https://www.tc.gc.ca/en/services/rail/rail-safety-canada.html>

Transport Canada will also be conducting six teleconference/Web Ex information sessions on the Rail Safety Improvement Program (RSIP) and Rail Safety Grade Crossings Regulations (GCR). The first two informational sessions are scheduled for later this month, whereas sessions for April and June will be scheduled at a later date depending on the level of interest:

- English session on February 25, 2020 from 14:30 to 16:00 (EST)
- French session on February 25, 2020 from 11:30 to 13:00 (EST)

Please register or express interest to one of the sessions by emailing the following address Parvina.Ramsahok@tc.gc.ca and Transport Canada will send you a WebEx confirmation with instructions for the corresponding session. Attendance is on a first-come, first-served basis with a maximum of 40 participants per session. Transport Canada anticipates these sessions will fill up quickly, so please don't hesitate to reserve your preferred session today.

Additional information can be found on Transport Canada's webpage [Grade Crossings Regulation: What You Need to Know](#).

Creating Affordable Homeownership Opportunities RFPs

manitobahousing

The Creating Affordable Homeownership Opportunities Request for Proposals (RFPs) provides municipalities an avenue to stimulate local real estate market through sales by financially supporting qualifying first-time home buyers. Successful delivery of these homeownership opportunities not only allows families to make home purchases sooner (with down payment assistance) but also allows them to stay in the community longer with more stable housing.

Manitoba Housing is seeking proposals from qualified organizations interested in creating homeownership opportunities for low-to moderate-income families in Manitoba through concurrently running

RFPs. Funding amount being reserved for both RFP's is up to **\$2,000,000.**

Please visit the following webpages for more information and the RFP documents.

Overview of Requests for Proposals

1. **RFP# HDB2020-001 - Capital funding for new construction**
2. **RFP# HDB2020-002 - First time home buyer assistance**

Eligible proponents include municipalities, private and public/municipal non-profit housing corporations, condominium corporations, and private developers. Municipalities may wish to partner with other municipalities to submit a joint proposal, and co-deliver the program.

RFP Deadline: **March 6, 2020**

For more information, please contact:

Harnet Weldihwet, RFP Coordinator

Telephone: 204-792-1273

Email: Harnet.Weldihwet@gov.mb.ca

PSCS FAQ for Municipalities

As the decades-old FleetNet emergency communications system is currently being replaced, municipalities will start transitioning to the new Public Safety Communications Service (PSCS) in 2020.

Engineered to be highly reliable, the PSCS is based on modern communications standards and will be built with modern infrastructure and equipment.

Please note municipalities are required to purchase radios and corresponding equipment. The Province of Manitoba has committed to fully fund the annual operating costs on behalf of municipalities.

Compatible radios are available for sale at a discount via our Trading Company.

SOFT SKILLS FOR TOUGH COOKIES

HALF-DAY WORKSHOPS

April 14, 2020 - Keystone Centre, Brandon

Based on her latest release, "Soft Skills for Tough Cookies", [Genella Macintyre, Partners in Discovery](#) leads a discussion of the 12 types of managers whose distinct and sometimes extreme styles might be called "difficult" such as the Ginger Snap, the Oatmeal Raisin and the Fortune Cookie.

Tough cookies are everywhere. They are not only managers, although they stand out more when in positions of authority.

How do you work with a tough cookie?

What do you do and say?

How do you know if you are a tough cookie?

During this fun and enlightening workshop, participants will identify specific strategies for dealing with tough cookies.

Objectives:

Identify the 12 types of "Tough Cookie Managers".

Understand how to deal with each type.

Select from a list of specific responses to work with tough cookies.

Discover if you are a tough cookie.

Understand when you might be a tough cookie and when you are not.
Increase your self-awareness so that you become a "Monster Cookie" (which is a good thing).
Identify behaviours to make you less "tough" by increasing your soft skills.

Fee: \$100 plus GST per person

9:00 am to 12:00 pm - [click here to register for the morning workshop](#)

or

1:00 pm to 4:00 pm - [click here to register for the afternoon workshop](#)

Pre-registration is required.

Seating is limited to 50 persons per workshop.

Regretfully, walk-ins cannot be accommodated for these workshops.

AMM, 1910 Saskatchewan Avenue West, Portage la Prairie, Manitoba R1N 0P1 Canada

MEMBER ADVISORY

INVITATION: COVID-19 (Coronavirus) Preparedness Conference Call with the Minister of Health, Seniors and Active Living

ATTENTION: Heads of Council

February 27, 2020 - Please be advised that the Hon. Cameron Friesen, Minister of Health, Seniors and Active Living, will be conducting a Conference Call on Monday to provide an update to municipal officials on COVID-19 (Coronavirus) preparedness.

All Heads of Council are invited to participate on the call. If you are unavailable, a delegate is welcome to participate on your behalf.

Conference Call details:

- **Date:** Monday, March 2, 2020
- **Time:** 3:00 pm (the call will approximately be 15-20 minutes)
- **Phone Number:** 1-866-365-4409

- **Code: 5615887#**

Background: **Province of Manitoba press release - Coronavirus Bulletin #5**

For the most up-to-date information on COVID-19, please visit the Manitoba public health website at www.gov.mb.ca/health/publichealth/diseases/coronavirus.html.

Sincerely,

Denys Volkov
Executive Director

Sent: Sunday, March 1, 2020 12:03 PM
To: RM Oakland 2
Subject: REMINDER #1 - 2020 June District Resolutions - June 1 deadline

Attention AMM Members:

The 2020 June District meetings will take place on **June 11-12, 16-18, and 24-25.**

Please note that the deadline to submit resolutions for all June District meetings is **June 1, 2020. Resolutions will be categorized prior to each JDM, and only Category 1 and Category 2 resolutions will be considered for debate.**

For more information, please review:

JDM Resolutions Process and How to Write a Resolution

Resolutions MUST include whereas clauses, otherwise they will not be accepted.

NEW FOR 2020 - Resolutions must be directed at the provincial or federal governments or AMM. Resolutions directed at individual AMM members will not be accepted (any member can send the AMM a letter to review issues of this nature).

Additional suggestions to consider:

- *Has your municipality contacted the corresponding provincial/federal department(s) about the issue and copied the AMM?*

- *Have you called the AMM office and asked for assistance?*
- *Have you consulted with neighbouring municipalities and/or the Manitoba Municipal Administrators' Association (MMAA)?*

Resolutions must be passed by your local Council and a signed certified copy must be submitted to the AMM office prior to the **June 1 deadline** (submitting a PDF version via email is sufficient). If your municipality can also provide the plain text of the resolution in either an email or Microsoft Word, it would be greatly appreciated.

Please submit your resolutions to AMM Senior Policy Analyst Stefanie Vieira at svieira@amm.mb.ca.

Sincerely,

Nick Krawetz
AMM Director of Policy and Communications

AMM, 1910 Saskatchewan Ave. W, Portage la Prairie, Manitoba R1N 0P1 Canada

MEMBER ADVISORY

SUMMARY: COVID-19 (Coronavirus) Preparedness Conference Call with the Minister of Health, Seniors and Active Living

ATTENTION: Heads of Council

March 2, 2020 - Please see the following link below for the summary notes from the call with the Hon. Cameron Friesen, Minister of Health, Seniors and Active Living, regarding COVID-19 (Coronavirus) preparedness.

SUMMARY NOTES - Minister Friesen Conference Call

At this time, there are **no** laboratory confirmed cases of COVID-19 in Manitoba and the overall risk to Manitobans remains low.

In the event of a positive test case in Manitoba, the AMM will work with the Minister's office to coordinate a second conference call to brief municipal officials across Manitoba.

March 2, 2020 - The AMM toured the Midwestern District of the province last week and met with local Councils from a number of municipalities. The AMM makes it a priority to visit each of its member municipalities at least once during each four-year election cycle.

"Meeting one-on-one with local Councils as well as discussing the challenges and opportunities they are facing is invaluable, as it allows AMM to more effectively advocate on behalf of all municipalities," stated AMM President Ralph Groening.

"Improving cellular network coverage was a common theme during our discussions. Sustained infrastructure upgrades are essential for improving public safety, increasing competitiveness of businesses, and maximizing job opportunities in local communities," noted Merv Starzyk, Mayor of the RM of Yellowhead and AMM Midwestern District Director.

"These visits reinforced my appreciation for the great work local Councils are doing on behalf of their communities. We are all partners in growing Manitoba and learning about local priorities and challenges on the ground is the first step to keep the growing going," added Murray Parrott, Councillor from the Town of Neepawa and AMM Midwestern District Director.

The AMM delegation visited Prairie View Municipality, Municipality of Russell-Binscarth, RM of Ellice-Archie, Hamiota Municipality, RM of Oakview, RM of Minto-Odanah and RM of Rosedale.

Members of the AMM delegation included President Ralph Groening, Vice-Presidents Kam Blight and Brad Saluk, Midwestern District Directors Merv Starzyk and Murray Parrott, and Executive Director Denys Volkov.

The AMM represents all 137 municipalities in Manitoba.

Subject: Cleanfarms Puts Feet on the Ground in Alberta with New Lethbridge Office

Cleanfarms Puts Feet on the Ground in Alberta with New Lethbridge Office

Cleanfarms, a Canada-wide stewardship organization best known for its ag-plastics recycling programs for pesticide and fertilizer jugs and totes and grain bags has opened an Alberta office in Lethbridge.

“Alberta’s importance as an executive hub for agricultural industry is growing. That combined with its position as a Prairie powerhouse for agriculture in Canada, points to the need for Cleanfarms to have feet on the ground in the province, too,” said General Manager Barry Friesen.

Cleanfarms currently has offices in Quebec, Ontario and Saskatchewan.

The Lethbridge office will be staffed by Davin Johnson, an environmental scientist who grew up in Alberta and has worked for the past decade in the province’s oil and gas, academic, government and agricultural sectors. He holds a Bachelor of Science in Geography from the University of Lethbridge.

Already familiar with Cleanfarms programs, Davin has helped to organize Cleanfarms’ Unwanted Pesticide and Livestock/Equine Medication Collection program, which collects old and obsolete pesticides and animal health medications from farmers for safe disposal, and the newly launched ‘**Alberta Ag-plastic. Recycle it!**’ pilot program that has commissioned 20 locations throughout the province to collect grain bags and twine for recycling. Cleanfarms operates the pilot on behalf of the Alberta-based Agricultural Plastics Recycling Group.

“With the grain bag and twine recycling program now underway in a progressive province that is evolving waste management and producer responsibility programs, it’s a logical and important next step for Cleanfarms to have an Alberta-based office,” Friesen said.

Cleanfarms, which is celebrating its 10th anniversary this year, is the only industry funded organization working across Canada that develops and operates waste product and packaging stewardship for the agricultural community. It utilizes a vast network of industry distributors, ag-retailers and in Alberta and Manitoba, municipalities, to operate collection sites where farmers can take ag-waste plastics and other non-organic, ag-waste materials for recycling or proper disposal.

Cleanfarms was established specifically to run the successful small jug recycling program originally created in 1989. The jug recycling program is Cleanfarms' signature national agricultural recycling program with a 65% recovery rate. Other ag-waste management programs include:

- Empty pesticide and fertilizer containers for large containers, e.g., totes and barrels, operated nationally
- Unwanted and old pesticide and livestock/equine medication collection, operated nationally
- Empty seed and pesticide bags collected in eastern Canada with pilot programs underway in the Prairies, and
- Empty grain bag collection now in its third year of operation in Saskatchewan.

About Cleanfarms

Cleanfarms is a non-profit industry stewardship organization committed to environmental responsibility through the proper management of agricultural plastic packaging and product waste. Recycled agricultural plastics are made into new products such as farm drainage tile, flexible irrigation pipe and plastic bags. Cleanfarms.ca

NEWS | February 18, 2020

FCM members tackle western economic challenges

With a federal budget on the way, municipal and federal leaders gathered in Leduc, Alberta last week to explore solutions to the economic uncertainty facing many western communities. The full-day summit was convened by FCM's Western Economic Solutions Taskforce (WEST) and featured Deputy Prime Minister Chrystia Freeland, as well as cabinet ministers and opposition MPs.

WEST was launched in the wake of the 2019 federal election to ensure the priorities of western communities are clearly heard in Ottawa. The taskforce unites rural and urban municipal leaders from Manitoba, Saskatchewan, Alberta and British Columbia. WEST is exploring a full range of economic solutions—both to fuel recommendations to the federal government and to share among municipalities from coast to coast to coast.

 **READ AN UPDATE FROM THE MEETING**

GMF Council's new LC3 committee

We're proud to announce a new committee representing the Low Carbon Cities Canada (LC3) initiative to GFM Council. This committee will provide strategic guidance and oversight to this first-of-its-kind partnership between seven local not-for-profit centres, supported by FCM in its role as the LC3 National Office.

LC3 is a network of centres in seven of Canada's largest urban areas. Our partnership serves as a catalyst for the widespread adoption of clean energy solutions from coast to coast to coast.

NEWS | February 24, 2020

FCM calls for National 5G Working Group

On Friday, Daniel Rubenstein, FCM's Director of Policy and Research, presented to the Canadian Radio-television and Telecommunications Commission (CRTC) about the rollout of 5G technology and its potential impact on cities and communities. 5G deployment is only starting and we know the technology will present new technical challenges to municipalities. FCM recommends the immediate creation of a National 5G Working Group including municipalities, carriers, and other relevant stakeholders, with participation from both the CRTC and Innovation, Science and Economic Development Canada (ISED). Access to high-speed Internet is a crucial issue for FCM members in communities of all sizes. We want to work with the CRTC, ISED and carriers to ensure all Canadians have the access they need to thrive.

President's Corner: How FCM plays a unique role in Canada

In last Thursday's President's Corner, Bill Karsten showcased how FCM brings together key municipal and federal decision-makers to drive solutions that build better lives.

In President Karsten's words: "Our ability to convene and unite different municipal perspectives—all driven to deliver results—has earned us the ear and the trust of the federal government. It's led to new tools and influence for communities of all sizes. And it's made local leaders essential partners in tackling this country's biggest challenges."

FCM VOICE

Canada's voice of local government

FCM's Board meets ahead of Budget 2020

With the 2020 federal budget fast approaching, FCM's elected Board of Directors gathers in Saint-Hyacinthe, Quebec this week to send a clear message: when Ottawa invests in local governments, we deliver for Canadians.

Budget 2020 is a litmus test for a minority government that needs to show it can drive results. And so, on Thursday, FCM will release budget recommendations that focus on three key areas: climate action that builds better lives, housing affordability, and steps to strengthen communities of all sizes.

After four years of progress, we're determined to continue moving forward. Our budget proposals equip local leaders to deliver results Canadians can see and feel in their daily lives. So stay tuned.

FCM VOICE

Canada's voice of local government

FCM targets upcoming federal budget

Mid-way through last week's national board gathering in Saint-Hyacinthe, Quebec, FCM released *Building Better Lives with Budget 2020*. This is our shortlist of recommendations for the upcoming federal budget.

From infrastructure tools to leadership on housing affordability, we're calling for steps that strengthen communities of all sizes. And we're showing how tooled-up municipalities can tackle federal climate objectives *in ways that also improves people's daily lives*

For a minority government, this first budget is a key opportunity—to show they can get concrete things done for Canadians. What we offer is a clear path: practical ways to empower municipalities to deliver results that Canadians can see and feel.

FCM's board meeting wraps up in Saint-Hyacinthe

FCM's elected Board of Directors wrapped up four days of meetings last Friday in Saint-Hyacinthe, Quebec. The board meets regularly to drive FCM's priorities forward, and to respond to emerging issues facing municipalities of all sizes. Board members received an update from FCM's Western Economic Solutions Taskforce, and they continued to explore ways to strengthen FCM's long-term foundation. With the release of our Budget 2020 recommendations, board members also looked at practical next steps to continue empowering municipal leaders to build better lives.

NEWS | March 9, 2020

Celebrating women in local government, in Canada and around the world

FCM and the Government of Canada continue to work together to ensure all women can participate in the political life of their community, both in Canada and overseas.

To achieve gender equality and open doors for women across all diversities, we need women in leadership roles. Through our women in local government initiatives, FCM helps support women from all backgrounds increase their knowledge, build their capacity, and become leaders in their communities.

Learn more about our work with women in local government.

Training, education & resources

Education, capacity building, training and workshops are core tenants of our international programming. At FCM, we see our role as helping to increase the knowledge and capacity of women local elected

officials, so that they can have a greater impact on their community and help address the challenges faced by the people they represent.

The [Municipal Cooperation Program](#), based in Haiti, has organised more than seven training sessions, where women elected officials from all the country shared their experiences and learn about their roles and responsibilities. Last fall, the program trained over 700 local elected women on their role, helping them strengthen their ability to navigate their city halls and be advocates for their communities.

Meanwhile, last February, Maja Tait, Mayor of Sooke, BC, who is also the president of the Union of B.C. Municipalities, [travelled to Cambodia](#) as part of our [Partnerships for Municipal Innovation](#) program, to deliver capacity-building workshops for women elected officials. These workshops focused on facilitation skills, conflict mediation and the laws protecting women and children.

Building peer support networks

Peer support networks have proven to be a powerful tool for strengthening women's leadership positions and political participation. These networks help women elected officials support each other to overcome the barriers they face and to lead their communities with confidence.

The [Sustainable and Inclusive Communities in Latin America](#) (CISAL) program helped develop several women's networks in Colombia and Peru. Through these networks, CISAL was able to strengthen the leadership, strategic communication, and local management capacity of 132 Colombian mayors, 20 Peruvian politicians and leaders, and over 200 women who aspired to elected office. [Discover what CISAL](#) did to support women's political and economic empowerment in Colombia and Peru.

CISAL's [Network of Women Mayors for Democracy and Peace](#) adopted an action plan to promote a gender equality agenda in the municipalities, support the participation of women in politics, and to strengthen the capacities of women mayors. The Network offered workshops for women interested in running for office in 10 different regions, based on the Canadian "campaign school" model. The Network certified 90 women strategic communication planning, and helped over 500 women access the resources online.

Helping Canadian municipalities move toward parity

At home in Canada, FCM's work to increase and [support women in local government](#) spans more than two decades, and includes research, advocacy and programming. Municipal governments can play a leading role in helping to achieve gender equality by helping to ensure the participation of women in the political life of their community.

Over the past year, our national program, [Toward Parity in Municipal Politics](#), with support from the Government of Canada, has been consulting with and engaging municipalities, provincial-territorial associations, and sector leaders to map out the barriers women elected officials face and to generate ideas of how to tackle them. The results of this effort will be revealed later this year – [follow us on Facebook](#) to stay in the loop.

Celebrating women in local government with the Ann Maclean Award

#IWD2020 is the perfect opportunity to nominate a former municipal politician for the Ann MacLean Award, honouring her contribution to the promotion of gender equality.

 **NOMINATE SOMEONE TODAY**

2019 Annual Compliance Audit

Dear Ms. Swidnicki:

Please find enclosed the 2019 Annual Compliance Audit for the Wawanesa public water system (PWS). The report compares water system compliance to The Drinking Water Safety Act and its supporting regulations, and the terms and conditions of the water system's current operating licence (PWS-08-225-02 A).

Where non-compliance items are identified, the issues do not necessarily translate into increased public health risk. The Office of Drinking Water uses processes, including boil water advisories, to notify water users of a public health risk.

Please review the following terms and conditions of your operating licence to ensure ongoing compliance:

- Water quality sampling frequencies identified in *Table 2*.
- Water System Assessment (due date: March 1, 2020)
- Compliance Plan (due date: November 30, 2020)

Facility Classification and Operator Certification

In 2020, Conservation and Climate will be enforcing on the Water and Wastewater Facility Operators Regulation MR. 77/2003 beginning with Public Water Systems classified at Level 3 and Level 4 Water Treatment Facilities and Water Distribution. The focus will be on operator certification and submission of an up-to-date Table of Organization.

Operational Guidelines

Water suppliers that own and operate a portion of their water supply on a seasonal basis, such as a campground or park, are reminded they are required to follow Seasonal Water System Start-up/Shutdown procedures

Water suppliers are reminded to immediately notify the Office of Drinking Water of any condition(s) that may affect the ability of the water system to produce or deliver safe drinking water. These conditions include:

- treatment upsets, bypass conditions, operation outside of licence conditions
- contamination of source or treated water
- a disinfection, filtration, or distribution system failure

Operational Guidelines to assist operators in meeting regulatory obligations for monitoring and reporting under The Drinking Water Safety Act, including Seasonal System and Emergency Reporting requirements, can be found on our website at: www.gov.mb.ca/drinkingwater.

Additional Information

Health Canada has updated National Guidelines, including algae (cyanobacteria toxins) manganese and lead. Owners and operators are encouraged to review Health Canada's guidelines and related chemistry results to determine what impact they may have on your water supply. You will receive notification of any changes to Health Canada's Guidelines for Canadian Drinking Water Quality and Manitoba Standards should they affect your water supply.

Please find attached a copy of water test results from chemistry samples taken on December 10, 2019.

The 2019 Annual Compliance Audit is based on information submitted to this office. If you have questions regarding non-compliance items identified in this audit, please review your records prior to contacting this office. If your records conflict with the audit information, please call me at (204) 570-1405.

Sincerely,

Christine Gerardy
Senior Regional Drinking Water Officer

Reference Information

Qualifiers for Individual Parameters Listed:

Qualifier	Description
HTC	Hardness was calculated from Total Ca and/or Mg concentrations and may be biased high (dissolved Ca/Mg results unavailable).
DLM	Detection Limit Adjusted due to sample matrix effects (e.g. chemical interference, colour, turbidity).

Methods Listed (if applicable):

ALS Test Code	Matrix	Test Description	Method Reference**
ALK-CO3CO3-CALC-WP	Water	Alkalinity, Carbonate	CALCULATION
The Alkalinity of water is a measure of its acid neutralizing capacity. Alkalinity is imparted by bicarbonate, carbonate and hydroxide components of water. The fraction of alkalinity contributed by carbonate is calculated and reported as mg CO ₃ 2-/L.			
ALK-HCO3HCO3-CALC-WP	Water	Alkalinity, Bicarbonate	CALCULATION
The Alkalinity of water is a measure of its acid neutralizing capacity. Alkalinity is imparted by bicarbonate, carbonate and hydroxide components of water. The fraction of alkalinity contributed by bicarbonate is calculated and reported as mg HCO ₃ -/L.			
ALK-OH-OH-CALC-WP	Water	Alkalinity, Hydroxide	CALCULATION
The Alkalinity of water is a measure of its acid neutralizing capacity. Alkalinity is imparted by bicarbonate, carbonate and hydroxide components of water. The fraction of alkalinity contributed by hydroxide is calculated and reported as mg OH-/L.			
ALK-TITR-WP	Water	Alkalinity, Total (as CaCO ₃)	APHA 2320B
The Alkalinity of water is a measure of its acid neutralizing capacity. Alkalinity is imparted by bicarbonate, carbonate and hydroxide components of water. Total alkalinity is determined by titration with a strong standard mineral acid to the successive HCO ₃ ⁻ and H ₂ CO ₃ endpoints indicated electrometrically.			
BR-L-IC-N-WP	Water	Bromide in Water by IC (Low Level)	EPA 300.1 (mod)-LR
Inorganic anions are analyzed by Ion Chromatography with conductivity and/or UV detection.			
C-DOC-HTC-WP	Water	Dissolved Organic Carbon by Combustion	APHA 5310 B-WP
Filtered (0.45 µm) sample is acidified and purged to remove inorganic carbon, then injected into a heated reaction chamber where organic carbon is oxidized to CO ₂ which is then transported in the carrier gas stream and measured via a non-dispersive infrared analyzer.			
C-TIC-HTC-WP	Water	Total Inorganic Carbon by Combustion	APHA 5310 B-WP
Sample is injected into a heated reaction chamber where it is acidified converting all inorganic carbon to CO ₂ , which is then transported in the carrier gas stream and measured via a non-dispersive infrared analyzer.			
C-TOC-HTC-WP	Water	Total Organic Carbon by Combustion	APHA 5310 B-WP
Sample is acidified and purged to remove inorganic carbon, then injected into a heated reaction chamber where organic carbon is oxidized to CO ₂ which is then transported in the carrier gas stream and measured via a non-dispersive infrared analyzer.			
CL-L-IC-N-WP	Water	Chloride in Water by IC (Low Level)	EPA 300.1 (mod)
Inorganic anions are analyzed by Ion Chromatography with conductivity and/or UV detection.			
COLOUR-TRUE-WP	Water	Colour, True	APHA 2120C
True Colour is measured spectrophotometrically by comparison to platinum-cobalt standards using the single wavelength method (450 - 465 nm) after filtration of sample through a 0.45 µm filter. Colour measurements can be highly pH dependent, and apply to the pH of the sample as received (at time of testing), without pH adjustment. Concurrent measurement of sample pH is recommended.			
EC-SCREEN-WP	Water	Conductivity Screen (Internal Use Only)	APHA 2510
Qualitative analysis of conductivity where required during preparation of other test eg. IC, TDS, TSS, etc			
EC-WP	Water	Conductivity	APHA 2510B
Conductivity of an aqueous solution refers to its ability to carry an electric current. Conductance of a solution is measured between two spatially fixed and chemically inert electrodes.			
ETL-LANGELIER-4-WP	Water	Langelier Index 4C	Calculated
ETL-LANGELIER-60-WP	Water	Langelier Index 60C	Calculated
ETL-N-TOT-ANY-WP	Water	Total Nitrogen Calculated	Calculated
F-IC-N-WP	Water	Fluoride in Water by IC	EPA 300.1 (mod)

Reference Information

Methods Listed (if applicable):

ALS Test Code	Matrix	Test Description	Method Reference**
Inorganic anions are analyzed by Ion Chromatography with conductivity and/or UV detection.			
HARDNESS-CALC-WP	Water	Hardness Calculated	APHA 2340B
Hardness (also known as Total Hardness) is calculated from the sum of Calcium and Magnesium concentrations, expressed in CaCO ₃ equivalents. Dissolved Calcium and Magnesium concentrations are preferentially used for the hardness calculation.			
I-IC-AD	Water	Iodide in Water - Datachem Ohio	SEE SUBLET LAB RESULTS
IONBALANCE-CALC-WP	Water	Ion Balance Calculation	APHA 1030E
Cation Sum, Anion Sum, and Ion Balance (as % difference) are calculated based on guidance from APHA Standard Methods (1030E Checking Correctness of Analysis). Because all aqueous solutions are electrically neutral, the calculated ion balance (% difference of cations minus anions) should be near-zero.			
Cation and Anion Sums are the total meq/L concentration of major cations and anions. Dissolved species are used where available. Minor ions are included where data is present. Ion Balance (as % difference) cannot be calculated accurately for waters with very low electrical conductivity (EC), and is reported as "Low EC" where EC < 100 uS/cm (umhos/cm). Ion Balance is calculated as:			
Ion Balance (%) = [Cation Sum-Anion Sum] / [Cation Sum+Anion Sum]			
MET-T-CCMS-WP	Water	Total Metals in Water by CRC ICPMS	EPA 200.2/6020B (mod.)
Water samples are digested with nitric and hydrochloric acids, and analyzed by CRC ICPMS.			
Method Limitation (re: Sulfur): Sulfide and volatile sulfur species may not be recovered by this method.			
N-TOTKJ-WP	Water	Total Kjeldahl Nitrogen	APHA 4500 NorgD (modified)
Aqueous samples are digested in a block digester with sulfuric acid and copper sulfate as a catalyst. Total Kjeldahl Nitrogen is then analyzed using a discrete analyzer with colorimetric detection.			
NH3-COL-WP	Water	Ammonia by colour	APHA 4500 NH3 F
Ammonia in water samples forms indophenol when reacted with hypochlorite and phenol. The intensity is amplified by the addition of sodium nitroprusside and measured colourmetrically.			
NO2-L-IC-N-WP	Water	Nitrite in Water by IC (Low Level)	EPA 300.1 (mod)
Inorganic anions are analyzed by Ion Chromatography with conductivity and/or UV detection.			
NO3-L-IC-N-WP	Water	Nitrate in Water by IC (Low Level)	EPA 300.1 (mod)
Inorganic anions are analyzed by Ion Chromatography with conductivity and/or UV detection.			
PH-WP	Water	pH	APHA 4500H
The pH of a sample is the determination of the activity of the hydrogen ions by potentiometric measurement using a standard hydrogen electrode and a reference electrode.			
SO4-IC-N-WP	Water	Sulfate in Water by IC	EPA 300.1 (mod)
Inorganic anions are analyzed by Ion Chromatography with conductivity and/or UV detection.			
TDS-WP	Water	Total Dissolved Solids (TDS)	APHA 2540 SOLIDS C,E
A well-mixed sample is filtered through a glass fiber filter paper. The filtrate is then evaporated to dryness in a pre-weighed vial and dried at 180 – 2C. The increase in vial weight represents the total dissolved solids.			
TURBIDITY-WP	Water	Turbidity	APHA 2130B (modified)
Turbidity in aqueous matrices is determined by the nephelometric method.			
UV-%TRANS-WP	Water	UV Transmittance (Calculated)	APHA 5910B
Test method is adapted from APHA Method 5910B. A sample is filtered through a 0.45 um polyethersulfone (PES) filter and its UV Absorbance is measured in a quartz cell at 254 nm. UV Transmittance is calculated from the UV Absorbance result and reported as UV Transmittance per cm. The analysis is carried out without pH adjustment.			
VOC+F1-HSMS-WP	Water	VOC plus F1 by GCMS	EPA 8260C / EPA 5021A
In this method samples are analyzed using a headspace autosampler interfaced to a dual column gas chromatograph with MS and Flame Ionization detectors.			
XYLENES-SUM-CALC-WP	Water	Sum of Xylene Isomer Concentrations	CALCULATED RESULT

Reference Information

Methods Listed (if applicable):

ALS Test Code	Matrix	Test Description	Method Reference**
---------------	--------	------------------	--------------------

Total xylenes represents the sum of o-xylene and m&p-xylene.

**ALS test methods may incorporate modifications from specified reference methods to improve performance.

Chain of Custody Numbers:

The last two letters of the above test code(s) indicate the laboratory that performed analytical analysis for that test. Refer to the list below:

Laboratory Definition Code	Laboratory Location
AD	ALS ENVIRONMENTAL - CINCINNATI, OHIO, USA
WP	ALS ENVIRONMENTAL - WINNIPEG, MANITOBA, CANADA

GLOSSARY OF REPORT TERMS

Surrogates are compounds that are similar in behaviour to target analyte(s), but that do not normally occur in environmental samples. For applicable tests, surrogates are added to samples prior to analysis as a check on recovery. In reports that display the D.L. column, laboratory objectives for surrogates are listed there.

mg/kg - milligrams per kilogram based on dry weight of sample

mg/kg ww - milligrams per kilogram based on wet weight of sample

mg/kg lwt - milligrams per kilogram based on lipid-adjusted weight

mg/L - unit of concentration based on volume, parts per million.

< - Less than.

D.L. - The reporting limit.

N/A - Result not available. Refer to qualifier code and definition for explanation.

Test results reported relate only to the samples as received by the laboratory.

UNLESS OTHERWISE STATED, ALL SAMPLES WERE RECEIVED IN ACCEPTABLE CONDITION.

Analytical results in unsigned test reports with the DRAFT watermark are subject to change, pending final QC review.

Application of guidelines is provided "as is" without warranty of any kind, either expressed or implied, including, but not limited to, fitness for a particular purpose, or non-infringement. ALS assumes no responsibility for errors or omissions in the information. Guideline limits are not adjusted for the hardness, pH or temperature of the sample (the most conservative values are used). Measurement uncertainty is not applied to test results prior to comparison with specified criteria values.

Laura Flikweert
P.O. Box 20, Site 195, RR #1
Brandon, MB R7A 5Y1

Dear Laura Flikweert:

RE: PROPOSAL TO SUBDIVIDE PT. NW-11-08-19-W
OAKLAND-WAWANESA (M)

(FLIKWEERT)

Enclosed is a Certificate of Approval, the original plan and two (2) duplicates signed by the Approving Authority.

If you or your surveyor has not done so already, please submit the enclosed Certificate of Approval and Plans to the Examiner of Surveys prior to presenting the documents for registration in your local Land Titles Office.

The Examiner of Surveys is located at either: Brandon Land Titles (705 Princess Ave.) or Winnipeg Land Titles (276 Portage Ave.)

Ensure that all signatures of persons with a registered interest in the Title to the land being subdivided are on the plan and duplicate mylars, including The Examiner of Surveys. Ask the District Registrar what signatures are required on the plans.

The Certificate of Approval is valid for one year (12 months) from the date appearing on the Certificate. Upon your request the Certificate of Approval may be renewed once prior to the expiry date for one additional year (12 months) at the discretion of the Approving Authority. **Note that the fee payable to extend this Certificate of Approval is \$200.00. A cheque made out to the Minister of Finance shall accompany any request for an extension.**

Yours sincerely,

APPROVING AUTHORITY

Enclosure

March 5, 2020

To Rural Municipalities of Manitoba:

The Manitoba Oat Growers Association (MOGA) is concerned with the condition of the secondary roads within the Province of Manitoba. MOGA is a farmer led organization that works on issues relevant to Manitoba producers and this is becoming an issue of increasing concern.

Many of Manitoba's secondary roads are not in a condition to handle the current agricultural equipment and traffic, especially in years such as 2019. These roads are essential to be able to transport equipment to and from the fields and in moving grain off the field and to market.

MOGA would like to offer support to the Rural Municipalities (RM) to improve the conditions of these roads so farmers have the access needed to continue their vital roles in working to providing food to domestic and import markets. MOGA realizes that there may already be efforts to address this issue on road conditions and requirements and is willing to provide letters of support or possibly other deliverables as needed to help address this critical issue.

Canada is the world's largest exporter of oats, and nearly 90% of Canadian oat exports are to the United States. The Prairie Oat Growers Association (POGA), of which MOGA is a 1/3 member, has been actively working at increasing our market share in Mexico, and for the last few years has secured nearly 100% of that market. Many of the oats grown in Manitoba are exported to markets in the south, so timely and safe delivery is important to our growers. Producers have moved from tandem trucks to larger, semi trailer combinations of various sizes such as Super B's. However, the secondary roads in the province have not been upgraded to accommodate larger vehicles with many roads now restricting larger carriers in all seasons. This is creating real issues for Manitoba producers.

The oat growers of Manitoba appreciate your support in this issue and again would like to offer to support efforts to improve the rural infrastructure, especially on secondary roads.

Sincerely,

Doyle Penner, Chairman
Manitoba Oat Growers Association

An exciting Bachman Cummings performance announcement, the full listing of funding recipients in the Celebrate 150 Program, and a toboggan run reminiscent of 1922 Winnipeg - it's all here in February's Connect 150!

--

Une annonce palpitante d'un spectacle de Bachman Cummings, la liste complète des bénéficiaires de financement dans le cadre du programme Célébrons 150 et une piste de toboggan rappelant le Winnipeg de 1922 – tout est là dans le numéro de février de Connecter 150!

--

**Bachman Cummings Reunion at Unite 150
presented by Bell MTS!**

Rock 'n' roll royalty, Randy Bachman and Burton Cummings will headline Unite 150 presented by Bell MTS on June 27th!

Few performers can boast a set list as impressive as Bachman and Cummings. Collectively and individually, Bachman Cummings' catalogue is the envy of every artist. The Guess Who, Bachman-Turner Overdrive, Burton Cummings solo: together theirs is the Great Canadian Songbook and an integral chapter of the Manitoba story.

Coinciding with national Multiculturalism Day on June 27, 2020, Unite 150 presented by Bell MTS is a **FREE**, outdoor, full-day concert featuring Manitoba's iconic music acts, exciting multicultural programming and memorable family fun.

Held in front of the Manitoba Legislative Building on Broadway Avenue and Memorial Boulevard, Unite 150 presented by Bell MTS will be live streamed via the CTV website for home viewing or community gatherings across the province:

More announcements coming soon.

Inspired by homegrown rockers Bachman and Cummings, here are 10 of Ace Burpee's favourite songs written by Manitobans:

All Uncovered - The Watchmen

Breathless - William Prince

Friction - The Lytics

Try Anything - Sierra Noble

Nostalgia Is A Lie - Goody Grace

Left and Leaving - Weakerthans

No Way - Magnum K.I.

What Becomes of the Broken Hearted - Leonard Sumner

Rich Rich - Myazwe

Misery - Attica Riots

Réunion de Bachman Cummings dans le cadre d'Unissons 150 présentée par Bell MTS!

Les rois du rock Randy Bachman et Burton Cummings inaugureront le programme Unissons 150, présenté par Bell MTS le 27 juin!

Peu d'artistes ont un répertoire aussi impressionnant que Bachman et Cummings. Ensemble et individuellement, le catalogue de Bachman Cummings fait l'envie de n'importe quel artiste. The Guess Who, Bachman-Turner Overdrive, solo Burton Cummings : leur recueil collectif de grandes chansons canadiennes est un important chapitre de l'histoire du Manitoba.

Coïncidant avec la Journée du multiculturalisme le 27 juin 2020, Unissons 150, présenté par Bell MTS, est un concert en plein air GRATUIT d'une journée complète, mettant en vedette des spectacles de musique culte du Manitoba, un programme multiculturel emballant et des moments de plaisir en famille inoubliables.

Devant le Palais législatif du Manitoba à l'intersection de l'avenue Broadway et du boulevard Memorial, l'événement Unissons 150, présenté par Bell MTS, sera diffusé en direct sur le site Web de CTV pour les téléspectateurs à la maison et les rassemblements communautaires dans toute la province.

D'autres annonces suivront sous peu.

Inspirées par les artistes rock locaux Bachman et Cummings, voici 10 des chansons préférées d'Ace Burpee écrites par des Manitobains :

All Uncovered - The Watchmen

Breathless - William Prince

Friction - The Lytics
Try Anything - Sierra Noble
Nostalgia Is A Lie - Goody Grace
Left and Leaving - Weakerthans
No Way - Magnum K.I.
What Becomes of the Broken Hearted - Leonard Sumner
Rich Rich - Myazwe
Misery - Attica Riots

Free Admission at Saint-Boniface Museum

Want to learn more about Manitoba history? Well now you can, for FREE!
Individuals and families visiting Le Musée de Saint-Boniface Museum (MSBM) will receive free admission all year long in 2020. Visit for your chance to learn about Manitoba's Francophone and Métis influences!

--

Entrée gratuite au Musée de Saint-Boniface

Vous voulez en savoir plus au sujet de l'histoire du Manitoba? Eh bien vous pouvez maintenant le faire GRATUITEMENT! L'entrée sera libre toute l'année en 2020 pour les personnes et les familles qui visitent le Musée de Saint-Boniface (MSBM). Passez au musée pour découvrir les influences francophone et métisse du Manitoba!

We are pleased to present the complete list of Celebrate 150 events. With \$1.3 million distributed to 85 projects across the province, communities will help you celebrate Manitoba's 150th anniversary in 2020.

The selected applicants reflect Manitoba, its beauty, people, culture, and history. These events feature a wide variety of multicultural communities, locations far and wide, individuals of all ages, and a broad scope of programming.

We can't wait to celebrate with you! Check out how you can celebrate [here](#).

--

Nous sommes ravis de vous présenter la liste complète des événements de Célébrons 150. Grâce à la somme de 1,3 million de dollars distribuée à 85 projets dans toute la province, les communautés vous aideront à célébrer le 150^e anniversaire du Manitoba en 2020.

Les candidats sélectionnés représentent le Manitoba, sa beauté, sa population, sa culture et son histoire. Ses événements mettent en valeur un large éventail de communautés multiculturelles, des emplacements d'un bout à l'autre de la province, des personnes de tout âge et un programme diversifié.

Nous sommes impatients de célébrer avec vous! Découvrez comment vous pouvez célébrer [ici](#).

If you haven't checked out the Manitoba 150 Trails at The Forks yet, here's another reason to hurry over! We have now added a unique, made-in-Manitoba toboggan slide, called The Ice Chute at the south end of The Forks.

Made of more than 45 tonnes of ice harvested from Fort Whyte, The Ice Chute was inspired by black and white photos of the 1922 Winnipeg Winter Carnival.

Get carried away by The Ice Chute before it melts!

--

Si vous n'avez pas encore jeté un coup d'œil aux Manitoba 150 Trails à La Fourche, vous avez maintenant une raison de plus pour le faire sans tarder! Nous avons maintenant ajouté une piste de toboggan unique faite au Manitoba, appelée The Ice Chute, au sud de La Fourche.

Constituée de plus de 45 tonnes de glace provenant de Fort Whyte, The Ice Chute s'inspire des photos en noir et blanc du Carnaval d'hiver de Winnipeg de 1922.

Laissez-vous transporter par The Ice Chute avant qu'elle ne fonde!

EXPLORE 150 EXPLORONS 150

Congratulations to our first Explore 150 winner - Mike Andryo from St. Andrews! Mike is so excited to share his 2 Adventure Trips to Asessippi Ski Area & Resort with his children, and grandchildren! The family is all about the outdoors, including camping, fishing, and hunting - and love the chance to see the province with Explore 150!

Thank you so much to Asessippi, Russell Inn, and Stag and Raven, for being our generous prize sponsors!

February Prize: Manitoba Moose Suite & Stay Package

March Prize: Manitoba Festivals ticket package

See Manitoba's premier events with a pair of tickets to Winnipeg Folk Festival, Dauphin's Countyfest, Rockin' the Fields of Minnedosa, The Royal Winnipeg Ballet, Winnipeg Fringe Festival, Folklorama, and Festival du Voyageur!

With great prizes to be won, and amazing destinations to discover, download the app today!

Learn 150, an educational tool kit about issues specific to Manitoba in partnership with WE and Canad Inns, is now available! **Discover** new ways to talk about reconciliation, diversity, and healthy living in the classroom, in the community, and in the home.

--

Apprenons 150, une ressource éducative au sujet d'enjeux propres au Manitoba conçue avec la collaboration de l'organisme WE et de la chaîne d'hôtels Canad

Inns, est maintenant disponible! **Découvrez** de nouvelles façons de parler de réconciliation, de diversité et de mode de vie sain dans la salle de classe, dans la communauté et à la maison.

You can still get in on the fun: the 300,000 LED lights on and around the Manitoba Legislative Building will continue to shine a light on Manitoba's beauty until July 2020.

--

Il est encore temps de prendre part à la fête : les 300 000 lumières DEL qui ornent le Palais législatif du Manitoba et les environs continueront d'illuminer la beauté du Manitoba jusqu'en juillet 2020.

UPCOMING DEADLINES PROCHAINES DATES LIMITES

BUILD 150

With up to \$2.5 million available across the province, including support from James Richardson & Sons Limited and Affiliated Companies, Build 150 is supporting facility upgrades, new sports equipment, building revitalization, and any other projects that will enhance your community.

Endow MB is providing matching dollar support, and will be managing submissions.

Introduction to Coronaviruses

The purpose of this article is to provide water and wastewater utilities with a summary of some of the relevant issues related to coronaviruses treatment with considerations and recommendations to water and wastewater treatment practitioners with respect to coronaviruses in general.

- *Fate of coronaviruses in sewage and wastewater treatment plants*
- *Fate of coronaviruses in the aquatic environment*
- *Efficacy of water treatment filtration and disinfection processes for coronaviruses removal and inactivation*

It is important to remember that an extensive body of literature on the effectiveness of water and wastewater treatment processes for coronaviruses is not available, and as always, site-specific water-quality and treatment-plant details may result in variation between full-scale effectiveness and research results found in the laboratory.

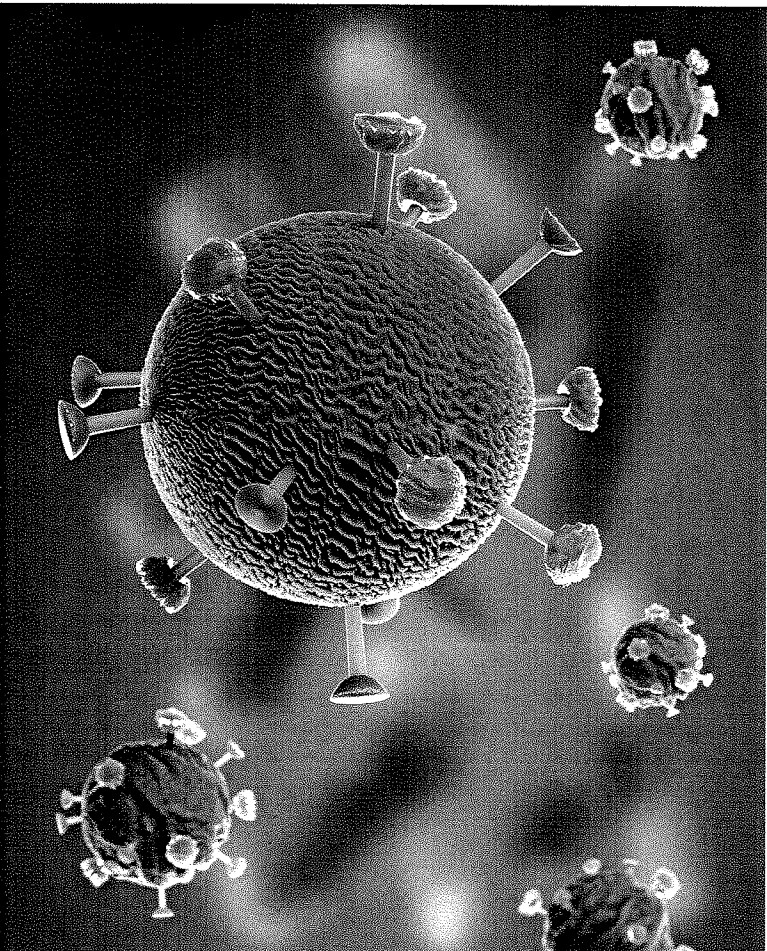

Considerations for Water and Wastewater Treatment

Infectious human coronaviruses may be present in raw wastewater that is collected from a population where an infection is occurring. About 20-40% of SARS-CoV infections presented symptoms of diarrhea and the virus is capable of binding to receptors in the intestines as well as in the lungs (Leung et al., 2003). These viruses may be detected in urine and stools from infected individuals for more than 100 days after initial infection (Liu et al., 2003). The persistence of coronaviruses in hospital wastewater and domestic sewage is estimated to be 2-3 days (Wang et al., 2005).

Wastewater treatment plants that are receiving sewage from hospitals and isolation centers treating patients for coronaviruses may have elevated concentrations of viruses in the wastewater influent. Further, if wastewater treatment is insufficient to remove or inactivate coronaviruses, or combined sewer overflows/bypasses are operational, the viruses may be released into the environment (Casanova et al., 2009).

Coronaviruses have not been found to be more resistant to water treatment than other microorganisms such as *E. coli*, phage, or human viruses such as poliovirus, which are commonly used as surrogates for treatment performance evaluations (Gundy et al., 2009). Results from bench-scale studies suggest that the survival of coronaviruses is temperature dependent; with greater survival at lower temperatures. Therefore, the persistence of coronaviruses are expected to be reduced in raw wastewater and surface waters in warmer seasons.

Common disinfection methods used in water and wastewater treatment are expected to be effective for inactivation of coronaviruses when executed properly

The recent outbreak of novel coronaviruses (COVID-19) in Wuhan City, Hubei Province, China is being closely monitored as it causes acute respiratory illness and has the potential to be fatal (CDC, 2020). The COVID-19 and the 2002 SARS-CoV (severe acute respiratory syndrome coronaviruses) are recent examples of how some coronaviruses that infect animals can evolve to infect humans.

Investigations into the COVID-19 outbreak are ongoing, and the information that we have right now may change as we learn more about this virus (WHO, 2020). As water treatment professionals, we want to inform stakeholders of the current state of knowledge on coronaviruses as it relates to our practice.

The World Health Organization has found that risk communication and community engagement (RCCE) has been integral to the success of response to health emergencies.

RCCE action items related to coronaviruses include communicating about preparedness measures at all levels and establishing a system for listening to public perceptions to prevent misinformation.

Wastewater Treatment

In general, secondary wastewater treatment may be credited with removing 1 log (90%) of viruses, though broad studies suggest the level of virus removal is highly variable between insignificant removal to greater than 2 log removal (99%) (Hewitt et al., 2011; USEPA, 1986). Because of this variability, the primary process for the inactivation of viruses in wastewater treatment is chemical disinfection (i.e. chlorination) and/or disinfection by ultraviolet (UV) light.

The efficacy of chlorination for inactivating viruses in wastewater is dependent upon numerous water quality factors. Of particular importance is the presence of disinfectant-demanding substances and in particular, ammonia, which reacts with chlorine to form chloramines. In general, chloramines are much poorer virucides as compared to free available chlorine. Thus, it is important to consider the level of ammonia before the disinfection process to adequately determine its virucidal efficiency. Chemical disinfection of wastewater with free available chlorine is expected to be effective for coronaviruses when applied at adequate levels. In one published research study, chlorination of domestic wastewater using a dose of 10 mg/L sodium hypochlorite, a contact time of 30 minutes, and a free chlorine residual of >0.4 mg/L was found to inactivate 5 log of coronaviruses (Wang et al., 2005). This level of chlorination is often applied in full-scale WWTPs. For example, the Ontario (Canada) Ministry of the Environment typically requires WWTPs to have a free chlorine residual of 0.5 mg/L after 30 minutes of contact time at the design average daily flow (Ministry of the Environment, 2008). The efficacy of UV disinfection of viruses in wastewater is highly dependent upon the fluence achieved by a particular system and it is, therefore, not possible to estimate for general systems. For UV disinfection systems that were not designed specifically for virus inactivation, only low-levels of coronaviruses inactivation are expected.

Sludge Management

The survival of coronaviruses in wastewater sludge has not been reported but is expected to vary significantly depending on site-specific sludge handling and treatment procedures. Based on a study examining survival of coronaviruses in water and wastewater (Gundy et al., 2009), coronaviruses survival in primary wastewater effluent at temperatures greater than 20°C is expected to be very low - within a period of 4 days. However, this same study reported that the survival time increases (e.g. more than 4 weeks) at cold temperatures (near 4°C) in clean water. At all temperatures studied, coronaviruses showed lower survival rates in wastewater than other viruses. Sludge handling and disposal practices should be reviewed on a case-by-case basis to prevent contamination of ground and surface waters.

The U.S. Environmental Protection Agency's (EPA's) Part 503 rule provides comprehensive requirements for the management of biosolids generated during the process of treating municipal wastewater.

Operators of Wastewater Treatment

Respiratory illnesses can be spread by contact with aerosols and by hand-to-mouth transmission. Therefore, it is recommended that wastewater treatment operators and sludge handlers use barriers such as face masks and disposable gloves to prevent exposure to aerosols. Further, strict sanitation practices should be implemented to encourage frequent handwashing, the separation of eating areas from work areas, and minimization of contact between hands and face. Communications should be sent to plant operators and staff to inform them of best sanitation practices.

Do's and Don'ts of general sanitation practices that prevent the spread of respiratory viruses are listed below.

Do's:

- Do wash hand with soap and water for at least 20 seconds, especially after using the bathroom, before eating, after blowing your nose, coughing or sneezing.
- Do stay home when you are ill.
- Do cover your cough or sneeze with a tissue and dispose of the tissue in the trash.
- Do disinfect frequently touched objects and surfaces such as door knobs.

Don'ts:

- Don't touch your eyes, nose and mouth with unwashed hands.
- Don't have close contact with people who are ill.
- CDC does not recommend the use of facemasks for the general public to prevent the spread of COVID-19 as close person-to-person contact is currently considered the greatest risk for transmission, and transmission in general population areas has not been observed.

Drinking Water Treatment

Surface water treatment plants with upstream wastewater impacts are the most susceptible to having coronaviruses contamination in the raw water supply during, and after, an outbreak. Conventional treatment with free available chlorine designed to provide 0.5 log inactivation of Giardia can achieve at least 8 log inactivation of viruses in general (Health Canada, 2019a). Note that it is important to ensure that disinfection performance is continuously monitored (e.g. turbidity, disinfectant dose, residual, pH, temperature, and flow). Optimized conventional filtration can achieve 2 (99%) log virus removal (Health Canada, 2019b). A UV fluence of 44 mJ/cm² can achieve up to 3 log (99.9%) inactivation of poliovirus 1 and rotaviruses, while a dose of 40-199 mJ/cm² can inactivate up to 3 log (99.9%) of adenoviruses; the most UV resistant viruses (Health Canada, 2019b; USEPA 2006). Based on published research, water treatment processes that meet virus removal/inactivation regulations are expected to be effective for coronavirus control. Further details of the efficacy of various treatment processes for the removal/inactivation of human viruses was recently updated in the Guidelines for Canadian Drinking Water Quality (Health Canada, 2019b).

Potential response actions

Here are some response actions to potential risks from coronaviruses in water and wastewater treatment:

Critical Control Point	Potential Risk	Risk Response
Wastewater treatment - open basins	Aerosols created during wastewater treatment process	■ Communicate risks, provide signage, and PPE barriers to wastewater treatment operators regarding the potential transmission of coronaviruses and precautionary sanitation practices
Wastewater disinfection	Infectious coronaviruses persisting in domestic sewage	■ Ensure optimal contact time for chemical disinfection
Drinking water treatment	Infectious coronaviruses in water supplies impacted by wastewater effluent	■ Ensure continuous monitoring and performance of drinking water disinfection processes for systems with upstream wastewater impacts during, and after, and outbreak

Contact us with questions

Stantec is pleased to provide this information on coronaviruses as it relates to water treatment. We can be reached at your convenience to answer questions. We hope this factual content will assist with the communication of risk within your organization.

Subject: Emerging Rural Scholars & Upcoming Webinar-March, 2020

Rural Policy Learning Commons

March, 2020

EMERGING RURAL SCHOLARS

Since its founding in 1989, the Canadian Rural Revitalization Foundation strives to be a catalyst for rural development discussion and networking. As part of this mandate, the Foundation devotes the annual February edition of the newsletter to showcasing emerging rural researchers and community-based organizations. Highlighting the work of our community builds connections and facilitates knowledge mobilization.

This year's edition showcases eight rural researchers. These rural initiatives address a diverse range of topics including food systems, environmental corporate social responsibility practices, digital capital, place-based innovation policy, telecommuting practices and sustainable tourism.

We encourage to you connect with these researchers by sharing your knowledge, expressing an interest in their initiatives, or connecting these initiatives to other folks who could benefit or contribute.

Digital Youth Building Digital Capital in Rural Manitoba, Canada

Wayne Kelly | Kellyw@brandonu.ca | @wkruraldev
PhD Candidate, National University of Ireland, Galway

Today's digital society creates new realities and opportunities for rural communities. To fully take advantage of those digital opportunities, rural communities must build the capacity and culture to utilize digital technologies. People under 30 years old have grown up in a digital world, being born along with the Internet. In that context, youth may represent a unique opportunity for rural communities to embrace digital technologies and realize more of the benefits and prospects of a digital, 21st-century world. My Ph.D. research is contributing to digital technology in rural Canada through exploring and supporting youth digital capital, or assets.

I am describing the current use, barriers and opportunities related to youth and digital technologies in rural communities. Incorporating community-based action research, I also help build the digital capital of rural youth in their communities. As part of my research, I have worked with a regional library to set up and run three coding clubs for youth in Western Manitoba, building digital skills and opportunities for rural youth in communities where digital opportunities are limited or not available.

I hope that my research raises awareness of the digital capital realities for rural youth and provides one example of how to help build digital capital for youth in a rural setting.

Developing a Place-Based Approach to Rural Innovation Policy

Ashleigh Weeden | weedens@uoguelph.ca | @ashleighweeden

PhD Candidate, School of Environmental Design & Rural Development, University of Guelph

Does place really matter for rural futures? And if it does, how might we use place to frame the way we support innovation and foresight in contemporary rural policy today while we wrestle with the unknown trajectories of multiple uncertain futures? Ashleigh Weeden is currently completing a doctoral research program that seeks to explore these questions by investigating place-based models of innovation systems in rural contexts and their implications for future scenarios planning to re-imagine rural policy and rural futures.

As a PhD Candidate in the School of Environmental Design & Rural Development under the supervision of Dr. Ryan Gibson at the University of Guelph, Ashleigh has been researching key challenges in knowledge mobilization in rural policy and the implications of infrastructure management for economic development as part of this investigation.

She recently completed fieldwork in Scotland working with Dr. Jane Atterton and the Rural Policy Centre at Scotland's Rural College and supported by an RPLC Research & Exchange Mobility Grant and will be completing fieldwork in rural Ontario through mid-2020. To learn more about Ashleigh and her work, please visit www.ruraldev.ca/ashleigh-weeden

Sustainable Rural Development and Tourism

Patrick Brouder | patrick.brouder@viu.ca | @PaddyBrouder

Patrick holds the British Columbia Regional Innovation Chair in Tourism and Sustainable Rural Development at Vancouver Island University where he focuses on three interrelated areas of innovation in tourism across BC - Indigenous tourism (as a form of endogenous economic development), creative tourism (especially in 'creative outposts' in the rural and peripheral regions), and tourism evolution (long-term economic changes across rural BC) (see www.brouder.ca for more details).

Some current research projects are: 'Towards Sustainable Regional Tourism Development in the Heart of the Great Bear Rainforest', an Indigenous-led, researcher-supported initiative and 'Creative Economies: Exploring the Nexus of Culture and Tourism in Yukon and Northern BC', a SSHRC-funded, community-based research project in Whitehorse, Prince Rupert, and Terrace (see www.creativeforces.net for more information on the SSHRC

project).

British Columbia is a national leader of rural tourism innovation with a unique opportunity to link tourism development and rural sustainability. Patrick's long-term research program aligns with the province's 'Strategic framework for tourism in BC' and engages with a broad group of tourism stakeholders from across rural British Columbia to align sustainable rural development and tourism. Patrick also collaborates with rural researchers from across Canada and across the globe to further support rural lives and livelihoods. To learn more about Patrick, please visit <https://www.brouder.ca/>

From: Gretchen from Sierra Club <gretchen@sierraclub.ca>
Sent: Tuesday, March 3, 2020 10:10 AM
To: Reeve David B. Inkster
Subject: 1 Minute Action Reeve David B. Inkster- Demand Funding For Nature

The federal budget will be released soon.

If you and I want to see major investments to mitigate the biodiversity and climate crisis, we need to act now.

Sierra Club, as a member of the Green Budget Coalition, is pushing for major investments to tackle the climate crisis and protect nature, and put a stop to plastic pollution. We also asked for the federal government to develop a National Wildlife Collision Reporting System to prevent collisions with wildlife on our roadways - collisions that are estimated to occur several times every hour of every day in Canada.

Write to your MP, the Prime Minister, the Finance Minister and the Minister of Environment and Climate Change and tell them you want them to act on and approve funding for nature.

They need to hear from you Reeve David B. Inkster. Nature is counting on us.

With thanks,

Gretchen Fitzgerald
National Programs Director

RECEIVED
MAR 09 2020

March 9, 2020

Global and national efforts to minimize the transmission of COVID-19 (coronavirus) are ongoing. As a proactive measure, the federal government has released recommendations for public schools. Within these recommendations, the Public Health Agency of Canada (PHAC) notes that there is currently no widespread transmission of COVID-19 in Canada; therefore, PHAC recommends that schools take standard respiratory illness precautions, the same precautions that are recommended every year for cold and influenza season. The recommendations may be found at:

<https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/health-professionals/guidance-schools-childcare-programs.html>

Southwest Horizon School Division has an administrative procedure for *Pandemic Influenza Planning* which may be found at:

<http://www.shmb.ca/documents/general/8-16%20Pandemic%20Influenza%20Planing%20NEW.pdf>

as well as a document named *Pandemic Planning Preparedness Guidelines* at:

<http://www.shmb.ca/documents/general/SHSD%20Pandemic%20Guidelines%202020.pdf>

We have a collective responsibility, both at home and at school, to help prevent the spread of communicable illnesses. While youth who are generally in good health seem to be more resilient to the effects of the virus, they may become carriers who can transmit it to others either directly or indirectly.

Below are some measures that we will take or promote as a school division to further minimize risk.

1. Increasing our cleaning/disinfecting protocols within schools, focusing on common 'high touch' surfaces such as doorknobs, faucets, etc.
2. If students are displaying symptoms of illness, parents/guardians are asked to keep students home and possibly seek medical attention. Staff who are ill are asked to do the same.
3. Students need to be diligent with good hygiene practices, including regular hand washing and practicing the correct way to cover their nose and mouth when coughing/sneezing.
4. Minimizing hand-to-face contact, especially in the areas of the mucous membranes (eyes, nose, and mouth).
5. Students should also be discouraged from sharing food or drink at school.

We will continue to monitor the situation and communicate with you as needed on an ongoing basis.

Your truly,

A handwritten signature in cursive script that reads "Carolyn Cory".

COMMITTEE REPORT FOR Ward 3 (name of committee)

COUNCIL MEETING DATE March 17, 2020

SUBMITTED BY Councillor Shaun Cory

I would like to report the following:

I attended the drainage meeting in Glenboro

I attended the municipal Transportation, budget and building ad hoc meetings in Nesbitt

Reviewed tenders submitted to council

Liaised with building committee members.

Councillor Cory – Ward 3

COMMITTEE REPORT FOR WARD 3

COUNCIL MEETING DATE Tuesday, March 17, 2020

SUBMITTED BY Councillor Sowiak

I would like to report the following:

Reviewed various financial documents, statements, emails and grader reports.

Attended Annual Museum Board Meeting.

Attended Budget Meeting.

Attended remotely: Transportation and Public Works Committee Meeting.

Reviewed Grant application requests.

Reviewed Waste Recycle Proposals.

Reviewed Gravel crushing, loading and hauling proposals.

Reviewed Summer Operations Policy.

Reviewed IT Infrastructure Audit.

Time spent reviewing monthly meeting minutes for the previous and current month.

COMMITTEE REPORT FOR Ward 2 (name of committee)

COUNCIL MEETING DATE March 17, 2020

SUBMITTED BY Councillor Hargreaves

I would like to report the following:

Attended regular council meeting on Feb 19, 2020

Attended the Building committee meeting Feb 27, 2020

Attended Finance committee meeting Feb 27, 2020

Attended public works and transportation services committee meeting March 12, 2020

Councillor Brett Hargreaves

COMMITTEE REPORT FOR Ward 2 (name of committee)

COUNCIL MEETING DATE March 17, 2020

SUBMITTED BY Councillor Craig Hatch

I would like to report the following:

February 27 – attended Building Committee Meeting to discuss office – 1 hour

February 27 – attended preliminary 2020 budget meeting – 3 hours

Councillor Hatch – Ward 2

COMMITTEE REPORT FOR Ward 1 (name of committee)

COUNCIL MEETING DATE March 17, 2020

SUBMITTED BY Councillor McDonald

I would like to report as follows:

- I attended a Drainage Regulation Meeting in Glenboro
- I attended a Building committee meeting
- I attended a Preliminary budget meeting
- I attended a Public Works and Transportation meeting
- I attended Glenboro Municipal office to sign Handi Van papers and cheque's
- I have had calls / conversations / questions regarding Westman Communication's
- I have spent time reviewing emails and information in preparation for meetings.

Anything else I will bring up at meeting.

Councillor Bob McDonald

COMMITTEE REPORT FOR: WARD 1

COUNCIL MEETING DATE: March 17, 2020

SUBMITTED BY: BRETT MCGREGOR

I would like to report the following:

- **Attended Recreation Commission meeting March 5th.**
- **Responded to emails and text messages from ratepayers on municipal questions.**
- **Reviewed material for regular council meeting.**
- **Attended Public Works Committee meeting March 11th to discuss gravel and hauling tenders, waste and recycling tenders, dirt road service levels, IT security audit.**

COMMITTEE REPORT FOR HEAD OF COUNCIL

COUNCIL MEETING DATE March 17, 2020

SUBMITTED BY Dave Kreklewich

I would like to report the following:

- Attended the Municipal office on various occasions to review matters with the CAO as well as reviewing invoices and signing cheques.
- Received and reviewed emails from ratepayers and Councillors.
- Chaired the special meeting on Asset Management programs and FCM funding Feb. 27.
- Attended the Ad Hoc Building committee meeting Feb. 27.
- Attended the S.W. Caucus meeting in Boissevain March 9. This is a joint group of Municipal Officials who discuss ideas and concerns on matters of mutual interest. Various topics were discussed with Rural Crime as a main topic to formulate an approach to work with the Provincial Government. Resolutions were constructed which will be passed on to all the Municipal councils for further review.
- I chaired the Transportation Committee meeting on March 11.

CHIEF ADMINISTRATIVE OFFICER'S REPORT – March 17, 2020

Property Matters

Continue to work on subdivision development agreement.

Had discussions with potential new residents regarding land in the Municipality.

Special Levies

Awaiting information from The Municipal Board on two special levies.

Preliminary Budget

Continued work on the 2020 preliminary budget.

Meetings with Members of Council

I met with various members of Council related to municipal issues.

IT Risk Management

I met with representatives from an IT Risk Management company to review the results of an IT security audit.

Western Caucus Meeting

I attended a Western Caucus Meeting in Boissevain, MB on Monday, March 9.

Provincial Flood Hazard Maps Meeting

The meeting scheduled for Monday, March 16, 2020 with representatives from surrounding municipalities and the Province of Manitoba has been postponed to a future date in response to concerns about Covid-19.

Covid-19

Discussions have taken place with respect to workplace health and safety related to Covid-19. Additionally, discussions have also taken place regarding business continuity, particularly with respect to the Water Treatment and Wastewater Treatment facilities.

J. Swidnicki
Chief Administrative Officer

FINANCE OFFICER'S REPORT – March 2020

- I completed the Workers Compensation Board annual payroll information report for the Municipality and the Souris River Rec. They were submitted to the WCB by the deadline of February 28.
- 2020 Flood Preparedness grant application was completed and submitted.
- The Multi Material Stewardship Manitoba (MMSM) monthly data reporting of recycling is up to date as of the end of February.
- Year end Unaudited Financial Statements have been submitted to the province.
- Preliminary budget work continues.
- Year end work and audit preparation work continues. Sensus auditors will be on site March 26, 2020.

Elaine McGregor
Finance Officer

Public Works Report
Oakland-Wawanesa Council Meeting March 17th, 2020
Submitted by Darcy Ketsman

Public Works

- Issued gravel crushing tender
- Issued gravel spreading tender
- Issued Waste/Recycling Collection RFP and hosted a kickoff meeting with all contractors interested in submitting a proposal
- Attended transportation committee meeting
- Applied for Provincial funding for flood mitigation
- Fabricated hazard signs

Ongoing

- Working on 2020 budget
- Working with Westman Communications in regard to the proposed fiber optic route
- Reviewing 2020 road construction projects in relation to anticipated federal funding
- Investigating options for ongoing drainage issues within the municipality
- Data collection for asset management is ongoing

Municipal Water Wells

- No issues to report

Transfer Stations

- No issues to report

Nesbitt Municipal Office/Maintenance Shed

- Cistern has a leak and we are having to haul water every 4-5 days to fill the cistern at the Nesbitt office.

Equipment

- Tandem gravel truck is at Morgan Motors having body integrity repairs done as part of the yearly safety.
- New grader anticipated to arrive in Brandon by March 20th.

Wawanesa Publicworks Report

March 11 2020

- 39,000 gallon daily average
- water plant has no issues
- filter plant is working good
- sewage lift station has no issues
- some of the drainage ditches have been cleared
- we are having a few street issues with the frost
- we also need to look at purchasing a couple manhole extensions
- completed the 2 1/2 day water/wastewater conference in Brandon

Public Works and Transportation Services Committee Report

March 11, 2020

2:30 p.m. at the Nesbitt Municipal Office

Members Present: Councillors Cory, Hargreaves, Hatch, McDonald, McGregor and Sowiak. Chairman Kreklewich presided.

Staff in attendance: Chief Administrative Officer Joni Swidnicki and Public Works Manager Darcy Ketsman.

General discussion took place on the following:

Gravel Hauling Tender

Gravel Crushing Tender

Solid Waste and Recyclable Material Collection and Disposal Tender

Dirt Roads

Review of Summer Operations Policy

Recommendations to Council:

Gravel Hauling Tender

BE IT RESOLVED that the bid of Fred Gilbert Trucking for gravel hauling for the years 2020 and 2021 in the amount of .333 yard/loaded mile hauling and .82 per yard for loading be accepted.

Gravel Crushing Tender

BE IT RESOLVED that the bid of Bluestar Construction for gravel crushing for the years 2020 and 2021 in the amount of \$4.10 per yard for an amount of approximately 12,000 yards annually be accepted.

Municipal Solid Waste and Recyclable Material Collection and Disposal

BE IT RESOLVED that the 3-year bid of Manitoba Waste Management for solid waste and recyclable material collection and disposal as outlined below for services A, B, C and D be accepted:

	Rent + Service	Approx. Tipping Fee	Approx. Total
2020	37,183.75	20,034.00	57,217.75 (9 months)
2021	48,981.00	26,712.00	75,693.00
2022	48,981.00	26,712.00	75,693.00

Dirt Roads

BE IT RESOLVED that Public Works be directed to focus on the following dirt roads for rehabilitation in 2020:

- Road 377
- Road 378
- Road 474
- Road 1052
- Road 1112
- Road 1113
- Road 3810
- Road 3811
- Road 3812
- Road 10411

And further, that the remainder of the dirt roads be worked with a mulcher or disc.

March 3, 2020

Municipality of Oakland-Wawanesa
Box 28
Nesbitt MB R0K 1P0

Attention: Dave Kreklewich, Mayor

Dear Mayor and council members:

Please find attached a Notice of Intent to file a caveat on a property owned by Matthew Edward Gorgerat & Virginia Dawn Greening of Brandon, Manitoba. This Notice of Intent has been sent to inform you that The Manitoba Habitat Heritage Corporation (MHHC) intends to sign a Conservation Agreement with the Gorgerats to conserve wildlife habitat located in your Municipality. The legal description of the land is:

The SW ¼ of section 30-8-18 WPM
Exc all Mines and Minerals as set forth in Transfer R7858
With Title Number 3006756/2

In July of 1998, the Manitoba Government passed the Manitoba Conservation Agreements Act (see attached), enabling conservation organizations to enter into an agreement with landowners to purchase a “conservation interest” on their property. This “conservation interest” is designed to protect natural ecosystems, fish and wildlife habitat, and plant or animal species. Areas that are the subject of a “conservation interest” are usually marginal for farming and typically include sloughs, woodlands and unimproved prairie. These areas are generally the least productive agricultural portions of the land that have not been developed for agricultural purposes because of limited capability. In most cases these conservation lands are not cultivated.

A Conservation Agreement allows landowners to use their cultivated land to its full agricultural capacity, while protecting the important wildlife habitats in perpetuity. The landowner retains control of the land and continues to be responsible for weed control, the management of pests such as beaver, control of access to the land and payment of municipal taxes. The landowner may sell the land under the Agreement, but like an easement, the conditions of the Agreement “run with the land” and will apply to

Homegrown conservation since 1986.

all future owners of the property for the term of the Agreement, unless terminated under provisions outlined in the Conservation Agreements Act.

The Manitoba Habitat Heritage Corporation plans to enter into a Conservation Agreement with Matthew Gorgerat and Virginia Greening involving 77 acres of their property (see attached aerial photo). If the Conservation Agreement is completed, a caveat will be placed on the land title. This caveat will restrict the Gorgerats and all subsequent owners of the property from breaking, burning, cultivating, draining, degrading, converting or in any other way disrupting the ecosystem components of habitats on the Conservation Lands outlined and hatched on the attached aerial photo. This caveat will also restrict the establishment of any commercial or residential buildings or facilities on the aforementioned Conservation Lands.

If you have any questions regarding this procedure, please contact Kasie McLaughlin, Manitoba Habitat Heritage Corporation's Brandon Habitat Conservation Specialist, at (204)724-0583, or Curtis Hullick, MHHC's Field Manager in Brandon, at (204) 724-5115.

Sincerely,

For: Stephen Carlyle
Chief Operating Officer

Kasie McLaughlin

Notice of Intent to File a Caveat

under subsection 7(3) of The Conservation Agreements Act (C.C.S.M. c. 59)

To: Municipality of Oakland-Wawanesa
Box 28
Nesbitt MB R0K 1P0

ATTN: Dave Kreklewich, Mayor

PLEASE TAKE NOTICE that the Manitoba Habitat Heritage Corporation (MHHC) (hereinafter referred to as the Holder) intends to file a caveat in the Land Titles Office at Brandon against the title of the land described below to give notice of a Conservation Agreement dated March 3, 2020 between Matthew Edward Gorgerat & Virginia Dawn Greening of Brandon, Manitoba (herein after referred to as the Owner) and the Holder.

Under the Conservation Agreement, the Owner has agreed to sell a conservation interest for the protection and conservation of 32.8 acres (13.3 hectares) of wetland and 44.3 acres (17.9 hectares) of upland habitat on the lands (see Schedule A) owned by the Owner legally described as follows:

Title #: 3006756/2

The SW ¼ of section 30-8-18 WPM

Exc all Mines and Minerals as set forth in Transfer R7858

In accordance with Section 7(4) of *The Conservation Agreements Act*, a party served with this notice who wishes to object to the registration of the caveat shall make application within thirty (30) days of being served, to the Conservation Agreements Board by registered mail or fax to:

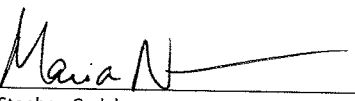

- (a) Chair of Conservation Agreements Board
c/o Manager, Water Stewardship Advisory Board Secretariat
Sustainable Development
200 Saulteaux Crescent, Box 15
Winnipeg, MB R3J 3W3
A copy may be emailed to: WSABSecretariat@gov.mb.ca

The following information shall be included in an application to the board under subsection 7(4) of the Act:

- (i) the name of the applicant or applicants;
- (ii) whether the applicant is a person who appears from the Certificate of Title to have an interest in land, a registered charge, lien or judgment against the land, or a security interest in the land;
- (iii) the date the applicant was served with a notice of intent under subsection 7(3) of the Act;
- (iv) the applicant's reasons why the caveat should not be filed.

- (b) serve the Holder with notice of the application. Please send a copy to:
Manitoba Habitat Heritage Corporation
Attn: Maria Neumann, Habitat Stewardship Coordinator
200-1765 Sargent Avenue
Winnipeg MB R3H 0C6 Fax: (204) 784-4359
A copy may be emailed to: mneumann@mhhc.mb.ca

A copy of *The Conservation Agreements Act* and the *Conservation Agreement Board Procedure Regulation* is attached. Should you require further information, please call Kasie McLaughlin, MHHC's Habitat Conservation Specialist, at (204) 724-0583 or Curtis Hullick MHHC's Field Manager at 204-724-5115.

CHAPTER C173
THE CONSERVATION AGREEMENTS ACT

(Assented to June 28, 1997)

WHEREAS it is in the best interests of the people of Manitoba, and consistent with the principles of sustainable development, that land owners and conservation agencies be able to enter into conservation agreements for the protection and enhancement of

- (a) natural ecosystems;
- (b) wildlife or fisheries habitat; and
- (c) plant or animal species;

AND WHEREAS these conservation agreements will allow for protection and enhancements of these interests while enabling the continued use and development of the land by a landowner;

THEREFORE HER MAJESTY, by and with the advice and consent of the Legislative Assembly of Manitoba, enacts as follows:

CHAPITRE C173
LOI SUR LES ACCORDS
DE CONSERVATION

(Date de sanction : 28 juin 1997)

ATTENDU QU'il y va de l'intérêt de la population manitobaine et qu'il est conforme aux principes du développement durable que les propriétaires fonciers ainsi que les organismes de conservation puissent conclure des accords de conservation pour la protection et la mise en valeur :

- a) d'écosystèmes naturels;
- b) d'habitats fauniques ou du poisson;
- c) de plantes ou d'espèces animales;

ATTENDU QUE les accords de conservation contribueront à la protection et à la mise en valeur de ces intérêts tout en permettant aux propriétaires fonciers d'utiliser et de développer de façon continue leurs biens-fonds,

SA MAJESTÉ, sur l'avis et avec le consentement de l'Assemblée législative du Manitoba, édicte :

Definitions

1 In this Act,

"board" means the Conservation Agreements Board established under subsection 8(2); (« Commission »)

"court" means the Court of Queen's Bench; (« tribunal »)

"holder" means an eligible conservation agency that holds a conservation agreement; (« cocontractant »)

"land" means land in Manitoba that is the subject of a conservation agreement; (« bien-fonds »)

"landowner" means the owner of an estate in fee simple of land; (« propriétaire foncier »)

"minister" means the member of the executive council charged by the Lieutenant Governor in Council with the administration of this Act. (« ministre »)

Conservation agreement

2(1) A conservation agreement is a written agreement between a landowner and a holder that creates a conservation interest in land.

Conservation interest

2(2) A conservation interest is an interest that imposes one or more restrictions on the use of land for the protection and enhancement of

- (a) natural ecosystems;
- (b) wildlife or fisheries habitat; or
- (c) plant or animal species.

Term of conservation agreement

2(3) A conservation agreement shall remain in force for the term specified in the agreement.

Optional terms of conservation agreement

3(1) As part of a conservation interest, a conservation agreement may grant to the holder rights and privileges that relate to a conservation purpose, including the right to enter on the land to do anything related to a conservation purpose.

Définitions

1 Les définitions qui suivent s'appliquent à la présente loi.

« **bien-fonds** » Bien-fonds situé au Manitoba et faisant l'objet d'un accord de conservation. ("land")

« **cocontractant** » Organisme de conservation admissible qui est partie à un accord de conservation. ("holder")

« **Commission** » La Commission des accords de conservation créée en vertu du paragraphe 8(2). ("board")

« **ministre** » Le membre du Conseil exécutif chargé par le lieutenant-gouverneur en conseil de l'application de la présente loi. ("minister")

« **propriétaire foncier** » Propriétaire en fief simple d'un bien-fonds. ("landowner")

« **tribunal** » La Cour du Banc de la Reine. ("court")

Accord de conservation

2(1) L'accord de conservation est conclu par écrit par un propriétaire foncier et un cocontractant et crée un intérêt de conservation dans un bien-fonds.

Intérêt de conservation

2(2) L'intérêt de conservation impose au moins une restriction quant à l'utilisation d'un bien-fonds en vue de la protection et de la mise en valeur :

- a) d'écosystèmes naturels;
- b) d'habitats fauniques ou du poisson;
- c) de plantes ou d'espèces animales.

Durée des accords de conservation

2(3) Les accords de conservation demeurent valides pour la durée qui y est précisée.

Options des accords de conservation

3(1) Les accords de conservation peuvent, à titre d'intérêt de conservation, accorder aux cocontractants des droits et des privilèges relatifs à la conservation, notamment le droit d'entrée sur un bien-fonds et d'y effectuer toute chose à des fins de conservation.

Conservation interest runs with the land

3(2) A conservation interest is an interest in land and, subject to section 7, runs with the land.

Intérêt se rattachant au bien-fonds

3(2) Un intérêt de conservation est un intérêt foncier qui, sous réserve de l'article 7, est rattaché à un bien-fonds.

Multiple conservation agreements

4 A landowner may enter into more than one conservation agreement respecting the same land if no conflict exists between the provisions or the effects of the conservation agreements.

Accords de conservation multiples

4 Les propriétaires fonciers peuvent conclure plus d'un accord de conservation à l'égard d'un bien-fonds pourvu que les dispositions et les effets des accords ne soient pas incompatibles.

Eligible conservation agencies

5 The following conservation agencies may hold a conservation agreement:

(a) a corporation without share capital that is incorporated under Part XXII of *The Corporations Act* and designated by regulation as being authorized to enter into conservation agreements;

(b) a not-for-profit corporation that is incorporated under an Act of Parliament and designated by regulation under this Act as being authorized to enter into conservation agreements;

(c) the Crown in right of Canada;

(d) the Crown in right of Manitoba;

(e) a federal or provincial Crown corporation or agency;

(f) a municipality;

(g) a local government district;

(h) a watershed district established or continued under *The Watershed Districts Act*.

S.M. 2018, c. 6, s. 40.

Organismes de conservation admissibles

5 Peuvent être cocontractants à des accords de conservation les organismes de conservation suivants :

a) les corporations sans capital-action constituées en vertu de la partie XXII de la *Loi sur les corporations* et qui font l'objet d'une désignation par règlement les autorisant à conclure des accords de conservation;

b) les corporations à buts non lucratifs constituées en vertu d'une loi fédérale et qui font l'objet d'une désignation par règlement les autorisant à conclure des accords de conservation;

c) la Couronne du chef du Canada;

d) la Couronne du chef du Manitoba;

e) les corporations de la Couronne fédérale ou provinciale ou les organismes fédéraux ou provinciaux;

f) les municipalités;

g) les districts d'administration locale;

h) les districts hydrographiques établis ou maintenus en vertu de la *Loi sur les districts hydrographiques*.

L.M. 2018, c. 6, art. 40.

Land description in conservation agreement

6(1) Subject to subsection (2), land that is the subject of a conservation agreement is sufficiently described if its boundaries are shown, or its area is indicated, on a map attached to the conservation agreement.

Description du bien-fonds dans l'accord

6(1) Sous réserve du paragraphe (2), le bien-fonds qui fait l'objet d'un accord de conservation y est suffisamment décrit si sa superficie ou ses limites sont indiquées sur une carte annexée à cet accord.

Land description for caveat

6(2) For the purpose of subsection 7(1), a conservation agreement shall contain the legal description set out in the certificate of title of the land or in which the land is included.

Registration of notice of agreement

7(1) Subject to subsections (3) to (8), the holder may give notice of the conservation agreement by filing a caveat against the certificate of title of the land or in which the land is included.

Agreement shall be filed with caveat

7(2) A copy of the conservation agreement shall be filed as a schedule to a caveat filed under subsection (1).

Notice of intent to be served

7(3) At least 45 days before filing a caveat against the land, the holder shall serve a notice of intent to file a caveat, in a form and in the manner prescribed by regulation, on the following parties:

- (a) all persons who appear from the certificate of title
 - (i) to have an interest in the land,
 - (ii) to have a registered charge, lien or judgment against the land, or
 - (iii) to have a security interest in the land;
- (b) the municipality or local government district in which the land is located;
- (c) the Minister of Aboriginal and Northern Affairs, if the land is in Northern Manitoba as defined by *The Northern Affairs Act*;
- (d) the board of a watershed district if the land is in a watershed district.

Application to board re objection to caveat

7(4) A party served with a notice under subsection (3) who wishes to object to the registration of the caveat shall

Description du bien-fonds dans l'opposition

6(2) Pour l'application du paragraphe 7(1), les accords de conservation contiennent la description officielle énoncée dans le certificat de titre du bien-fonds auquel ils se rapportent.

Enregistrement d'un avis

7(1) Sous réserve des paragraphes (3) à (8), un cocontractant peut aviser de l'existence d'un accord de conservation en déposant une opposition à l'égard du certificat de titre du bien-fonds.

Dépôt de l'accord et de l'opposition

7(2) Une copie de l'accord de conservation est annexée à l'opposition déposée en vertu du paragraphe (1).

Signification d'un avis d'intention

7(3) Au moins 45 jours avant le dépôt d'une opposition à l'égard d'un bien-fonds, le cocontractant fait signifier, en la forme et de la manière que prévoient les règlements, un avis d'intention de déposer une opposition aux parties suivantes :

- a) toutes les personnes qui, sur le certificat de titre, sont indiquées comme ayant :
 - (i) un intérêt dans le bien-fonds,
 - (ii) un privilège, une charge ou un jugement enregistré et grevant le bien-fonds,
 - (iii) une sûreté à l'égard du bien-fonds;
- b) la municipalité ou le district d'administration locale dans lequel se trouve le bien-fonds;
- c) le ministre des Affaires autochtones et du Nord si le bien-fonds est, au sens de la *Loi sur les Affaires du Nord*, situé dans le Nord du Manitoba;
- d) le conseil d'un district hydrographique si le bien-fonds est situé dans un tel district.

Contestation de l'opposition

7(4) Les parties auxquelles a été signifié l'avis visé par le paragraphe (3) qui désirent contester l'enregistrement de l'opposition :

(a) within 30 days after being served, apply to the board in accordance with the regulations for its assistance in resolving the objection; and

(b) serve the holder with notice of the application in accordance with the regulations.

Application to court re objection to caveat

7(5) Where the objection is not resolved before the board under subsection (4) and the party still wishes to object to the registration of the caveat, the party, within 30 days after the failure to resolve the objection, shall apply to court by way of notice of application for an order that the caveat not be registered.

Caveat shall not be filed after service of notice

7(6) A holder who is served

(a) with notice of an application to the board in accordance with subsection (4) shall not file a caveat until at least 45 days after the holder and applicant fail before the board to resolve the objection the applicant has regarding the caveat; or

(b) with a notice of application under subsection (5) shall not file a caveat until the application is dismissed or the holder is otherwise permitted by the court to file the caveat.

Application to court after caveat filed

7(7) Where a caveat has been registered, a party required to be served with a notice under subsection (3) who was not served in accordance with that subsection, or any other person with an interest in the land, who objects to the registration of the caveat, may apply to court by way of notice of application for an order that the registration of the caveat be vacated.

Court order

7(8) On hearing an application made

(a) under subsection (5), the court may order that the caveat not be registered; or

a) présentent, dans les 30 jours qui suivent la signification, une demande à la Commission de la manière que prévoient les règlements en vue d'obtenir son aide pour résoudre la contestation;

b) font signifier au cocontractant un avis de présentation d'une demande conformément aux règlements.

Requête au tribunal — contestation de l'opposition

7(5) Lorsque les parties n'arrivent pas à régler devant la Commission la contestation que vise le paragraphe (4), la partie qui désire toujours contester l'opposition dépose, dans les 30 jours qui suivent l'échec de résolution de la contestation, un avis de requête au tribunal en vue d'obtenir une ordonnance interdisant l'enregistrement de l'opposition.

Opposition

7(6) Les cocontractants auxquels est signifié :

a) l'avis de présentation d'une demande à la Commission que vise le paragraphe (4) ne peuvent déposer une opposition avant que ne se soit écoulé un délai de 45 jours depuis l'échec de la résolution de la contestation de l'opposition à la Commission;

b) l'avis de requête que vise le paragraphe (5) ne déposent l'opposition qu'après le rejet de la demande ou l'obtention de l'autorisation du tribunal.

Demande présentée au tribunal après dépôt

7(7) Lorsqu'une opposition a été enregistrée, toute partie ou toute personne ayant un intérêt dans le bien-fonds qui s'oppose à cet enregistrement, partie ou personne à qui aurait dû être signifié l'avis que vise le paragraphe (3) en conformité avec ce paragraphe, mais qui ne l'a pas été, peut demander au tribunal, par voie d'avis de requête, une ordonnance annulant l'enregistrement de l'opposition.

Ordonnance

7(8) S'il croit que l'accord de conservation puisse nuire aux intérêts du requérant, le tribunal peut, après avoir entendu la demande :

a) visée par le paragraphe (5), ordonner que l'opposition ne soit pas enregistrée;

(b) under subsection (7), the court may order that the registration be vacated;

if it finds that the conservation agreement would adversely affect the interests of the applicant, or may make such other order as it considers just.

S.M. 2000, c. 35, s. 29; S.M. 2018, c. 6, s. 40.

Definition

8(1) In this section "**interested party**" means a landowner, holder, municipality, local government district or other party that is potentially affected by a conservation agreement.

Conservation Agreements Board

8(2) The Conservation Agreements Board is established and shall consist of persons appointed by the minister, including at least one representative of each of the following:

- (a) a conservation agency;
- (b) the government of Manitoba;
- (c) a municipality or local government district, which representative must be approved by the Association of Manitoba Municipalities;
- (d) an agricultural producers' organization.

Chairperson

8(3) In addition to the persons appointed to the board under subsection (2), the minister shall appoint a chairperson.

Functions of board

8(4) The board shall

- (a) provide a forum for discussion for interested parties regarding conservation agreements;
- (b) assist interested parties who apply to the Board to consider the implications of a conservation agreement;
- (c) assist in the resolution of disputes between interested parties regarding conservation agreements; and

b) visée par le paragraphe (7), ordonner l'annulation de l'enregistrement de l'opposition.

Le tribunal peut également rendre toute ordonnance qu'il estime indiquée.

L.M. 2000, c. 35, art. 29; L.M. 2018, c. 6, art. 40.

Définition de « partie intéressée »

8(1) Pour l'application du présent article, « **partie intéressée** » s'entend des propriétaires fonciers, des cocontractants, des municipalités, des districts d'administration locale et des autres parties qui sont susceptibles d'être touchées par un accord de conservation.

Commission des accords de conservation

8(2) La Commission des accords de conservation est créée et se compose des personnes que le ministre nomme; elle comprend notamment au moins un représentant :

- a) d'un organisme de conservation;
- b) du gouvernement du Manitoba;
- c) d'une municipalité ou d'un district d'administration locale, représentant qui doit être approuvé par l'Association des municipalités du Manitoba;
- d) d'un organisme de producteurs agricoles.

Présidence

8(3) En plus des personnes visées par le paragraphe (2), le ministre nomme le président.

Fonctions de la Commission

8(4) La Commission :

- a) organise des forums afin de permettre aux parties intéressées de discuter des accords de conservation;
- b) aide les parties intéressées qui présentent une demande à la Commission à examiner la portée des accords de conservation;
- c) aide à résoudre les conflits entre les parties intéressées au sujet des accords de conservation;

(d) fulfill functions prescribed by regulation.

d) exerce les attributions que prévoient les règlements.

Report of the board may be considered

8(5) If the interested parties do not resolve their dispute with the assistance of the board, the board shall, at the request of any of the interested parties, prepare a report specifying its conclusions and recommendations about the matter.

Rapport de la Commission

8(5) Si les parties intéressées ne parviennent pas à régler leur différend avec l'aide de la Commission, cette dernière, à la demande d'une partie intéressée, rédige un rapport et y précise ses conclusions ainsi que ses recommandations sur la question.

Report may be filed in a proceeding

8(6) A report prepared under subsection (5) may be filed by any party to a proceeding under subsection 7(5) or (7) or 9(2) or (3) and may be considered by the court.

Dépôt du rapport

8(6) Le rapport rédigé en vertu du paragraphe (5) peut être déposé par une partie à des poursuites engagées en vertu des paragraphes 7(5) ou (7) ou 9(2) ou (3) et être pris en considération par le tribunal.

S.M. 1999, c. 33, s. 13.

L.M. 1999, c. 33, art. 13.

Termination of conservation agreement

9(1) A conservation agreement may be terminated

(a) by written agreement between the landowner and the holder; or

(b) by an order of the court made under subsection (5).

Fin de l'accord de conservation

9(1) Il peut être mis fin aux accords de conservation :

a) par convention écrite du propriétaire foncier et du cocontractant;

b) par ordonnance que le tribunal rend en vertu du paragraphe (5).

Landowner may apply to terminate

9(2) A landowner may, at any time, apply to court by way of notice of application for an order to terminate a conservation agreement to which he or she is a party on any of the following grounds:

(a) that the conservation interest no longer exists;

(b) that the holder no longer exists and no successor to the holder is specified in the conservation agreement;

(c) that the conservation interest is no longer required by the holder for the purposes identified in the conservation agreement.

Cessation demandée par les propriétaires fonciers

9(2) Les propriétaires fonciers peuvent présenter en tout temps un avis de requête au tribunal en vue d'obtenir une ordonnance mettant fin à un accord de conservation auquel ils sont parties pour les motifs suivants :

a) l'intérêt de conservation n'existe plus;

b) il n'y a plus de cocontractant et aucun successeur n'est désigné dans l'accord de conservation;

c) le cocontractant n'a plus besoin de l'intérêt de conservation aux fins précisées dans l'accord.

Application to terminate due to hardship

9(3) In addition to an application under subsection (2) and subject to subsection (4), a landowner may apply to court to terminate a conservation agreement on the ground that the continued existence of the conservation agreement is an unreasonable hardship for the landowner but, after the

Demande de cessation — préjudice

9(3) En plus de la demande visée par le paragraphe (2) et sous réserve du paragraphe (4), les propriétaires fonciers peuvent présenter une demande au tribunal en vue de mettre fin à un accord de conservation au motif que l'accord leur cause un préjudice excessif. Une fois qu'une décision a été

disposition of an application made under this subsection, no further application to terminate the same conservation agreement on that ground may be made until 20 years have elapsed from the date of the first application.

Application to board before court

9(4) A landowner shall not be entitled to apply to court for an order under subsection (3) until the landowner has applied to the board to attempt to resolve any dispute about termination of the agreement and the board has fulfilled its functions in respect of the application.

Termination order

9(5) On hearing an application under this section, the court may

- (a) terminate the conservation agreement on terms or conditions that it considers fair and reasonable; or
- (b) make such other order as it considers just.

Regulations

10 The minister may make regulations

- (a) for the purposes of clause 5(a) or (b), designating eligible conservation agencies as being authorized to enter into conservation agreements;
- (b) prescribing the form of
 - (i) a conservation agreement,
 - (ii) a notice of intent to file a caveat, and
 - (iii) any other form required by the Act;
- (c) respecting the responsibilities and functions of the board;
- (d) respecting board procedure;
- (e) respecting the procedures for applications to the board;

rendue relativement à la demande, aucune autre demande de cessation à l'égard du même accord de conservation et pour les mêmes motifs ne peut être présentée avant qu'un délai de 20 ans ne se soit écoulé depuis la date de la première demande.

Démarches préalables à la Commission

9(4) Les propriétaires fonciers n'ont pas le droit de présenter une demande au tribunal en vue d'obtenir une ordonnance en vertu du paragraphe (3) s'ils n'ont pas d'abord présenté une demande à la Commission en vue d'en arriver à un règlement du différend relatif à la cessation de l'accord et si la Commission n'a pas exercé ses attributions à l'égard de la demande.

Ordonnance de cessation

9(5) Le tribunal, après avoir entendu une demande visée par le présent article, peut :

- a) mettre fin à l'accord de conservation suivant les conditions qu'il estime justes et équitables;
- b) rendre toute autre ordonnance qu'il estime indiquée.

Règlements

10 Le ministre peut, par règlement :

- a) pour l'application des alinéas 5a) ou b), désigner les organismes de conservation admissibles qui sont autorisés à conclure des accords de conservation;
- b) régir la forme :
 - (i) des accords de conservation,
 - (ii) des avis d'intention de déposer une opposition,
 - (iii) de toute autre formule prévue par la présente loi;
- c) prendre des mesures concernant les attributions de la Commission;
- d) prendre des mesures concernant la procédure que suit la Commission;
- e) prendre des mesures concernant les modalités de présentation des demandes à la Commission;

(f) defining any word or expression used but not specifically defined in this Act;

f) définir toute expression utilisée et non définie dans la présente loi;

(g) prescribing a matter that is required or authorized by this Act to be prescribed by regulation.

g) régir les questions que nécessite ou permet la présente loi.

Crown bound

11 The Crown is bound by this Act.

Couronne

11 La présente loi lie la Couronne.

Définitions

1 Pour l'application du présent règlement, « **Loi** » s'entend de la *Loi sur les accords de conservation*.

Application to board

2 An application to the board under subsection 7(4) or 9(4) of the Act shall be in writing and shall be served by registered mail or fax on:

Chairperson
Conservation Agreements Board
Province of Manitoba
Box 11, 200 Saulteaux Crescent
Winnipeg MB R3J 3W3
Fax # (204) 945-7419

M.R. 154/2007

Time for service of application

3 An application to the board under subsection 7(4) of the Act shall be served within 30 days of the date the applicant was served with a notice of intent under subsection 7(3) of the Act.

Content of application under subsection 7(4) of the Act

4 The following information shall be included in an application to the board under subsection 7(4) of the Act:

- (a) the name of the applicant or applicants;
- (b) whether the applicant is a person who appears from the Certificate of Title to have an interest in land, a registered charge, lien or judgment against the land, or a security interest in the land;
- (c) the date the applicant was served with a notice of intent under subsection 7(3) of the Act;
- (d) the applicant's reasons why the caveat should not be filed.

Content of application under subsection 9(4) of the Act

5 The following information shall be included in an application to the board under subsection 9(4) of the Act:

- (a) the name of the applicant;
- (b) a copy of the conservation agreement that is the subject of the application;

Demandes présentées à la Commission

2 Les demandes présentées à la Commission en vertu du paragraphe 7(4) ou 9(4) de la *Loi* sont faites par écrit et signifiées par courrier recommandé ou par télécopieur à l'adresse suivante :

Président de la Commission des accords de conservation
200, croissant Saulteaux
Case postale 11
Winnipeg (Manitoba) R3J 3W3
N° de télécopieur : 204-945-7419

R.M. 154/2007

Délai de signification des demandes

3 Les demandes présentées à la Commission en vertu du paragraphe 7(4) de la *Loi* sont signifiées dans un délai de trente jours suivant la date à laquelle l'avis d'intention que prévoit le paragraphe 7(3) de la *Loi* est signifié au demandeur.

Contenu de la demande — paragraphe 7(4)

4 Les demandes que vise le paragraphe 7(4) de la *Loi* comprennent les renseignements suivants :

- a) le nom du ou des demandeurs;
- b) la mention du fait que le certificat de titre du bien-fonds indique que le demandeur a un intérêt dans le bien-fonds ou un privilège, une charge ou un jugement enregistré grevant le bien-fonds ou une sûreté sur le bien-fonds;
- c) la date à laquelle l'avis d'intention a été signifié au demandeur en application du paragraphe 7(3) de la *Loi*;
- d) les raisons pour lesquelles, selon le demandeur, l'opposition ne devrait pas être déposée.

Contenu de la demande — paragraphe 9(4)

5 Les demandes présentées à la Commission en vertu du paragraphe 9(4) de la *Loi* comprennent les renseignements suivants :

- a) le nom du demandeur;
- b) une copie de l'accord de conservation faisant l'objet de la demande;

(c) the applicant's reasons why the continued existence of the conservation agreement constitute an unreasonable hardship.

Chairperson may dismiss application

6 The chairperson of the board may dismiss an application made under subsection 7(4) or 9(4) of the Act before it is considered by the board where

(a) the application is made under subsection 7(4) of the Act and

(i) the applicant is not a party required to be served with a notice of intent under subsection 7(3) of the Act, or

(ii) the application was not served within 30 days after the applicant was served with a notice of intent under subsection 7(3) of the Act;

(b) the application is made under subsection 9(4) of the Act and

(i) the applicant is not a landowner, or

(ii) the applicant is a landowner and has made an application under subsection 9(4) with respect to the same conservation agreement within twenty years preceding the date of the present application; or

(c) the chairperson is of the opinion that the reasons for the application are frivolous and vexatious.

c) les raisons pour lesquelles, selon le demandeur, la continuation de l'accord de conservation constitue un préjudice excessif.

Rejet de la demande

6 Le président de la Commission peut rejeter une demande présentée en vertu du paragraphe 7(4) ou 9(4) de la *Loi*, avant même que la Commission ne l'examine, lorsque :

a) la demande est présentée en vertu du paragraphe 7(4) de la *Loi* et que, selon le cas :

(i) le demandeur ne fait pas partie des personnes que le paragraphe 7(3) mentionne comme celles à qui un avis d'intention doit être signifié,

(ii) la demande n'a pas été signifiée dans les trente jours qui ont suivi la signification au demandeur de l'avis d'intention que vise le paragraphe 7(3);

b) la demande est présentée en vertu du paragraphe 9(4) de la *Loi* et que :

(i) le demandeur n'est pas un propriétaire foncier,

(ii) le demandeur est un propriétaire foncier et qu'il a déjà présenté, au cours des vingt années qui ont précédé la date de la demande actuelle, une demande en vertu du paragraphe 9(4) à l'égard du même accord de conservation;

c) il estime que les raisons qu'invoque le demandeur sont sans fondement et vexatoires.

Time of hearing

7 Where the Chair does not dismiss an application under subsection (1), the Board shall hear the application within 60 days of the date of service of the application.

Date de l'audition

7 Si une demande n'est pas rejetée par le président en vertu du paragraphe (1), la Commission entend celle-ci dans les 60 jours qui suivent la date de sa signification.

To whom;

I am a member of the Newly formed Manitoba Association of Municipal Emergency Coordinators, known as MAMEC. I am also the Director of District 2

District 2 is comprised of;

Argyle, RM, Glenboro-South Cypress Mun, Lorne Mun, Morden, Town, Oakland-Wawanesa Mun, Prairie Lakes Mun, Thompson Mun, Winkler City, Cartwright-Roblin Mun, Killarney-Turtle Mountain, mun of Louise, Norfolk Treherne Mun, Pembina Mun, Stanley RM, & Victoria RM.

This Association was formed prior to the last Emergency Conference held in Winnipeg in 2018. Some of the benefits of your MEC joining this group of dedicated individuals ie;

Sorry for sending only a partial email, can't benefits;

1. Access to a network of emergency management contacts
2. MOU's to share MEC's for respite, back-up and vacations, allows each municipality to have an experienced MEC
3. MAMEC will monitor that each MEC has the required training necessary under the changing regulations
4. Updates on Government legislature information
5. A collective and inclusive voice when dealing with government on proposed changes in legislature
6. Mentoring, information sharing of best practices
7. MAMEC will host an annual conference to advance MEC education, this will be an additional fee, but will be affordable
8. Recognition of achievements and long term service
9. Job descriptions will be developed for MEC's

Many MEC's have joined the Association as of May 1st, 2019, cost is \$250.00/year, payable by May 1st.

I have several email addresses already from MEC's that I know from the above listed RM's, but there are many I do not have access too.

I am asking you to forward this email to your MEC in your Municipality and I am asking if they will agree to send me their email addresses soon and let me know whether they have become members on MAMEC or whether they have decided to not become members..

If your MEC has not joined the MAMEC, I would like to encourage them to do so, so we can work together in

District 2, helping each other and sharing best practices.

The 1st MAMEC Conference is June 18th at the Canad Inn Polo Park in Wpg for the Association. I would like to forward the information to each MEC individually that are members of MAMEC, so they can register.

If your MEC Is not wanting to be a member of the Association, please email me with that information also...

Thanking you for your time, and managing this email for me. I look forward to your response.
